Female Masochism in Film Ruth McPhee, 2016-04-15 Theoretically and representationally responses to heterosexual female masochism have ranged from neglect in theories that focus predominantly or only upon masochistic sexuality within male subjects to condemnation from feminists who regard it as an inverted expression of patriarchal control rather than a legitimate form of female desire It has commonly been understood as a passive form of sexuality thus ignoring the potential for activity and agency that the masochistic position may involve which underpins the crucial argument that female masochism can be conceived as enquiring ethical activity Taking as its subject the works of Jane Campion Catherine Breillat Michael Haneke and Lars von Trier as well as the films Secretary Steven Shainberg Dans Ma Peau Marina de Van Red Road Andrea Arnold 2006 Amer H l ne Cattat and Bruno Forzani and Sleeping Beauty Julia Leigh Female Masochism in Film avoids these reductive and simplistic approaches by focusing on the ambivalences and intricacies of this type of sexuality and subjectivity Using the philosophical writings of Kristeva Irigaray Lacan Scarry and Bataille McPhee argues that masochism cannot and should not be considered aside from its ethical and intersubjective implications and furthermore that the aesthetic tendencies emerging across these films obscenity extremity confrontation and a transgressive ambiguous form of beauty are strongly related to these implications Ultimately this complex and novel work calls upon the spectator and the theorist to reconsider normative ideas about desire corporeality fantasy and suffering

Modern Criticism and Theory Nigel Wood, David Lodge, 2014-06-11 This third edition of Modern Criticism and Theory represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection's aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the

reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories Modern Criticism and Theory has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today

Invented Moralities Jeffrey Weeks,1995 At the core of the ongoing debate over values is the issue of sexuality Indeed when conservative politicians invoke the notion of family values they imply a range of ideals centered around the limitation of sexual freedom Sex and morality have become hot topics in this age of widespread uncertainty about the location of right and wrong In Invented Moralities renowned scholar Jeffrey Weeks explores the clashes over sexual values that characterize these contemporary debates Working from what he calls a radical humanist perspective Weeks looks at sexual mores in these times of confusion from AIDS and the challenges of love and death to the politics of diversity to controversial topics such as sadomasochism rape and abortion rights Invented Moralities asks us to move beyond the narrow focus on right and wrong sexual behavior and instead turn our attention to the ethics of how we engage with the shifting landscapes of sexuality As Weeks puts it we need to develop an ethic of relationships not a morality of sex acts As a point of entry into the debate on values Invented Moralities presents an imperative for the contemporary Left In an even broader sense this important work offers a celebration of individual freedom and the rich diversity of human goals

Sunshine and Rainbows Clive Moore,2001 A history of the development of homosexuality as an Australian subculture Proceeding chronologically from the 1820s through to the vibrant alternative culture that exists in 2000 this book argues that the manner in which gay and lesbian identity has been constructed in Queensland is typical of Australia generally The Myth of Moral Panics Bill Thompson,Andy Williams,2013-09-11 This study provides a comprehensive critique forensic historical and theoretical of the moral panic paradigm using empirically grounded ethnographic research to argue that the panic paradigm suffers from fundamental flaws that make it a myth rather than a viable academic perspective Sexuality Jeffrey Weeks,2004-06-01 We are almost programmed into thinking of our sexuality as a wholly natural feature of life But sexual relations are but one form of social relations as Jeffrey Weeks makes clear in his book Drawing on the analyses of Michel Foucault amongst others the book examines the social moral and political issues raised by contemporary forms of sexuality Weeks provides an authoritative introduction to the sociology of sexuality discussing its cultural and socio historical construction it s relationship with power and the State s involvement in its rationalisation and regulation This second edition is also updates to include global and postcolonial perspectives on sexuality queer theory the internet and cybersex AIDS as a global phenomenon and international debates on the politics of sexuality This book is an indispensable introduction to this complex and expanding field Bad Mouthing Jenny Corbett,2013-11-05 The power of language is overwhelming and this is shown in the way in which words are used to define portray and explain people and situations With this in mind then it is interesting to note how the language of special needs has always been composed of words and images which foster fear mistrust loathing and hostility idiot imbecile and moron are frequently used as terms of abuse Whilst there has been considerable theorizing on the psychological and sociological aspects of special education as well as a recognition of the influence of policies and politics there has not yet been a concerted attempt to analyze the way in which language is used to create codes and images This general lack of interest may be because semantics seem peripheral to special education the focus has rather been on individual case studies teaching programmes legislation and practice Jenny Corbett however has a particular interest in the language of special needs Over the past few years she has explored the ways in which new discourses have emerged to challenge those of enlightened modernity the political correctness of special needs language in

the mid 1990s and the ways in which imagery is changing as proud labels displace the legacy of negativity In this book the author brings together the findings of these explorations as she looks at where the language of special needs has emerged from where it seems to be going at present and what is likely to become of it in the near future In order to more fully understand why some learners are marginalised and given an inferior status says Jenny Corbett it is important to explore the way in which language has been used
