From an award winning writer the first linked history of African Americans and Latinos in Major League Baseball After peaking at 27 percent of all major leaguers in 1975 African Americans now make up less than one tenth a decline unimaginable in other men's pro sports The number of Latin Americans by contrast has exploded to over one quarter of all major leaguers and roughly half of those playing in the minors Award winning historian Rob Ruck not only explains the catalyst for this sea change he also breaks down the consequences that cut across society Integration cost black and Caribbean societies control over their own sporting lives changing the meaning of the sport but not always for the better While it channeled black and Latino athletes into major league baseball integration did little for the communities they left behind By looking at this history from the vantage point of black America and the Caribbean a more complex story comes into focus one largely missing from traditional narratives of baseball's history Raceball unveils a fresh and stunning truth baseball has never been stronger as a business never weaker as a game
