Only On Sundays:

Scranton ,1929 *Focus and Background Marking in Mandarin Chinese* Daniel Hole,2004-08-02 This is an investigation into the grammaticalized system of focus background agreement in Mandarin Chinese The particles *c i j i dou* and *ye* are in a specific use type shown to form the core of a highly systematic paradigm This book is not just a valuable companion for anyone interested in core aspects of Mandarin Chinese grammar It caters for the interests of theoretical linguists as well as for linguists from other fields with an interest in information structure focus and contrastive topics and quantification The outstanding characteristic of this book viz its effortless integration of findings from formal semantics without heavy formal load makes it rewarding reading both for linguists with a less formal background and for researchers with some knowledge of formal semantics

Revivals) Richard J. Evans,W. R. Lee,2015-06-03 This book first published in 1986 surveys the history of rural society in
 Germany from the eighteenth century to the present day The contributions include studies of Junker estates and small
 farming communities serfs and landless labourers maidservants and worker peasants They demonstrate the variety and
 complexity of the social division that structures the rural economy Throughout the book there is an emphasis on the conflicts
 that divided rural society and the ways and means in which these were expressed whether in serf strikes in eighteenth
 century Brandenburg village gossip in early twentieth century Hesse or factional struggles over planning permission in
 present day Swabia The rural world emerges not as traditional passive and undifferentiated but as actively participating in its
 own making not only responding to the changes going on around it but exploiting them for its own purposes and influencing
 them in its own way This book is ideal for students of history particularly German history *Bradshaw's continental*
