Rediscovering China Dynamics And Dilemmas Of Reform:

Rediscovering China Cheng Li, 1997 In an engrossing and evocative account of the profound changes overtaking China Shanghai native Cheng Li shows us from the grassroots a country full of energy irony and paradox Critics praise this work for its wealth of information and stimulating insights 26 photos 6 maps From Revolution to Reform He Li, 2004 In *From Revolution to Reform* He Li examines political and economic transformation in China and Mexico from the Mexican and Chinese revolutions at the beginning of the 20th century to economic reforms and political liberalization in recent decades Li also explores lessons that other developing countries could learn from the experiences of China and Mexico *Popular Political Support in Urban China* Jie Chen, 2004 On the basis of three carefully drawn surveys of Beijing residents between 1995 and 1999 the author finds that diffuse support for the current political system based on attitudes toward institutions and values remains strong at least among city dwellers though it is gradually declining Why Is The China Model Losing Its Power? - Challenges And Opportunities Of The Second Global Competition Jinghao Zhou, 2020-07-23 History has proved that communism failed at many levels during the first global competition between the capitalist and socialist camps during the Cold War As a result the socialist camp was dissolved China is one of the few communist countries to survive in the twenty first century The Chinese economy was on the verge of collapse in the 1970s but began to take off in the early 1980s guided by the China model China became the world's second largest economy in 2010 and has quickly expanded its enormous global market and political influence The second global competition between the capitalist countries and China has started The second global competition is in fact between the China model and the Washington Consensus Will Western hegemonies end as the result of the second global competition Will China be able to rewrite the international rules Will the Chinese communist political system collapse during the competition What should the West do to the China model This book will explore the implications of the China model in the context of the second global competition and argues that the downturn of the China model and China's global expansion are the two sides of the same coin The China model is losing its power but not broken China would be able to become even stronger if it could reshape the philosophical foundation of the China model The future of Western hegemony will depend on how the West understands the China model and deals with it This book addresses these aspects and more **China Briefing 2000** Tyrene White, 2000 Reflections on China's 20th century transformation Contributors explore developments over the 1997-1999 period and place them in a wider historical perspective by examining where China has travelled what has changed and how much the century's enduring themes and prospects for the future The chapters in this latest edition of *China Briefing* reflect broadly on China's transformation in the twentieth century The authors not only examine developments in China over the 1997-1999 period but also place these events in a wider historical perspective by addressing the following questions Where has China traveled over the course of the century To what extent has it been transformed and how What are the enduring themes or points of continuity even

during a century of great change and transformation And what are China s prospects for the future **Taxation Without Representation in Contemporary Rural China** Thomas P. Bernstein,Xiaobo Lü,2003-03-27 This book provides the first in depth English study of the tax burden problems farmers face in China **Democratization in China, Korea and Southeast Asia?** Kate Xiao Zhou,Shelley Rigger,Lynn T. White III,2014-01-21 Rapid economic pluralization in East Asia has empowered local and medial groups and with this change comes the need to rethink usual notions regarding ways in which democracies emerge or citizens gain more power Careful examination of current developments in China Korea and Southeast Asia show a need for expansion of our understandings of democracy and democratization This book challenges traditional ways in which political regimes in local as well as national polities are conceived and labeled It shows from Asian experiences that democracy and its precursors come in more forms than most liberals have yet imagined In reviewing recent experiences of countries across East Asia these chapters show that actual democracies and ostensible democratizations there are less like those in the West than the surprisingly consensual and standard political science of democratization suggests This book first examines the extreme variation of democracy s meaning in many Asian states that hold contested elections South Korea Taiwan Indonesia Malaysia the Philippines and Thailand Then it focuses on China It analyzes a range of grassroots forces driving political change in the People s Republic and it finds both accelerators and brakes in China s political reform process The contributors show that models for China s political future exist both within and outside the PRC including in other East Asian states in localities and sectors that already are pushing the limits of the powerful but no longer all powerful Chinese party state With contributions from leading academics in the field Democratization in China Korea and Southeast Asia will be of interest to students and scholars of Asian politics comparative politics and democratization more broadly [China Into the Hu-Wen Era](#) John Wong,Hongyi Lai,2006 This volume is an updated survey and assessment of the recent policy initiatives of Hu Jintao and Wen Jiabao which have come to be known as the Hu Wen s New Deal Individual chapters are written by scholars from different academic disciplines and backgrounds These scholars hail from Singapore the United States Australia Korea Hong Kong Taiwan and Mainland China Topics cover the patterns and process of leadership succession emerging political factions social unrest sources of economic growth income disparities social security reform land use policy banking reform corporate governance labor and population policies rule of law and changes in the Party and ideology On the external aspects discussion includes China s changing relations with the U S Japan and ASEAN In many ways the Hu Wen leadership today is still coming to grips with the same issues and problems as discussed in this book Sample Chapter s Chapter 1 The Hu Wen New Deal 1 271 KB Contents Introduction The Hu Wen New Deal J Wong Strengthening Governance and Rule of Law Hu Jintao s Consolidation of Power and His Command of the Gun J You Deciphering Hu s Leadership and Defining New Elite Politics C Li Hu Jintao s Approach to Governance J Fewsmith Re Making the Party s Image Challenges for the Propaganda Department Y Zheng Reforming the Party and the State Under Hu Jintao S C Hsu Rule of Law and Governance K

Politics in China William A. Joseph, 2019 On October 1 2019 the People's Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world's poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive

corruption extreme inequalities ethnic unrest and a rising tide of social protest Politics in China provides an accessible yet authoritative introduction to how the world's most populous nation and rapidly rising global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book's chapters provide overviews of major periods in China's modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China's geographic periphery Tibet Xinjiang Hong Kong and Taiwan
