Rediscovery Of Man The:

The Rediscovery of Man Cordwainer Smith, 2010 Welcome to the strangest most distinctive future ever imagined by a science fiction writer An interstellar empire ruled by the mysterious Lords of the Instrumentality whose access to the drug stroom from the planet Norstrilia confers on them virtual immortality A world in which wealthy and leisured humanity is served by the underpeople genetically engineered animals turned into the semblance of people A world in which the great ships which sail between the stars are eventually supplanted by the mysterious instantaneous technique of planofforming A world of wonder and myth and extraordinary imagination The Rediscovery of Man Henry C. Link, 1938 **The Science**

Fiction of Cordwainer Smith Karen L. Hellekson, 2017-07-06 This critical work concentrates on the science fiction writings of Paul Linebarger who wrote under the pseudonym Cordwainer Smith as well as other pseudonyms he created to reflect his different writing styles His writings give voice to concerns about humanity and personal struggle his ideas about love loss alienation and psychic pain continue to resonate today This work begins with a brief biographical sketch of Cordwainer Smith linking elements of his past to his writing and focusing on his contributions to science fiction as well as his concern with humanity Also discussed are Smith's published and unpublished novel length non science fiction his revision process the true man underpeople dichotomy in his published and unpublished short fiction and his only published novel length science fiction work Norstrilia **The Multiformity of Man** Eugen Rosenstock-Huessy, 2013-04-08 Endorsements The historical nature of

man is the aspect of reality about which we have been basically and emphatically instructed in the epoch of thought beginning with Hegel Rosenstock Huessy has concretized this teaching in so living a way as no other teacher before him has done Martin Buber Rosenstock Huessy continually astonishes one by his dazzling and unique insights WH Auden He was a thinker of startling power and originality in my view an authentic genius of whom no age produces more than a handful Page Smith Rosenstock Huessy's is a powerful and original mind What is most important in his work is the understanding of the relevance of traditional value to a civilization still undergoing revolutionary transformations and this contribution will gain rather than lose significance in the future Lewis Mumford About the Contributor's Eugen Rosenstock Huessy 1888 1973 was a sociologist and social philosopher who along with his close friend Franz Rosenzweig and Ferdinand Ebner and Martin Buber was a major exponent of speech thinking or dialogicism The central insight of speech thinking is that speech or language is not merely or even primarily a descriptive act but a responsive and creative act which is the basis of our social existence The greater part of Rosenstock Huessy's work was devoted to demonstrating how speech language through its unpredictable fecundity expands our powers and through its inescapably historical forming character also binds them Born in Berlin Germany into a non observant Jewish family he converted to Christianity in his late teens He met and married Margrit Hussy in 1914 Rosenstock Huessy served as an officer in the German army during World War I He then pursued an academic career in Germany as a specialist in medieval law which was disrupted by the rise of Nazism In 1933 after Adolf Hitler

became Chancellor of Germany he immigrated to the United States where he began a new academic career initially at Harvard University and then at Dartmouth College where he taught from 1935 to 1957 The Legacy of the Ancient World William George De Burgh,1924 *The Furthest Horizon* Gardner Dozois,2011-04-01 Diverse and remarkable speculations on futures so remote as to be all but beyond conjecture by Brian Aldiss Poul Anderson Robert Silverberg and more Kirkus Reviews It is the essence of science fiction to chart the possibilities of the future but it takes the hand of a master to capture the farthest reaches of time futures almost unimaginably distant *The Furthest Horizon* collects seventeen of the most inventive and audacious visions of the future by many acclaimed writers including Brian Aldiss Poul Anderson Avram Davidson Joe Haldeman Alexander Jablokov Paul J McAuley Ian McDonald Michael Moorcock Frederik Pohl Robert Reed Keith Roberts Robert Silverberg Cordwainer Smith James Tiptree Jr Jack Vance Walter Jon Williams Gene Wolfe A variety of authors writing styles and topics are included in this entertaining anthology and Dozois provides insightful notes before each story Science Fiction Weekly Editor Dozois latest theme anthology presents 17 stories many of them classics set in a future so far from now that memories of today s humans have been lost by our descendants another feather for his cap Booklist

Why the Church? Luigi Giussani, 2001-03-02 From its beginnings the Church has presented itself as a human phenomenon that carries the divine within it As a social fact its reality given form by men and women the Church has always affirmed that its existence surpasses the human reality of its components and that it stands as the continuation of the event of Christ's entry into human history *Why the Church* the final volume in McGill Queen's University Press's trilogy of Luigi Giussani's writings explores the Church's definition of itself as both human and divine and evaluates the truth of this claim
