Oceanography and Marine Biology R.N. Hughes,D.J. Hughes,I.P. Smith,2014-09-02 Ever increasing interest in oceanography and marine biology and their relevance to global environmental issues creates a demand for authoritative reviews summarising the results of recent research Oceanography and Marine Biology An Annual Review has catered to this demand since its founding by the late Harold Barnes fifty years ago Its objective *Monitoring functional groups of herbivorous reef fishes as indicators of coral reef resilience : a practical guide for coral reef managers in the Asia Pacific region* Alison L. Green,David R. Bellwood,2009 This document provides practical advice to field practitioners based on an example from the Asia Pacific Region Key functional groups of herbivores are identified species are assigned to each functional group and methods are provided for monitoring their abundance biomass and size structure This document represents the first attempt to develop a monitoring program that is specifically designed to monitor key functional groups of herbivorous reef fishes as indicators of coral reef resilience Even though it is based on the best available information it is important to remember that the science underpinning these methods is still new and developing Further research is now required to address knowledge gaps and refine monitoring methods Executive summary
