**The Grampian Quartet** Nan Shepherd, 2009-05-01 The Quarry Wood although published well before *Sunset Song* inhabits a similar world the progress of its heroine could almost be the alternative story of a Chris Guthrie who did go to university Compassionate and humorous the grace and style of Shepherd's prose is heightened by a superb ear for the vigorous language of the north east The Weatherhouse Shepherd's masterpiece is an even more substantial achievement which belongs to the great line of Scottish fiction dealing with the complex interactions of small communities and especially the community of women a touching and hilarious network of mothers daughters spinsters and widows It is also a striking meditation on the nature of truth the power of human longing and the mystery of being The third and final novel *A Pass in the Grampians* describes Jenny Kilgour's coming of age as she has to choose between the kindly harshness of her grandfather's life on a remote hill farm and the vulgar and glorious energy of Bella Cassie a local girl who left the community to pursue success as a singer and has now returned to scandalise them all *The Living Mountain* is a lyrical testament in praise of the Cairngorms It is a work deeply rooted in Shepherd's knowledge of the natural world and a poetic and philosophical meditation on our longing for high and

holy places This is the first omnibus edition of Shepherd s prose works her sensitivity and powers of observation raise her work far above the status of regional literature and into the front rank of Scottish writing *The Middle Ages in Computer Games* Robert Houghton,2024-11-05 Offers the most comprehensive analysis and discussion of medievalist computer games to date Games with a medieval setting are commercially lucrative and reach a truly massive audience Moreover they can engage their players in a manner that is not only different but in certain aspects more profound than traditional literary or cinematic forms of medievalism However although it is important to understand the versions of the Middle Ages presented by these games how players engage with these medievalist worlds and why particular representational trends emerge in this most modern medium there has hitherto been little scholarship devoted to them This book explores the distinct nature of medievalism in digital games across a range of themes from the portrayal of grotesque yet romantic conflict to conflicting depictions of the Church and religion It likewise considers the distinctions between medievalist games and those of other periods underlining their emphasis on fantasy roleplay and hardcore elements and their consequences for depictions of morality race gender and sexuality Ultimately the book argues that while medievalist games are thoroughly influenced by medievalist and ludic tropes they are nonetheless representative of a distinct new form of medievalism It engages with the vast literature surrounding historical game studies game design and medievalism and considers hundreds of games from across genres from Assassin s Creed and Baldur s Gate to Crusader Kings and The Witcher series In doing so it provides a vital illustration of the state of the field and a cornerstone for future research and teaching Healthcare in Children's Media Naomi Lesley,Sarah Layzell,2025-04-21 Contributions by Anna Bugajska Dayna Campbell Dallas Ducar Sudeshna Shome Ghosh Melanie Goss Joseph Holloway Jeremy Johnston Manjushri Karthikeyan Jenise Katalina Sarah Layzell Naomi Lesley Anna Macdonald Vanessa E Mart nez Renuncio Nichole Mayweather Banks Madison Miner Dawn Sardella Ayres Farriba Schulz Carrie Spencer Antje Tannen Valerie A Ubbes and B J Woodstein Healthcare in Children s Media edited by Naomi Lesley and Sarah Layzell is a collection of essays and interviews from scholars activists and practitioners grappling with crucial questions about representations of healthcare systems both formal and informal in children s media The volume focuses on systems of healthcare rather than individual narratives of illness It examines how children are socialized into knowledge about healthcare Essays explore critiques of existing systems embedded in children s literature analyze how children s books might be used for health literacy education and examine children s film and television for visions of alternative systems and solutions to ethical dilemmas Contributors in Healthcare in Children s Media draw upon interdisciplinary approaches including disability studies gender studies public health bibliotherapy and posthumanism Essays examine care systems in the US the UK Germany India and Iran and also offer a breadth of historical perspective ranging from the turn of the twentieth century through our present times and into projections of future bioethical and posthuman dilemmas This volume adds fresh works to archives of health literacy books with analytic perspectives on race and disability
