Regulatory Reform from Nixon to Biden John D. Graham, 2024-10-03 This book examines the development of regulatory policy since the 1960s focusing on how each president from Nixon to Biden stimulated reform Highlighting the increasingly dominant role of the president in the modern administrative state John D Graham presents a regulatory reform agenda for Congress the executive branch and the judiciary *The Politics of Deregulation* Martha Derthick, Paul J. Quirk, 2001-06-07 The standard wisdom among political scientists has been that iron triangles operated among regulatory agencies the regulated industries and members of Congress all presumably with a stake in preserving regulation that protected the industries from competition Despite almost unanimous agreement among economists that such regulation was inefficient it seemed highly unlikely that deregulation could occur Yet between 1975 and 1980 major deregulatory changes that strongly favored competition did take place in a wide range of industries The results are familiar to airline passengers users of telephone service and trucking freight shippers among others Martha Derthick and Paul J Quirk ask why this deregulation happened How did a diffuse public interest prevail over the powerful industry and union interests that sought to preserve regulation Why did the regulatory commissions which were expected to be a major obstacle to deregulation instead take the initiative on behalf of it And why did influential members of Congress push for even greater deregulation The authors concentrate on three cases airlines trucking and telecommunications They find important similarities among the cases and discuss the implications of these findings for two broader topics the role that economic analysis has played in policy change and the capacity of the American political system for transcending narrow interests Public Policies for Environmental Protection Paul R. Portney, 2016-03-17 Originally published in 1990 this study tracks the issues progress and

problems in environmental issues in the United States from the 1980 s Improvements in air and water quality as well as regulation of hazardous waste and toxic substances has led to new policies such as the Superfund Act and a general increase in awareness about environmental issues on a federal level Placing an emphasis on economics these papers analyse the effectiveness of environmental policy and progress made in relation to air pollution water quality hazardous wastes toxic substances and enforcement of regulations This title will be of interest to students of environmental studies **Government and Business: American Political Economy in Comparative Perspective** Richard Lehne,2012-03-23 In this thoroughly updated edition Lehne takes a comparative approach evaluating the U S political economy with respect to those of Great Britain Germany Japan and the EU The book provides detailed historical context for and a conceptual understanding of the business government environment and then clarifies the roles of the major actors and outlines the regulatory and policy frameworks Along the way Lehne probes some of the most crucial dilemmas facing government and business today **The Present Condition and Future Status of Fannie Mae and Freddie Mac** United States. Congress. House. Committee on Financial Services. Subcommittee on Capital Markets, Insurance, and Government Sponsored Enterprises,2009 **The Reagan Regulatory Strategy** George C. Eads,Michael Fix,1984 **Reflexive Labour Law in the World Society** Ralf Rogowski,2013-09-30 Rogowski s challenging book offers readers a rigorous but accessible introduction to the theory of reflexive law important and original insights into current issues in industrial relations and labour law and a fascinating preview of how a broad based Streamlining Local Regulations Stuart S. Chemical Assessments: Process Reforms Offer the Potential to Address Key Problems John B. Stephenson,2009-12 The EPA Integrated Risk Info System IRIS contains EPA s scientific position on the potential human health effects of exposure to more than 540 chemicals Toxicity assessments in the IRIS database constitute the first two critical steps of the risk assessment process Thus IRIS is a critical component of EPA s capacity to support scientifically sound environmental decisions policies and regulations This testimony discusses 1 the findings from a March 2008 report Chemical Assessments Low Productivity and New Interagency Review Process Limit the Usefulness and Credibility of EPA s Integrated Risk Info System and related testimonies and 2 a preliminary evaluation of the revised IRIS assessment process EPA issued on May 21 2009 Environmental Law and American Business Joseph F. DiMento,2013-06-29 We are in the second decade of modern

environmental law By some indicators this body of regulation has matured greatly We can point to statutes and codes at the federal state and local levels which address almost every conceivable form of pollution and environmental insult Yet despite the existence of this large body of law despite considerable expenditures on enforcement and despite the energetic efforts of people sympathetic to environmental objectives violations are numerous Serious pollution problems are commonplace Love Canal the Valley of the Drums Times Beach and Stringfellow Acid Pits epitomize the national environmental quality challenge Daily a major illegal disposal of hazardous waste is recorded a new mismanaged dump site is discovered a toxic substance is found in our drinking water or a failure to meet a water or air quality standard is identified Many of these violations involve American business Failures to comply are of several types A small businessman in Pennsylvania mistakenly allows a spillover of a pollutant into a protected stream An industrialist in the Midwest adds to his fortune by illegally dumping dangerous chemicals A series of errors by several firms some of which no longer exist combine to create a health threatening conflagration on the West Coast An automobile company interprets one of the almost innumerable air pollution rules differently from government It produces a car which the government says fails to comply with the Clean Air Act
