Lanman, Laura M. Wendling, 2006-05-11 Preparing the Next Generation of Oral Historians is an invaluable resource to educators seeking to bring history alive for students at all levels The anthology opens with chapters on the fundamentals of oral history and its place in the classroom but its heart lies in nearly two dozen insightful personal essays by educators who have successfully incorporated oral history into their own teaching Filled with step by step descriptions and positive student feedback these chapters offers practical suggestions on creating curricula engaging students gathering community support and meeting educational standards Lanman and Wendling open each chapter with thoughtful questions that guide readers whether unfamiliar with oral history or seeking to refine their approach in applying the examples to their own classrooms The bibliography of further resources at the anthology's close provides interested educators with all the information necessary to transform their lessons and show their students history's power as a living force within their own lives and communities      *Race and Retail* Mia Bay, Ann Fabian, 2015-08-04 Race has long shaped shopping experiences for many Americans Retail exchanges and establishments have made headlines as flashpoints for conflict not only between blacks and whites but also between whites Mexicans Asian Americans and a wide variety of other ethnic groups who have at times found themselves unwelcome at white owned businesses Race and Retail documents the extent to which retail establishments both past and present have often catered to specific ethnic and racial groups Using an interdisciplinary approach the original essays collected here explore selling and buying practices of nonwhite populations around the world and the barriers that shape these habits such as racial discrimination food deserts and gentrification The contributors highlight more

contemporary issues by raising questions about how race informs business owners ideas about consumer demand resulting in substandard quality and higher prices for minorities than in predominantly white neighborhoods In a wide ranging exploration of the subject they also address revitalization and gentrification in South Korean and Latino neighborhoods in California Arab and Turkish coffeehouses and hookah lounges in South Paterson New Jersey and tourist capoeira consumption in Brazil Race and Retail illuminates the complex play of forces at work in racialized retail markets and the everyday impact of those forces on minority consumers The essays demonstrate how past practice remains in force in subtle and not so subtle ways      *Logics of Genocide* Anne O'Byrne, Martin Shuster, 2020-05-27 This book is concerned with the connection between the formal structure of agency and the formal structure of genocide The contributors employ philosophical approaches to explore the idea of genocidal violence as a structural element in the world Do mechanisms or structures in nation states produce types of national citizens that are more susceptible to genocidal projects There are powerful arguments within philosophy that in order to be the subjects of our own lives we must constitute ourselves specifically as national subjects and organize ourselves into nation states Additionally there are other genocidal structures of human society that spill beyond historically limited episodes The chapters in this volume address the significance moral ethical political of the fact that our very form of agency suggests or requires these structures The contributors touch on topics including birthright citizenship contemporary mass incarceration anti black racism and late capitalism *Logics of Genocide* will be of interest to scholars and advanced students working in philosophy critical theory genocide studies Holocaust and Jewish studies history and anthropology      *Extracting Accountability* Jessica M. Smith, 2021-09-28 How engineers in the mining and oil and gas industries attempt to reconcile competing domains of public accountability The growing movement toward corporate social responsibility CSR urges corporations to promote the well being of people and the planet rather than the sole pursuit of profit In *Extracting Accountability* Jessica Smith investigates how the public accountability of corporations emerges from the everyday practices of the engineers who work for them Focusing on engineers who view social responsibility as central to their profession she finds the corporate context of their work prompts them to attempt to reconcile competing domains of accountability to formal guidelines standards and policies to professional ideals to the public and to themselves Their efforts are complicated by the distributed agency they experience as corporate actors they are not always authors of their actions and frequently act through others Drawing on extensive interviews archival research and fieldwork Smith traces the ways that engineers in the mining and oil and gas industries accounted for their actions to multiple publics from critics of their industry to their own friends and families She shows how the social license to operate and an underlying pragmatism lead engineers to ask how resource production can be done responsibly rather than whether it should be done at all She analyzes the liminality of engineering consultants who experienced greater professional autonomy but often felt hamstrung when positioned as outsiders Finally she explores how critical participation

in engineering education can nurture new accountabilities and chart more sustainable resource futures **Image Retrieval**

Corinne Jörgensen, 2003 When you hear the term image management do you think of making a good impression Or taking good care of Impressionists If the latter this book is for you Vast collections of images exist in a wide range of organizations and institutions and on the Internet Some of these images are difficult to track down others are just too large too small too valuable or too fragile to access directly In this introductory text to the field Jorgensen describes the theoretical empirical and pragmatic underpinnings of storage and retrieval as they apply to a variety of visual formats *The Latest Early American Literature* R. C. De Prosopo, 2016-01-21 The Latest Early American Literature according to readers for the University of Delaware Press is a collection of polemics and manifestoes In it R C De Prosopo bids to follow in the footsteps of the two rare early Americanist dissenters whom Philip F Gura once distinguished as prophets without honor in the field William Spengemann and Michael Colacurcio The book contends that a supposedly retired nationalist modernist telos continues to reign in most of the latest scholarship and even more influentially in all of the current literary histories and anthologies no matter how expansive in gender ethnic racial and hemispheric inclusiveness they profess to be Old teloi in particular that old American exceptionalist one can be cunning Updating and expanding upon essays written over the past thirty years De Prosopo proposes not only negatively to critique how the latest scholarly receptions of early American literature differ insignificantly from the earlier ones but positively to propose how a transnationalist concession that as a neocolonial culture America s lags behind that of Europe might advance post modern historiography by radically repositioning the past as no longer the present s diachronic predecessor but to quote Lyotard s semiotics its synchronic differend Closer to earth De Prosopo tries at the same time to remain mindful of the pedagogical imperative that ultimately to save the texts of early American literature will require making them legible to average non specialist never to become specialist undergraduate general education students To facilitate this he introduces in the concluding section of *The Latest Early American Literature* what will probably be taken as its most radical intervention the redefinition of Edgar Allan Poe as an early American writer Advances in Information Retrieval Sharon McDonald, John Tait, 2004-03-25

These proceedings contain the refereed full technical papers presented at the 26th Annual European Conference on Information Retrieval ECIR 2004 ECIR is the annual conference of the British Computer Society s specialist group in Information Retrieval This year the conference was held at the School of Computing and Technology at the University of Sunderland ECIR began life as the annual Colloquium on Information Retrieval Research The colloquium was held in the UK each year until 1998 when the event was held in Grenoble France Since then the conference venue has alternated between the United Kingdom and Continental Europe and the event was renamed the European Conference on Information Retrieval In recent years ECIR has continued to grow and has become the major European forum for the discussion of research in the field of Information Retrieval To mark this metamorphosis from a small informal colloquium to a major event in the IR research calendar the BCS

IRSG decided to rename the event to the European Conference on Information Retrieval ECIR2004 received 88 full paper submissions from across Europe and further afield including North America, China and Australia as a testament to the growing popularity and reputation of the conference. Out of the 88 submitted papers, 28 were accepted for presentation. All papers were reviewed by at least three reviewers. Among the accepted papers, 11 have a student as the primary author, illustrating that the traditional student focus of the original colloquium is alive today. *Webs of Kinship* Christina Gish Hill, 2017-04-27. Many stories that non-Natives tell about Native people emphasize human suffering and the inevitability of loss and eventual extinction, whether physical or cultural. But the stories Northern Cheyennes tell about themselves emphasize survival, connectedness and commitment to land and community. In writing *Webs of Kinship*, anthropologist Christina Gish Hill has worked with government records and other historical documents as well as the oral testimonies of today's Northern Cheyennes to emphasize the ties of family rather than the ambitions of individual leaders as the central impetus behind the nation's efforts to establish a reservation in its Tongue River homeland. Hill focuses on the people who lived alongside notable Cheyennes such as Dull Knife, Little Wolf, Little Chief and Two Moons to reveal the central role of kinship in the Cheyennes' navigation of U.S. colonial policy during removal and the early reservation period. As one of Hill's Cheyenne correspondents reminded her, Dull Knife had a family just as all of us do. He and other Cheyenne leaders made decisions with their entire extended families in mind, not just those living but those who came before and those yet to be born. *Webs of Kinship* demonstrates that the Cheyennes used kinship ties strategically to secure resources, escape the U.S. military and establish alliances that in turn aided their efforts to remain a nation in their northern homeland. By reexamining the most tumultuous moments of Northern Cheyenne removal, this book illustrates how the power of kinship has safeguarded the nation's political autonomy even in the face of U.S. encroachment, allowing the Cheyennes to shape their own story.

*John Bell Hood: Extracting Truth from History* Thomas J. Brown, 2012-12-13. The year 2011 brings us the sesquicentennial celebration of the American Civil War. Surprisingly, 150 years later, students continue to find themselves asking many of the same questions about the great national tragedy faced during the centennial in 1961. For example, did slavery cause the great conflict or did constitutional questions act as the catalyst? Does the Battle of Gettysburg represent the turning point of the War or did that occur elsewhere? In connection with the last question, Lost Cause advocates, those great pro-Confederacy propagandists, found convenient villains to blame for the Southern defeat. One of these Confederates, General John Bell Hood, plays an important role. This paper contends that in his case, the Lost Cause is wrong and that Hood's historical treatment has been false. Standard critical treatment of John Bell Hood over the years has tended to characterize the general as rash, overaggressive and lacking in strategic imagination. For such critical historians, Hood appears as old-fashioned and someone limited logistically to the frontal assault. These accounts mainly stress his negative aspects as a soldier and tend to center

around the Battle of Franklin This thesis by analyzing every battle that Hood commanded as a leader of the Army of Tennessee particularly those fought around Atlanta reveals him to have been a far more bold imaginative and complex leader than has previously been portrayed *Catholic Cosmopolitanism and Human Rights* Leonard Francis Taylor,2020-03-05

Provides a more complete account of the human rights project that factors in the contribution of cosmopolitan Catholicism
