Retuning Culture Musical Changes In Central And Eastern Europe:

Retuning Culture Mark Slobin, 1996 As a measure of individual and collective identity music offers both striking metaphors and tangible data for understanding societies in transition and nowhere is this clearer than in the recent case of the Eastern Bloc **Retuning Culture** presents an extraordinary picture of this phenomenon This pioneering set of studies traces the tumultuous and momentous shifts in the music cultures of Central and Eastern Europe from the first harbingers of change in the 1970s through the revolutionary period of 1989-90 to more recent developments During the period of state socialism both the reinterpretation of the folk music heritage and the domestication of Western forms of music offered ways to resist and redefine imposed identities With the removal of state control and support music was free to channel and to shape emerging forms of cultural identity Stressing both continuity and disjuncture in a period of enormous social and cultural change this volume focuses on the importance and evolution of traditional and popular musics in peasant communities and urban environments in Hungary Poland Romania Russia the Czech Republic Ukraine the former Yugoslavia Macedonia and Bulgaria Written by longtime specialists in the region and considering both religious and secular trends these essays examine music as a means of expressing diverse aesthetics and ideologies participating in the formation of national identities and strengthening ethnic affiliation **Retuning Culture** provides a rich understanding of music's role at a particular cultural and historical moment Its broad range of perspectives will attract readers with interests in cultural studies music and Central and Eastern Europe Contributors Michael Beckerman Donna Buchanan Anna Czekanowska Judit Frigyesi Barbara Rose Lange Mirjana Lausevic Theodore Levin Margarita Mazo Steluta Popa Ljerka Vidic Rasmussen Timothy Rice Carol Silverman Catherine Wanner Newly Composed Folk Music of Yugoslavia Ljerka V. Music and Politics John Street, 2013-04-16 It is common to hear talk of how music can inspire crowds move individuals and mobilise movements We know too of how governments can live in fear of its effects censor its sounds and imprison its creators At the same time there are other governments that use music for propaganda or for torture All of these examples speak to the idea of music's political importance But while we may share these assumptions about music's power we rarely stop to analyse what it is about organised sound about notes and rhythms that has the effects attributed to it This is the first book to examine systematically music's political power It shows how music has been at the heart of accounts of political order at how musicians from Bono to Lily Allen have claimed to speak for peoples and political causes It looks too at the emergence of music as an object of public policy whether in the classroom or in the copyright courts whether as focus of national pride or employment opportunities The book brings together a vast array of ideas about music's political significance from Aristotle to Rousseau from Adorno to Deleuze and new empirical data to tell a story of the extraordinary potency of music across time and space At the heart of the book lies the argument that music and politics are inseparably linked and that each animates the other

Sounds of the Borderland Catherine Baker, 2016-04-01 Sounds of the Borderland is the first book length study of how popular music became a medium for political communication and contested identification during and after Croatia's war of independence from Yugoslavia It extends existing cultural studies literature on music politics and the state which has largely been grounded in Western European and North American political systems It also responds to an emerging fascination with the culture and politics of

contemporary south east Europe expanding scholarship on the post Yugoslav conflicts by going on to encompass significant social and political changes into the present day The outbreak of war in 1991 saw almost every professional musician in Croatia take part in a wave of patriotic music making and the powerful state television system strive to bring popular music under its control As the political imperative shifted from securing national survival to consolidating a homogenous nation state the music industry responded with several strategies for creating a national popular music producing messages about the nation and in the ongoing debates over the origins of the folk music that inspired many songs a way to define the nation by expressing what Croatia was not The war on ethnic ambiguity which cut through individuals social and creative lives played out across the airwaves sales racks and gossip columns of a small country that imagined itself a historical and cultural borderland These explicit and implicit narratives of nationhood connect many political phases the months of fiercest fighting the stabilised front the uneasy post war years when the symbolic frontline region of eastern Slavonia had still not returned to Croatian sovereignty the euphoria and instability after the end of the Tudjman regime in 2000 and Croatia's fraught journey towards the European Union Baker's book provides valuable insight into the role of music in a wartime and post conflict society and will be essential reading for researchers and students interested in south east Europe or the transformation of entertainment during and after conflict

Turbo-folk Music and Cultural Representations of National Identity in Former Yugoslavia Uroš Čvoro, 2016-03-03 Turbo folk music is the most controversial form of popular culture in the new states of former Yugoslavia Theoretically ambitious and innovative this book is a new account of popular music that has been at the centre of national political and cultural debates for over two decades Beginning with 1970s Socialist Yugoslavia Uroš Čvoro explores the cultural and political paradoxes of turbo folk described as backward music whose misogynist and Serb nationalist iconography represents a threat to cosmopolitanism turbo folk's iconography is also perceived as a genuinely Balkan form of resistance to the threat of neo liberalism Taking as its starting point turbo folk's popularity across national borders Čvoro analyses key songs and performers in Serbia Slovenia and Croatia The book also examines the effects of turbo on the broader cultural sphere including art film sculpture and architecture twenty years after its inception and popularization What is proposed is a new way of reading the relationship of contemporary popular music to processes of cultural political and social change and a new understanding of how fundamental turbo folk is to the recent history of former Yugoslavia and its successor states

ReSounding Poverty Adriana Helbig, 2023 ReSounding Poverty Romani Music and Development Aid engages with global scholarship on development poverty and applied research It addresses the role of non governmental organizations NGOs within postsocialist neoliberal processes and analyzes the economic structures within which Romani musics circulate Specifically ReSounding Poverty offers a micro ethnography of economic networks that impact the daily lives of Romani musicians on the borders of the former Soviet Union and the European Union It argues that the development aid allotted to provide economic assistance to Romani communities when analyzed from the perspective of

the performance arts continues to marginalize the poorest among them Through their structure and programming NGOs choose which segments of the population are the most vulnerable and in the greatest need of assistance Drawing on ethnographic research in development contexts ReSounding Poverty asks who speaks for whom within the Romani rights movement today Framing the critique of development aid in musical terms it engages with Romani marginalization and economic deprivation through a closer listening to vocal inflections physical vocalizations of health and disease and emotional affect ReSounding Poverty brings us into the back rooms of saman mud and straw brick houses not visited by media reporters and politicians amplifying the cultural expressions of the Romani poor silenced in the business of development
