Revisiting Universalism:

Revisiting Universalism A. Assiter, 2003-10-09 This book begins from the premise which it seeks to elaborate that the poorest human being shares with the richest a natural nature This it is claimed is not the trivial thesis it is sometimes represented as being Rather significant moral consequences flow from the assumption that all human beings share a set of natural needs Using this starting point the book also seeks to defend an objectivist epistemology *Re-visioning Gender in Philosophy of Religion* Pamela Sue Anderson, 2017-10-24 A passion for justice and truth motivates the bold challenge of Revisioning Gender in Philosophy of Religion Unearthing the ways in which the myths of Christian patriarchy have historically inhibited and prohibited women from thinking and writing their own ideas this book lays fresh ground for re visioning the epistemic practices of philosophers Pamela Sue Anderson seeks both to draw out the salient threads in the gendering of philosophy of religion as it has been practiced and to re vision gender for philosophy today The arguments put forth by contemporary philosophers of religion concerning human and divine attributes are epistemically located yet the motivation to recognize this locatedness has to come from a concern for justice This book presents invaluable new perspectives on the philosopher s ever increasing awareness of his or her own locatedness on the gender often unwittingly given to God the ineffability in both analytic and Continental philosophy the still critical role of reason in the field the aims of a feminist philosophy of religion the roles of beauty and justice the vision of love and reason and a gendering which opens philosophy of religion up to diversity *Apocalypse Revisited: A Critical Study on End Times* Melis Mulazimoglu Erkal, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 Mankind s fascination with the Apocalypse is not new Starting from the Hindu notions of Kali Yuga to 2012 Phenomenon Apocalypse has been a part of our lives in the form of a cultural formation natural threat fictional entity ideological construct political fear or catastrophic end Apocalyptic discourses underline how one culture perceives and reflects pain trauma loss and fear as well as indicating the ability to face and get ready for disaster This inter disciplinary and academic study aims to discuss the end of the world in multiple contexts where the popularity of apocalypse always reigns In the scope of this work readers will see the multi dimensional nature of the Apocalypse referring more to progress rather than end or beginning an in between situation a becoming a formation local yet global phenomenon a product of fantasy plus a constructed reality both an object of consumption and life consuming mechanism an ideological presence in the absence of larger meta narratives **The Force of the Example** Alessandro Ferrara, 2008 During the twentieth century the view that assertions and norms are valid insofar as they respond to principles independent of all local and temporal contexts came under attack from two perspectives the partiality of translation and the intersubjective constitution of the self understood as responsive to recognition Defenses of universalism have by and large taken the form of a thinning out of substantive universalism into various forms of proceduralism Alessandro Ferrara instead launches an entirely different strategy for transcending the particularity of context

without contradicting our pluralistic intuitions a strategy centered on the exemplary universalism of judgment Whereas exemplarity has long been thought to belong to the domain of aesthetics this book explores the other uses to which it can be put in our philosophical predicament especially in the field of politics After defining exemplarity and describing how something unique can possess universal significance Ferrara addresses the force exerted by exemplarity the nature of the judgment that discloses exemplarity and the way in which the force of the example can bridge the difference between various contexts Drawing not only on Kant's Critique of the Power of Judgment but also on the work of Hannah Arendt John Rawls Ronald Dworkin and Jürgen Habermas Ferrara outlines a view of exemplary validity that is applicable to today's central philosophical issues including public reason human rights radical evil sovereignty republicanism and liberalism and religion in the public sphere

Adams, Lori Gruen, 2014-07-31 Leading feminist scholars and activists as well as new voices introduce and explore themes central to contemporary ecofeminism *Ecofeminism Feminist Intersections with Other Animals and the Earth* first offers an historical grounding overview that situates ecofeminist theory and activism and provides a timeline for important publications and events This is followed by contributions from leading theorists and activists on how our emotions and embodiment can and must inform our relationships with the more than human world In the final section the contributors explore the complexities of appreciating difference and the possibilities of living less violently Throughout the book the authors engage with intersections of gender

and gender non conformity race sexuality disability and species The result is a new up to date resource for students and teachers of animal studies environmental studies feminist gender studies and practical ethics *Humanism Revisited* Rik Pinxten,2024-04-01 The West emancipated itself from the old humanism long ago and in doing so distanced itself from heteronomy it declared that man and not a non human power should be the first reference to approach people and nature Today as heirs of this tradition we are still stuck in Eurocentrism and often racism and now even threaten to ruin nature by destroying biodiversity and causing the climate to warm up dangerously Applied through an anthropological perspective this book calls for a NEED humanism Not Eurocentric Ecological and economically Durable approach that can help promote inclusion and pluralism **The Learning Society Revisited** Torsten Husen,2014-06-28 Torsten Husen has brought together in this volume a collection of his own essays the topics of which reflect his long and distinguished career both as an academic and as a practical researcher The essays are grouped under six main themes on which he has worked over the years research and policy making educational reforms equality and meritocracy the impact of education on career international and comparative dimensions and present trends and future perspectives An underlying message running throughout the volume is the importance of examining educational problems from a wide social perspective rather than solely from the narrow confines of the classroom **The Rosicrucian Enlightenment Revisited** John Matthews,1999 A gathering of well informed scholars provides a sober sensible and fascinating overview of the history of the Rosicrucian movement still one of the most controversial and least understood byways of European philosophy and thought The volume includes four of the foundational documents of the original Rosicrucians from the early 17th century and carries the Rosicrucians influence down to the later 19th century Publisher s description **The Mazruiana Collection Revisited** Ali Al'Amin Mazrui,2005 Consists of 650 annotated entries covering Mazrui s books dissertations edited works about him major essays in books academic journals and conference papers This work contains essays including pamphlets magazine and newspaper articles and audio visual recordings **Derrida and Foucault** Paul Rekret,2017-09-20 Derrida and Foucault offers a major contribution to the interpretation of these two highly influential thinkers By tracing the moments where Derrida and Foucault s arguments converge but also where they deviate this book fundamentally recasts our understanding not only of these two philosophers but of the political more broadly Organised thematically around questions of epistemology ethics and politics this is the only work to bring Derrida and Foucault s whole oeuvres into dialogue with one another This book frames a dialogue not only between their works of the 1960s and 1970s but also their works that deal with political questions around liberalism capitalism and democracy This book offers the first substantial critical assessment of Derrida and Foucault s political work and also situates these crucial thinkers in contemporary debates in political theory **The Art of Spiritual Care across Religious Difference** Jill L. Snodgrass,2024-03-19 The United States is witnessing a rise in the religiously unaffiliated Participation in traditional religious settings is in decline But everyone inhabits a location relative to religion

whether or not they practice or identify with a religious tradition People engage in religious encounters and relationships in myriad ways and their religious location is one part of their intersecting identities This shifting religious landscape challenges spiritual caregivers to provide competent care and counsel that honors how persons religious locations intersect Jill Snodgrass argues that without a theoretical understanding of religious location chaplains counselors and other spiritual caregivers are left without sufficient tools to navigate this relational terrain In *The Art of Spiritual Care across Religious Difference* she gathers practices and insights from experienced spiritual caregivers and scholars to explore the concept of religious location a term initially coined by pastoral theologian Kathleen Greider as an aspect of an individual s intersecting identity Snodgrass presents a compilation of essays that help spiritual caregivers think reflexively about their own religious locations and how these locations influence relational dynamics with care seekers within a diversity of cultural contexts This vigorous compilation advances the fields of pastoral and practical theology as well as spiritual care and counseling by developing a robust interreligious theory of religious difference grounded in insights from Christianity Buddhism Confucianism and Islam As such *The Art of Spiritual Care across Religious Difference* presents a well timed resource for the training of religiously competent caregivers to serve in hospitals prisons places of worship community mental health centers offices of campus ministry and more Scholars and practitioners will quickly discover that this book will serve as an enduring resource to meet the training needs for spiritual caregivers in ways that will help them to build enduring competencies

Free Trade and Cultural Diversity in International Law Jingxia Shi, 2013-04-30 This book attempts to reconcile the concept of free trade with a key non trade social value cultural diversity in an era of economic globalisation It first shows how we can look at culture in many different ways and explains why we should care about cultural diversity The book then examines the challenges that policymakers are faced with in formulating cultural measures in the new media environment and analyses UNESCO s theories and approaches to cultural diversity This is followed by a comprehensive examination of the treatment of culture in global and regional trade agreements including the framework of the GATT WTO system the WTO s judicial practice involving cultural products and the treatment of culture under the EC EU and NAFTA This identifies the challenges trade norms encounter in dealing with cultural products The author seeks to formulate a balanced view of the challenge of protecting and promoting cultural diversity while also recognising the important goal of trade liberalisation To this end Professor Shi proposes a dual method through which the norms found in WTO agreements and in UNESCO cultural instruments may be brought into alignment the first highlighting the compatibility of cultural policy measures with trade obligations on a domestic level the second suggesting potential linkages between the WTO rules and the UNESCO Convention from the perspectives of treaty interpretation

Defending Objectivity Margaret Archer, William Outhwaite, 2004-07-31 Andrew Collier is the boldest defender of objectivity in science knowledge thought action politics morality and religion The diverse contributions range from social and political thought to philosophy *Democratic Brazil*

Revisited Peter R. Kingstone, Timothy J. Power, 2008-10-26 Brazil presents a compelling example of twenty first century democracy in action In this sequel to their landmark study *Democratic Brazil* editors Peter Kingstone and Timothy J Power have assembled a distinguished group of U S and Brazilian based scholars to assess the impact of competitive politics on Brazilian government institutions economics and society The 2002 election of Lula da Silva and his Worker s Party promised a radical shift toward progressive reform transparency and accountability opposing the earlier centrist and market oriented policies of the Cardoso government But despite the popular support reflected in his 2006 reelection many observers claim that Lula and his party have fallen short of their platform promises They have moved to the center in their policies done little to change the elitist political culture of the past and have engaged in politics as usual in executive legislative relations leading to allegations of corruption Under these conditions democracy in Brazil remains an enigma Progress in some areas is offset by stagnation and regression in others while the country has seen renewed economic growth and significant progress in areas of health care and education the gap between rich and poor remains vast Rampant crime racial inequality and a pandemic lack of personal security taint the vision of progress These dilemmas make Brazil a particularly striking case for those interested in Latin America and democratization in general **Reinhold Niebuhr Revisited** Daniel F.

Rice, 2009-07-10 In 2007 then presidential candidate Barack Obama called Reinhold Niebuhr 1892 1971 his favorite philosopher Reinhold Niebuhr *Revisited* offers fresh and creative ways of looking at this influential American theologian s views on religion politics and culture through the eyes of diverse respected scholars **Anti-Semitism Revisited** Delphine Horvilleur, 2021-02-11 *Anti-Semitism revisited* in a wholly original way Philippe Sands Rippling with ideas on every page Jewish Chronicle Tackles the issue of anti semitism from the perspective of a country where its manifestations have been more vicious and deadly Financial Times Rabbi Delphine Horvilleur analyses the phenomenon of anti semitism as it is viewed by those who endure it and who through narration and literature succeed in overcoming it Jewish texts are replete with treatments of anti semitism of this endlessly paradoxical hatred and of the ways in which Jews are perceived by others But here the focus is inverted *Anti-Semitism Revisited* explores the hatred of Jews as seen through the lens of the sacred texts rabbinical tradition and Jewish lore Delphine Horvilleur gives a voice to those who are too often deprived of one examining resilience in the face of adversity and the legacy of an ancient hatred that is often misunderstood An engaging hopeful and very original examination of anti semitism what it means where it comes from what are the ancient myths and tropes that are weaponised against Jewish people and how do we take them apart Translated from the French by David Bellos **The Vertical Mosaic Revisited** Rick Helmes-Hayes, James Curtis, 1998-12-15 When *The Vertical Mosaic* first appeared in 1965 it became an instant classic Its key message was that Canada was not the classless democracy it fancied itself to be In fact Canada was a highly inegalitarian society comprising a vertical mosaic of distinct classes and ethnic groups This collection of papers by five of Canada s top sociologists subjects John Porter s landmark study to renewed scrutiny and traces the

dramatic changes since Porter's time both in Canadian society and in the agenda of Canadian sociology. Based on papers written for a conference held in commemoration of the thirtieth anniversary of *The Vertical Mosaic's* publication, the five essays revisit the central themes of the original work, including gender and race inequality, citizenship and social justice, and class power and ethnicity from the viewpoint of political economy. An introduction by the editors provides a historical biography of Porter and discusses his influence on Canadian sociology.

The Kurdish Question Revisited Gareth Stansfield, Mohammed Shareef, 2017-08-15

The Kurds, once marginal in the study of the Middle East and secondary in its international relations, have moved to centre stage in recent years. The contributors to *The Kurdish Question Revisited* offer insights into how this once seemingly intractable, immutable phenomenon is being transformed amid the new political realities of the Middle East.
