Russia Soviet Union

1917-1945

FROM TSAR TO STALIN

DAVID THOMAS AND MARK MCGLOREY

Russia Soviet Union 1917 1945 From Tsar To Stalin

Anthony D'Agostino

Russia Soviet Union 1917 1945 From Tsar To Stalin:

Russia, Soviet Union 1917-1945 David Thomas,1999 *The Russian Revolution, 1917-1945* Anthony

D'Agostino,2010-12-16 This book offers a fresh analysis of the Russian Revolution from a global perspective It stresses the historical role of Soviet Communism in the modernization of the country the defeat of Nazism and the rise of American power and world leadership For students and scholars of the Russian Revolution there are pivotal questions that merit careful comprehensive consideration why did the Tsarist regime unravel in revolution Why did the Bolsheviks come to power rather than some other party How did Stalin rather than a more popular and respected leader win the mantle of Lenin and gain leadership of the ruling party How should Stalin s regime be judged by subsequent generations of Russians and in the context of world history In *Russian Revolution 1917 1945* author Anthony D Agostino discusses all these questions His suggestions for further reading range over decades of writing on Soviet subjects and cite classics revisionist works curiosities and studies done during and since the Gorbachev years The book explores topics including the modernization of the Tsarist Russian state World War I the revolutionary project of Soviet Communism the nationalist transformation of Soviet Communism under international pressures the Big Drive to modernize Russia by force and the external threat of fascism

History for the IB Diploma Paper 3 The Soviet Union and Post-Soviet Russia (1924-2000) Allan Todd,2016-04-14

Comprehensive books to support study of History for the IB Diploma Paper 3 revised for first assessment in 2017 This coursebook covers Paper 3 History of Europe Topic 16 The Soviet Union and post Soviet Russia 1924 2000 of the History for the IB Diploma syllabus for first assessment in 2017 Tailored to the Higher Level requirements of the IB syllabus and written by experienced IB History examiners and teachers it offers authoritative and engaging guidance through the topic *Russia 1917-1945* Clare Baker,1990 Australian National Bibliography ,1996 *The Cult of Ivan the Terrible in Stalin's Russia* M. Perrie,2001-10-25 Ivan IV the sixteenth century Russian tsar notorious for his reign of terror became an unlikely national hero in the Soviet Union during the 1940s This book traces the development of Ivan s positive image placing it in the context of Stalin s campaign for patriotism In addition to historians images of Ivan the author examines literary and artistic representations including Sergei Eisenstein s famous film banned for its depiction of the tsar which was interpreted as an allegorical criticism of Stalin

Historical Mechanisms Andreas Boldt,2017-03-16 *Historical Mechanisms* argues that scientific method can provide key new insights about events that took place long ago Taking a fresh approach to historical method and theory this book contends that there is enough data to show that under certain circumstances societies have behaved and will continue to behave in similar ways throughout history In this book Andreas D Boldt discusses the possibility of utilizing natural scientific theories in order to explain historical processes focusing on the question of how nations and empires rise succeed fail and then assume another form in which they begin the cycle again Scientific methods are utilized metaphorically as a means of establishing connections between events and trends throughout history and this book argues

that these methods can explain historical patterns such as chaos and stability the relationship between power centres and power vacuums the necessary conditions for the expansion of empires and the influence of natural and man made borders Exploring the ways in which concepts from science can be employed to shed new light on the analysis of historical data Historical Mechanisms is valuable reading for all scholars of the theory and method of history **Stalin's War** Sean McMeekin, 2021-04-20 A prize winning historian reveals how Stalin not Hitler was the animating force of World War II in this major new history World War II endures in the popular imagination as a heroic struggle between good and evil with villainous Hitler driving its events But Hitler was not in power when the conflict erupted in Asia and he was certainly dead before it ended His armies did not fight in multiple theaters his empire did not span the Eurasian continent and he did not inherit any of the spoils of war That central role belonged to Joseph Stalin The Second World War was not Hitler's war it was Stalin's war Drawing on ambitious new research in Soviet European and US archives Stalin's War revolutionizes our understanding of this global conflict by moving its epicenter to the east Hitler's genocidal ambition may have helped unleash Armageddon but as McMeekin shows the war which emerged in Europe in September 1939 was the one Stalin wanted not Hitler So too did the Pacific war of 1941-1945 fulfill Stalin's goal of unleashing a devastating war of attrition between Japan and the Anglo Saxon capitalist powers he viewed as his ultimate adversary McMeekin also reveals the extent to which Soviet Communism was rescued by the US and Britain's self defeating strategic moves beginning with Lend Lease aid as American and British supply boards agreed almost blindly to every Soviet demand Stalin's war machine McMeekin shows was substantially reliant on American material from warplanes tanks trucks jeeps motorcycles fuel ammunition and explosives to industrial inputs and technology transfer to the foodstuffs which fed the Red Army This unreciprocated American generosity gave Stalin's armies the mobile striking power to conquer most of Eurasia from Berlin to Beijing for Communism A groundbreaking reassessment of the Second World War Stalin's War is essential reading for anyone looking to understand the current world order *Russia at War* Timothy C. Dowling, 2014-12-02 This easy to use reference explores the people and events that shaped Russian military history and impacted Europe Asia and the world over the past eight centuries Russian military history is an often overlooked field Yet Russia is and has long been an important player in global politics and its military exploits have been central to its role on the world stage This study of Russia's military past provides insights into European and US history including the conduct of the two World Wars and the Cold War and will help readers better appreciate the current geopolitical situation This work covers major events and figures in Russian military history from the end of Mongol domination in the 14th century to the present day More than 650 entries by scores of expert contributors detail events individuals organizations and ideas that have influenced Russian warfare over 800 years Two alphabetically arranged volumes explore such conflicts as the Russo Polish Wars the Great Northern War the Russo Turkish Wars the Napoleonic Wars the Crimean War the Russo Japanese War World War I World War II and the Cold War including the Soviet

invasion of Afghanistan Cross references and further readings in each entry serve as jumping off points for further exploration

The Central Asian Revolt of 1916 Alexander Morrison, Cloé Drieu, Aminat Chokobaeva, 2019-10-02 The 1916 Revolt was a key event in the history of Central Asia and of the Russian Empire in the First World War This volume is the first comprehensive re assessment of its causes course and consequences in English for over sixty years It draws together a new generation of leading historians from North America Japan Europe Russia and Central Asia working with Russian archival sources oral narratives poetry and song in Kazakh and Kyrgyz These illuminate in unprecedented detail the origins and causes of the revolt and the immense human suffering which it entailed They also situate the revolt in a global perspective as part of a chain of rebellions and disturbances that shook the world's empires as they crumbled under the pressures of total war

The Stalin Affair Giles Milton, 2024-09-03 From internationally bestselling historian Giles Milton comes the remarkable true story of the motley group of Allied men and women who worked to manage Stalin's mercurial explosive approach to diplomacy during four turbulent years of World War II In the summer of 1941 Hitler invaded the Soviet Union shattering what Stalin had considered an ironclad partnership There were real fears that Stalin's forces would be defeated or that the Soviet leader would once again strike a deal with Hitler Either eventuality would spell catastrophe for both Britain and the United States Enter W Averell Harriman a railroad magnate and at the start of the war the fourth richest man in America At Roosevelt's behest he traveled to Britain to serve as a liaison between the president and Churchill and to spearhead what became known as the Harriman Mission Together with his fashionable young daughter Kathy an unforgettable cast of British diplomats and Churchill himself he would eventually manage to wrangle Stalin into the partnership the Allies needed to defeat Hitler Based on unpublished diaries letters and secret reports The Stalin Affair reveals troves of new material about the path to Allied victory full of vivid scenes between celebrated and infamous World War II figures Includes eight page black white photograph insert

Mastering Twentieth-Century Russian History Norman Lowe, 2020-08-29 Mastering Twentieth Century Russian History presents a vivid and informative account of the events which befell the Russian people during the course of the twentieth century Explores the major developments of the last century from the revolution of 1905 to the First and Second World Wars to the Cold War and the rise and fall of the USSR Examines key figures and their actions from Nicholas II Lenin Trotsky Stalin Khrushchev Brezhnev Gorbachev and Yeltsin to Putin

Deals with events right up to 2000 enabling the Soviet experiment to be placed in context a decade after its collapse
Incorporates the latest research from British American and Russian historians examining key controversies and debates
Includes primary source material maps photographs posters and a full chronology of events This text is the ideal companion for anyone seeking a clear yet detailed introduction to the fascinating events of twentieth century Russian history *Writing History in the Soviet Union* Arup Banerji, 2008 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed *Writing History in the Soviet Union Making the Past Work* is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh Sri Lanka **Europe Since 1945** Bernard A. Cook, 2001 Employing 286 scholars this two volume encyclopedia contains entries on post World War II European political history and groups significant events and persons the economy religion education the arts women s issues writers and more Purity and Compromise in the Soviet Party-State Daniel Stotland, 2017-11-15 This work offers new ways of conceptualizing the decision making paradigm of the Soviet party state that was defined by the persistent shortage of qualified manpower that afflicted the Russian elite The traditional Russian problems of under administration combined with the unique features of the Soviet political system resulted in a dichotomy between practical and ideological demands The WWII era examined in this book provides a microcosm of pressures facing the Kremlin and illustrates the cyclical nature of policy formation forced on it by the paradoxes of the system As the party s responsibilities expanded into specialized economic and military areas political experts increasingly depended on the specialized professionals These trends grew increased drastically during the war An unexpected consequence of the party s expansion into economic or military professions was the discovery that cooptation

worked both ways and many party members become managers rather than ideological overseers Throughout the existential crisis of the system the war and its aftermath the party would find itself in a fundamental conflict over its identity challenged over its role both vis a vis the state and its own priorities After an abortive attempt to reverse the wartime trends a new paradigm was articulated by the party during the last five years of Stalin s reign This resulted in the emergence of a new elite consensus which envisioned the party as integral and invasive economic actor This shift in the party s identity was the price of maintaining centralized political power and came at the expense of the focus on ideological purity In the long term however the diminished role of ideology robbed the party of its core value system and steadily eroded its legitimizing and self energizing power Over time the new consensus would undermine the very foundations of the party state construct Yet if the USSR was to survive as a modern industrialized state the accommodation with the technocrats was necessary The contradiction between ideological and pragmatic aims was inherent to the system and demanded an eventual choice between the long term health of the state and that of the party

European International Law Traditions Peter Hilpold,2020-11-20 International Law is usually considered at least initially to be a unitary legal order that is not subject to different national approaches Ex definition it should be an order that transcends the national and one that merges national perspectives into a higher understanding of law It gains broad recognition precisely because it gives expression to a common consensus transcending national positions The reality however is quite different Individual countries approaches to International Law and the meanings attached to different concepts often diverge considerably The result is a lack of comprehension that can ultimately lead to outright conflicts In this book several renowned international lawyers engage in an enquiry directed at sorting out how different European nations have contributed to the development of International Law and how various national approaches to International Law differ In doing so their goal is to promote a better understanding of theory and practice in International Law

Life/Death Rhythms of Capitalist Regimes - Debt Before Dishonour Will Slatyer,2014-09-16 *Life Death Rhythms of Capitalist Regimes* Debt before Dishonour explores the cyclical theory of cultural development with particular attention paid to the introduction of democratic forms of government in the British Empire and the United States republic The cyclical theory allows a forecast of the fading of the dominance of the United States as an imperial power Similar to cultural survival of the loss of dominance experienced by the British Empire after the Great War the United States will survive in a new form Which superpower will take over the reins remains to be seen but the likely contender is the Peoples Republic of China This conclusion and the timing will allow long term planning by corporations and governments In the age of political correctness it is unlikely that readers will experience any such forecasts by government bodies Throughout history societies have used and abused debt revolted and warred over debt and have forbidden usury But the modern financial world as we know it simply cannot exist

without usury Since the 1400s modern governments have found new ways to expand debt to produce modern economies which are still subject to the age old basic principle of debt that it needs to be repaid or dire consequences ensue Those who cannot remember the past are condemned to repeat it George Santayana 1863 1952 *Geography of the World's Major Regions* John Cole, 2003-09-02 Presents a global view of today's most pressing issues through an analysis of the twelve major regions of the world Economic and political restructuring agriculture industry catastrophe human conflict are just some of the issues covered

When people should go to the book stores, search instigation by shop, shelf by shelf, it is in reality problematic. This is why we provide the book compilations in this website. It will entirely ease you to see guide **Russia Soviet Union 1917 1945 From Tsar To Stalin** as you such as.
