The Works of Thomas De Quincey, Part II vol 9 Grevel Lindop,Barry Symonds,2024-10-28 Thomas De Quincey 1785 1859 is considered one of the most important English prose writers of the early 19th century This is the second part of a 21 volume set presenting De Quincey's work also including previously unpublished material Narrative, Space and Gender in Russian Fiction: 1846-1903 Joe Andrew,2007-01-01 The present volume has as its primary aim readings from a feminist perspective of a number of works from Russian literature published over the period in which the woman question rose to the fore and reached its peak All the works considered here were produced in or hark back to a fairly narrowly defined period of not quite 20 years 1846 1864 in which issues of gender of male and female roles were discussed much more keenly than in perhaps any other period in Russian literature The overall project is summed up by the three key words of this book's title narrative space and gender and especially the interconnections between them That is what do the way these stories were told tell us

about gender identities in mid nineteenth century Russia Which spaces were central to these fictional worlds Which spaces suggested which gender identities The discussions therefore focus on issues of narrative and space and how they acted as technologies of gender This volume will be of interest to all interested in nineteenth century Russian literature as well as students of gender and of the semiotics of narrative space
