Russian European Paul Miliukov In Russia:

A Russian European; Paul Miliukov in Russian Politics Thomas Riha, 1969 *Late Tsarist Russia, 1881-1913* Beryl Williams, 2020-09-17 This book brings together the large volume of work on late Tsarist Russia published over the last 30 years to show an overall picture of Russia under the last two tsars before the war brought down not only the Russian empire but also those of Germany Austria Hungary and Turkey It turns the attention from the old emphases on workers revolutionaries and a reactionary government to a more diverse and nuanced picture of a country which was both a major European great power facing the challenges of modernization and industrialization and also a multi ethnic and multi confessional empire stretching across both Europe and Asia **Russia and Eastern Europe, 1789-1985** Raymond Pearson, 1989 Russia and the Idea of Europe Iver B. Neumann, 2016-10-14 The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism brought to the fore the centuries old debate about Russia s relationship with Europe In this revised and updated second edition of *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self referencing nationalist views and Europe orientated liberal views can ever be resolved Drawing on a wide range of Russian sources this book retains the broad historical focus of the previous edition and picks up from where the it off in the early 1990s bringing the discussion fully up to date Discussing theoretical and political developments it relates the existing story of Russian identity formation to new foreign policy analysis and the developments in the study of nationalism The book also offers an additional focus on post Cold War developments In particular it examines the year 2000 when Putin succeeded Yeltsin as president and 2014 when Russian foreign policy turned from cooperation to confrontation Bringing to life the various debates surrounding this complicated relationship in an accessible and clear manner this book continues to be a unique and vital resource for both students and scholars of international relations

Russia Under the Last Tsar Theofanis G. Stavrou, 1969 The reign of Russia s last tsar Nicholas II from 1894 to 1917 constitutes a period of continuing controversy among historians Interesting in its own right it is also a time of great importance to an understanding of the cataclysmic events which follo **Russia's World Order** Paul Robinson, 2025-04-15 Russia s World Order explores the ideas underlying the undeclared New Cold War between Russia and the West The first Cold War was a struggle between capitalism and communism most Western politicians and policymakers imagine the new one to be a struggle between democracy and autocracy Russia s World Order explains that in Russian eyes the conflict is about something very different it is a fight between two incompatible visions of where history is leading Russia s World Order describes the civilizational theory that has come to dominate Russian official discourse andthat has come to dominate Russian official discourse and that is being used by the Russian state to justify its clashes with the West Whereas the West promotes a vision of history that drives all nations toward convergence on a single social political and economic model that of modern Western liberalism Russia s political leaders increasingly portray the world as consisting of numerous distinct

civilizations each diverging toward its own unique destination The Russian state portrays itself as defending the right of all civilizations to chart their own independent path of development and is having some success in using this logic to win allies around the world Paul Robinson recounts how ideas of inevitable convergence once dominated Russian thought as well but were gradually pushed out by civilizational theories He outlines where these theories came from what they propose and how they became popular Russia's World Order thereby reveals the true nature of today's New Cold War and the challenge that Russian civilizationism poses to the West

Russia in World History Choi Chatterjee, 2022-01-27 Russia in World History uses a comparative framework to understand Russian history in a global context The book challenges the idea of Russia as an outlier of European civilization by examining select themes in modern Russian history alongside cases drawn from the British Empire Choi Chatterjee analyzes the concepts of nation and empire selfhood and subjectivity socialism and capitalism and revolution and the world order in the 19th 20th and 21st centuries In doing so she rethinks many historical narratives that bluntly posit a liberal West against a repressive authoritarian Russia Instead Chatterjee argues for a wider perspective which reveals that imperial practices relating to the appropriation of human and natural resources were shared across European empires both East and West Incorporating the stories of famous thinkers such as Leo Tolstoy Emma Goldman Wangari Maathai Arundhati Roy among others This unique interpretation of modern Russia is knitted together from the varied lives and experiences of those individuals who challenged the status quo and promoted a different way of thinking This is a ground breaking book with big and provocative ideas about the history of

the modern world and will be vital reading for students of both modern Russian and world history **Historiography of Imperial Russia: The Profession and Writing of History in a Multinational State** Thomas Sanders, 2015-02-12 This collection of the best new and recent work on historical consciousness and practice in late Imperial Russia assembles the building blocks for a fundamental reconceptualization of Russian history and history writing **Russia in the Age of Modernisation and Revolution 1881 - 1917** H. Rogger, 2014-07-30 Hans Rogger's study of Russia under the last two Tsars takes as its starting point what the Russians themselves saw as the central issue confronting their nation the relationship between state and society and its effects on politics economics and class in these critical years The Cultural Gradient Catherine Evtuhov, Stephen Kotkin, 2003 Is there a sharp dividing line that separates Europe into East and West This volume brings together prominent scholars from the United States Canada France Poland and Russia to examine the evolution of the concept of Europe in the two centuries between the French Revolution and the collapse of the Soviet Union Inspired by the ideas of Martin Malia the contributors take a flexible view of the cultural gradient the emergence interaction and reception of ideas across Europe The essays address three dimensions of the gradient the history of ideas regimes and political practices and the contemporary political and intellectual scene In exploring the movement of ideas throughout Europe The Cultural Gradient brings a new historical perspective to the field of European studies **Russia at War** Timothy C. Dowling, 2014-12-02 This easy to use reference explores the people and events that shaped Russian military history and impacted Europe Asia and the world over the past eight centuries Russian military history is an often overlooked field Yet Russia is and has long been an important player in global politics and its military exploits have been central to its role on the world stage This study of Russia's military past provides insights into European and U S history including the conduct of the two World Wars and the Cold War and will help readers better appreciate the current geopolitical situation This work covers major events and figures in Russian military history from the end of Mongol domination in the 14th century to the present day More than 650 entries by scores of expert contributors detail events individuals organizations and ideas that have influenced Russian warfare over 800 years Two alphabetically arranged volumes explore such conflicts as the Russo Polish Wars the Great Northern War the Russo Turkish Wars the Napoleonic Wars the Crimean War the Russo Japanese War World War I World War II and the Cold War including the Soviet invasion of Afghanistan Cross references and further readings in each entry serve as jumping off points for further exploration **Liberal Reform in an Illiberal Regime** Stephen F. Williams, 2013-09-01 An examination of property rights reforms in Russia before the revolution reveals the advantages and pitfalls of liberal democracy in action from a government that could be described as neither liberal nor democratic The author analyzes whether truly liberal reform can be effectively established from above versus from the bottom up or whether it is simply a product of exceptional historical circumstances **Reclaiming Byzantium** Pinar Üre, 2020-02-20 There is a long held feeling in Russia that Moscow is the true heir to the Christian Byzantine Empire In 1894 Imperial Russia opened

one of the world's leading centres for Byzantine archaeology in Istanbul the Russian Archaeological Institute its purpose was to stake the claim that Russia was the correct heir to Tsargrad as Istanbul was referred to in Russian circles This then is the history of that institute and the history of Russia's efforts to reclaim its Middle East events since in the Crimea Syria and Georgia are all to some extent wrapped up in this historical framework Ure looks at the founding of the Russian Archaeological Institute its aims and its place in the digging race which characterised the late Imperial phase of modern history Above all she shows how the practise of history has been used as a political tool a form of soft power

The Anatomy of Revolution Revisited Bailey Stone, 2014 This study aims to update a classic of comparative revolutionary analysis Crane Brinton's 1938 study *The Anatomy of Revolution* It invokes the latest research and theoretical writing in history political science and political sociology to compare and contrast in their successive phases the English Revolution of 1640-60 the French Revolution of 1789-99 and the Russian Revolution of 1917-29 This book intends to do what no other comparative analysis of revolutionary change has yet adequately done It not only progresses beyond Marxian socioeconomic class analysis and early revisionist stresses on short term accidental factors involved in revolutionary causation and process it also finds ways to reconcile state centered structuralist accounts of the three major European revolutions with postmodernist explanations of those upheavals that play up the centrality of human agency revolutionary discourse mentalities ideology and political culture

Making Global Knowledge in Local Contexts Katarzyna Kaczmarska, 2020-04-08 This book draws on extensive ethnographic research undertaken in Russia to show how the wider sociopolitical context the political system relationship between the state and academia as well as the contours of the public debate shapes knowledge about international politics and influences scholars engagement with the policy world Combining an in depth study of the International Relations discipline in Russia with a robust methodological framework the book demonstrates that context not only bears on epistemic and disciplinary practices but also conditions scholars engagement with the wider public and policymakers This original study lends robust sociological foundations to the debate about knowledge in International Relations and the social sciences more broadly In particular the book questions contemporary thinking about the relationship between knowledge and politics by situating the university within rather than abstracting it from the political setting The monograph benefits from a comprehensive engagement with Russian language literature in the Sociology of Knowledge and critical reading of International Relations scholarship published in Russia This text will be of interest to scholars and students in International Relations Russian and Post Soviet Studies the Sociology of Knowledge Science and Technology Studies and Higher Education Studies It will appeal to those researching the knowledge policy nexus and knowledge production practices

The Dial Francis Fisher Browne, Waldo Ralph Browne, Scofield Thayer, 1919
Roads to Glory Ronald P. Bobroff, 2006-02-22 Until now it has been accepted that the Turkish Straits the Russian fleet's gateway to the Mediterranean were a key factor in shaping Russian policy in the years leading to World War I Control of the

Strains had always been accepted as the major priority of Imperial Russia's foreign policy. In this powerfully argued revisionist history, Ronald Bobroff exposes the true Russian concern before the outbreak of war: the containment of German aggression. Based on extensive new research, Bobroff provides fascinating new insights into Russia's state development before the revolution, examining the policies and personal correspondence of its policy makers. And through his detailed examination of the rivalries and alliances of the Triple Entente, he sheds new light on European diplomacy at the beginning of the twentieth century.
