Zekveld, Jerker Rönnberg, 2017-10-18 The Army of the Republic Stuart Archer Cohen, 2008-09-02 A war of ideals tears a family and a troubled America apart in this urgent and provocative political thriller Sound change, priming, salience Marten Juskan, 2018-10-17 This volume investigates the realisation and perception of four phonological variables in Liverpool English Scouse with a special focus on their sociolinguistic salience Younger speakers speech is found to be more local but only for the two salient variables in the sample NURSE SQUARE and k lenition which appear to carry considerable amounts of covert prestige Local variants of non salient happy tensing and velar nasal plus on the other hand are actually found to be receding so at least to a certain extent Scouse also seems to be participating in regional dialect levelling The importance of salience is also obvious in the perception data with only the two highly salient stereotypes generating robust effects in a social priming experiment albeit in the unexpected direction These results indicate that the investigated variables differ measurably not only in their use in production but also in terms of how central they are to mental sociolinguistic representations of Scouse They also tell us more about the way we process store and re use sociolinguistic variation in perception By defining likely contexts for significant priming effects they might finally even help in coming up with a more elaborate Conversations About Illness Wayne A. Beach, 2012-12-06 The grandmother granddaughter conversation examined in this book makes explicit what the detailed study of interaction reveals about two social problems bulimia and grandparent caregiving For the first time systematic attention is given to interactional activities

through which family members display ordinary yet contradictory concerns about health and illness a grandmother s who is also a registered nurse attempts to initiate confront and remedy her granddaughter s lack of responsibility in admitting bulimic problems and committing to professional medical assistance a granddaughter s methods for avoiding ownership of the alleged bulimic problems by discounting the legitimacy of her grandmother s expressed concerns Through analysis of a single audio recorded and transcribed conversation Wayne Beach reveals the altogether pervasive and often troubled talk surrounding family medical predicaments From a careful review of extant theories that seek to explain eating disorders and grandparent caregiving it becomes clear that an overreliance on self report data has promoted underspecified understandings of social contexts conceptualizations void of real time practices and interactional consequences mirroring how families manage their daily affairs and understandings regarding health and illness In contrast this volume draws attention to family members embodied interactional activities Here it is seen for example how methods for expressing concern and caring by individuals may nevertheless eventuate in interactional troubles and problems between family members The analysis reveals that while displays of basic concerns for others health and well being are routine occurrences between family members in home environments and of course across friendship and various support networks even the delicate and well intended management of such occasions guarantees neither agreement on the nature of the alleged problems nor consequently a commitment to seek professional help as a means of remedying a medical condition In such cases the very existence of an illness is itself a matter of some contention to be interactionally worked out And it is perhaps both predictable and symptomatic that those explicitly denying or as with the granddaughter indirectly failing to admit that problematic health behaviors exist also somehow let it be made known that far too much attention is being given to possibilities and consequences of illness in the first instance Implications of this investigation extend well beyond bulimia and grandparent caregiving to a vast array of casual and institutional involvements between family members friends and bureaucratic representatives such as those involved in long term caregiving dealing with cancer and Alzheimer s disease or conducting psychiatric interviews and HIV AIDS counseling sessions Findings regarding the interactionally organized nature of talk about bulimia as well as the problematic nature of caregiving will be of value to researchers focusing on language and social interaction health practitioners and families alike This volume includes the full transcript of the conversation in the case study A copy of the audio recording is available for classroom adoption and or personal purchase by contacting Wayne A Beach School of Communication San Diego State University San Diego CA 92182 4516      A Compleat English Dictionary Nathan Bailey,1788      *A Compleat English Dictionary; oder vollständiges Englisch-Deutsches Wörterbuch ...
