Ritual and Symbol in Peacebuilding Lisa Schirch, 2005 Serves as a guide to using ritual acts in peacebuilding efforts Abundant with examples of symbolic acts that aided the peace process Conflict is dramatic In theater literature story telling and news reporting it is a powerful mechanism that draws attention heightens the senses and evokes emotion Schirch argues that peacebuilding has the potential to do just the same Examples of peacebuilding often center on the serious rational negotiations and formal problem solving efforts in conflict situations Schirch argues though that what truly bonds adversaries and helps achieve peace are the symbolic non verbal ritual acts shaking hands sharing a meal showing a photograph of a loved one Yet these are often overlooked as deliberate components of peace negotiations

Ritual and Symbol in Peacebuilding underscores the importance of incorporating symbolic tools including ritual into traditional approaches to conflict Ritual assists in solving complex deep rooted conflicts and helps to confirm and transform worldviews identities and relationships With theories and language to explain the symbolic dimensions of conflict this text will be useful to scholars and practitioners active in the diverse field of peacebuilding

Information Theory , Perspectives on the Ideas of Gregory Bateson, Ecological Intelligence, and Educational Reforms C. A. Bowers, 2011 It is widely acknowledged that Gregory Bateson s ideas have been influential in a number of fields Unfortunately the importance of his ideas for understanding why public schools and universities continue to perpetuate ecologically unsustainable ways of thinking has not been adequately recognized Given the deepening ecological and economic crises this book is particularly timely as it clarifies how Bateson s five key ideas when taken as a whole provides the conceptual framework for introducing educational reforms that address both problems That is he explains why educators unconsciously continue to perpetuate the deep cultural assumptions that were constituted before there was an awareness of environmental limits and how the emphasis on a possessive form of individualism and endless material progress undermines traditions of self reliance within the world s diversity of communities His contributions to making substantive educational reforms include 1 Rethinking social justice issues in ways that take account of how the ecological crisis impacts the most vulnerable people 2 How to make the transition to exercising ecological intelligence in the areas of democratic decision making and moral values 3 Clarifying how computer mediated learning perpetuates abstract thinking and the deep cultural

assumptions that are at the cultural roots of the ecological and economic crises The chapter on pedagogical and curricular decisions that foster ecological intelligence provides practical suggestions for how public school teachers and university professors can begin to make the transition to an ethnically diverse and ecologically sustainable future Comments about the book We need an ecological consciousness which in Gregory Bateson s words is aware of the patterns that connect Chet Bowers leads us into that unmapped territory with a compass which helps Wes Jackson President The Land Institute author of Consulting the Genius of Place and Rooted in the Land Essays on Community and Place Chet Bowers philosophical reflections on Bateson s thought and its implications for education are thought provoking challenging and very inspiring Fritjof Capra author of The Web of Life and The Hidden Connections *neuro-linguistic programming: Liberating Parents* Keith Gilbert,2009-12-12 Considered by many to be the most thought provoking and exciting book ever written for parents Liberating Parents shows you how to recognise and free yourself from limitations in your thinking that you have been encouraged to accept throughout your life You can only give what you have When you are free you will relate to children through that freedom For more information you can visit my website at [www neurolinguisticparents com](http://www.neurolinguisticparents.com) If you want to discuss any aspects of the book please join us at the Liberating Parents facebook group at [www facebook com group php gid 29761887925](http://www.facebook.com/group.php/gid/29761887925)
