## **Sacrifice Of God A Holistic Theory Of Atonement:**

Neuerwerbungen Theologie und allgemeine Religionswissenschaft Universität Tübingen. Universitätsbibliothek. Theologische Abteilung, 1993      Sacrifice of God ,1992      The Sacrifice of God John Moses, 1992 Is there a world view that Christian theology can put forward which can be regarded as authentic in our world Is it possible to give to the cross a place of absolute primacy within such a scheme of things John Moses offers a restatement of atonement theology which standing in the mainstream of the Christian tradition is concerned to explore the meaning of the cross in a world that has a profound sense of the interdependence of all things Stephen Sykes Bishop of Ely writes in his Foreword to this book John Moses has done the church a considerable favour by daring to sketch the outline of what he calls a holistic theory of atonement Holistic thinking is not a big TOE Theory of Everything but a new horizon or framework characterized by patterns of interdependence elements of necessity and chance the motif of life and death and life and the promise of coherence The book challenges the compartmentalized thinking which allows us to be scientific and modern with one part of our minds and ritualistic and medieval with another It is a major strength of the presentation that sacrifice is made central to the theory Thus both mainstream Christian doctrine and eucharistic spirituality are included within the horizons of the theory      Religion Index One ,1997      *Sacrifice Unveiled* Robert J. Daly, 2009-06-13 Offers a new understanding of sacrifice as a response to love and an entering into the self giving life of God
