Battle Lines Eliza Richards, 2018-10-02 During the U S Civil War a combination of innovative technologies and catastrophic events stimulated the development of news media into a central cultural force Reacting to the dramatic increases in news reportage and circulation poets responded to an urgent need to make their work immediately relevant to current events As poetry s compressed forms traveled more quickly and easily than stories novels or essays through ephemeral print media it moved alongside and engaged with news reports often taking on the task of imagining the mental states of readers on receiving accounts from the war front Newspaper and magazine poetry had long editorialized on political happenings Indian wars slavery and abolition prison reform women s rights but the unprecedented scope of what has been called the first modern war and the centrality of the issues involved for national futures generated a powerful sense of single mindedness among readers and writers that altered the terms of poetic expression In *Battle Lines*

Eliza Richards charts the transformation of Civil War poetry arguing that it was fueled by a symbiotic relationship between the development of mass media networks and modern warfare Focusing primarily on the North Richards explores how poets working in this new environment mediated events via received literary traditions Collectively and with a remarkable consistency poems pulled out key features of events and drew on common tropes and practices to mythologize commemorate and ponder the consequences of distant battles The lines of communication reached outward through newspapers and magazines to writers such as Dickinson Whitman and Melville who drew their inspiration from their peers poetic practices and reconfigured them in ways that bear the traces of their engagements **Starring Madame Modjeska** Beth

Between the New Country and the Old World Erin E. Edgington, 2025-09-12

Poet and provocateur William Chapman 1850 1917 wrote patriotic verse recounting the history of New France envisioning a glorious future for its descendants Despite his many literary achievements he was a two time laureate of the Académie française and a nominee for the Nobel Prize in Literature Chapman is more often remembered for his explosive feud with Louis Fréchette a rivalry that pitted the two national poets against one another and played out in vicious invective across the pages of Quebec newspapers Chapman's lifelong quest to glorify French Canada and accumulate literary prestige in North America and Europe positioned him squarely between the new country and the old world Over the course of his forty year career Chapman published five collections of poetry *Les Québécoises* 1876 *Les Feuilles d'érable* 1890 *Les Aspirations* 1904 *Les Rayons du Nord* 1909 and *Les Fleurs de givre* 1912 whose very titles underscore his devotion to French Canadian identity as well as his literary ambition Integrating close readings of Chapman's verse with archival material related to his writing life Erin Edgington revisits his full oeuvre on its own terms and in context discerning the particular ways Chapman expressed the ideas of literary value and national literature that motivated him from a young age from juvenilia like *Les Mines d'or de la Beauce* 1881 to his polemical essays and his unfinished magnum opus *Le peuple canadienne* *Between the New Country and the Old World* challenges the prevailing narrative that has labelled Chapman a second rate forgettable poet showing how his life and work reveal important insights into literary fame poetics in a transitional moment at the turn of the century and the history of French literature in North America

On the Fringes of Diplomacy Antony Best, 2016-05-23 In recent decades the study of British foreign policy and diplomacy has broadened in focus No longer is it enough for historians to look at the actions of the elite figures diplomats and foreign secretaries in isolation increasingly the role of their advisers and subordinates and those on the fringes of the diplomatic world is recognised as having exerted critical influence on key decisions and policies This volume gives further impetus to this revelation honing in on the fringes of British diplomacy through a selection of case studies of individuals who were able to influence policy By contextualising each study the volume explores the wider circles in which these individuals moved exploring the broader issues affecting the processes of foreign policy Not the least of these is the issue of official mindsets and of networks of influence in Britain and overseas inculcated for example in the leading public schools at the Universities of Oxford and Cambridge and in gentlemen's clubs in London's West End As such the volume contributes to the growing literature on human agency as well as mentalité studies in the history of international relations Moreover it also highlights related themes which have been insufficiently studied by international historians for example the influence that outside groups such as missionaries and the press had on the shaping

of foreign policy and the role that strategy intelligence and the experience of war played in the diplomatic process Through such an approach the workings of British diplomacy during the high tide of empire is revealed in new and intriguing ways

Abraham Lincoln and the Virtues of War Jean E. Friedman, 2015-07-20 This study introduces a new perspective on Lincoln and the Civil War through an examination of his declaration of our national values and the subsequent interpretation of those values by families during the war This volume is a completely new approach to Civil War history Historians rightly regard Abraham Lincoln as a moral exemplar a president who gave new life to the national values that defined America While some previous studies attest to Lincoln's identification with family virtues this is the first to link Lincoln's personal biography with actual histories of families at war It analyzes the relationship that existed between Lincoln and these families and assesses the moral struggles that validated the families decision for or against the conflict Written to be accessible to students and the general reader alike the book examines Lincoln's presidency as measured against the stories of families North and South that struggled with his definition of Union virtues It looks at Lincoln's compelling case for democratic values among them justice patriotism honor and commitment first stated in his 1861 speech before Independence Hall The work also uses case studies to demonstrate how virtue as practiced in families illuminated contested adapted and even transformed his concept giving new meaning to the virtues of war
