Nick Hopwood

Look Inside A Rainforest:

Look Inside a Rainforest Alexandra E. Fischer, 1999-08 Introduces animals and plants of the rain forests of South America Africa and Asia and indicates how these forests differ from evergreen and deciduous forests [Researching Tropical Rainforests](#) Caroljean Willie, Cindy Nottage, Virginia Morse, 2004 Complete primary IIM units on Rainforests *Crude Look At The Whole, A: A Decade Later: Insights Into Real-world Complexity That Still Resonate* Jan Wouter Vastbinder, Helena Hong Gao, 2024-11-15 In March 2013 Para Limes organized the conference A Crude look at the Whole It turned out to be an extraordinary meeting even more so eleven years later During the conference the speakers all giants on their own turf captured the excitement about what the new field of complexity science could mean for understanding our world and molded it in approaches to extract meaning from these budding insights Now eleven years later the video s of the talks create a thrill that may be similar to what Newton felt when he realized that standing on the shoulders of giants allowed him to see what he saw In this book we have tried to capture that whole while at the same time keeping the individual parts in view We have done so by transcribing and editing the individual presentations adding a summary to all of them and indicating the relevance of each of the presentations to ongoing and further explorations [Australian National Bibliography: 1992](#) National Library of Australia, 1988 *Geography to 14* Sheila King, David Lambert, 1999 A summary book for Key Stage 3 of the National Curriculum It provides concise coverage of all the main themes issues and theories and step by step guidance on the essential geographical skills It also contains case studies and examples Each double page spread opens with a list of learning objectives and ends with a range of questions The book is suitable for use in the classroom and for independent study It is supported by a teacher s book which provides full answers to all the questions suggestions for additional activities help with ICT and advice about assessment **Good Nature** Kathy Willis, 2024-12-03 A ground breaking investigation into newly discovered evidence showing that remarkable things happen to our bodies and our minds when our senses connect with the natural world We all take for granted the idea that being in nature makes us feel better But if you were a skeptical scientist or indeed any kind of sceptic who wanted hard scientific evidence for this idea where would you look And how would that evidence be gathered It wasn t until Dr Kathy Willis was asked to contribute to an international project looking for the societal benefits we gain from plants that she stumbled across a study that radically changed the way she saw the natural world In the study there was clear proof that patients recovering from gall bladder operations recovered more quickly if they were looking at trees In fact in the last decade there has been an explosion of proof that incredible things happen to our bodies and our minds when our senses interact with the natural world In *Good Nature* Kathy Willis takes the reader on a journey with her to dig out all the experiments around the world that are looking for this evidence experiments made easier by the new kinds of data being collected from satellites and big data biobanks Having a vase of roses on your desk or a green wall in your office makes a measurable difference to your wellbeing certain scents in room diffusers genuinely can boost your

immune system and in a chapter that Kathy calls Hidden Sense we learn that touching organic soil has a significant effect on the healthiness of your microbiome What is remarkable about this book is how its revelations should be commonsense schools should let children play in nature to improve their health and concentration urban streets should have trees and yet it reveals just how difficult it is to prove this to businesses and governments As Kathy Willis says in her narrative We now know enough to self prescribe in our homes offices or working spaces gardens and when out walking However small these individual actions might be overall they have the potential to provide a large number of health benefits And we need to be encouraging others to do the same Nature is far more than just something that is useful for our health It is not a dispensable commodity It is an inherent part of us

Communicating Climate Science - HC 254 Great Britain. Parliament. House of Commons. Select Committee on Science and Technology,Great Britain: Parliament: House of Commons: Science and Technology Committee,Andrew Miller,2014-04-02 The Government is failing to clearly and effectively communicate climate science to the public There is little evidence of co ordination amongst Government government agencies and public bodies on communicating climate science despite various policies at national and regional level to mitigate and adapt to climate change The mandate to act on climate can only be maintained if the electorate are convinced that the Government is acting on the basis of strong scientific evidence Ministers therefore need to do more to demonstrate that is the case and consistently reflect the Government approach in all their communications especially with the media The report also criticises the BBC for its reporting on the issue It points out that BBC News teams continue to make mistakes in their coverage of climate science by giving opinions and scientific fact the same weight The BBC is called to develop clear editorial guidelines for all commentators and presenters on the facts of climate that should be used to challenge statements from either side of the climate policy debate that stray too far from the scientific facts It is important that climate science is presented separately from any subsequent policy response Government should work with the learned societies and national academies to develop a source of information on climate science that is discrete from policy delivery comprehensible to the general public and responsive to both current developments and uncertainties in the science

Geography in Secondary Schools Nick Hopwood, 2012-06-21 Gaining a better sense of how pupils conceive school geography is crucial if we are to understand the ways in which their ideas and values mediate learning processes *Geography in Secondary Schools* explores how pupils experience geography lessons what they think geography as a school subject is about and what it means to them School geography aims to help young people think about the world and their place in it in a distinctive geographical way However very little is known about the kinds of thinking and values they associate with the subject Researchers are increasingly taking

young people's ideas seriously as important and worthy of investigation in their own right. In this book Nick Hopwood takes such an approach to explore the relationships between pupils and geography as a school subject. He follows six pupils through their geography lessons for a period of three months discussing their learning experiences in depth with them. Their participation in class written work and comments made in interviews form the basis for a detailed investigation of their ideas.

Rainforest Strategy Michael Pink, 2012-10-08 Locked away in the world's rainforests are the most productive and fruitful ecosystems in the world. How they transform scarcity into abundance is what every entrepreneur and businessperson needs to know. These secrets include the steps to: 1. Get a clearer vision for your business. 2. Increasing your productivity. 3. Transform your great ideas into realities. 4. Tap into the ultimate model for efficiency. 5. Discover how to use your innovations for success. 6. Understand the importance of interdependent relationships. 7. Learn 7 indispensable secrets for marketing. By taking a look at the rainforest with business eyes and an open mind in this book, we discover that creation has been indelibly stamped with the wisdom of the Creator. It contains transcending business principles that can take any enterprise from good to great. *Amazonian Ethnobotanical Dictionary* James A. Duke, 2018-02-06 The Amazonian Ethnobotanical Dictionary presents an exciting new rainforest book designed and conceived in the rainforest and dedicated to its preservation. The book contains concise accounts of the various uses to which prominent Amazonian plants are put by the local rainforest inhabitants. Although emphasis is placed on plant foods and forest medicines, there is also commentary on other relevant applications including natural artifacts, house construction, natural pesticides, and ornamental and fodder plants. More than 1,000 species are covered and over 200 illustrated. An index to Spanish and English names leads to the scientific name, and the index to plants provides its medicinal application. There are even suggestions on how to eat palm grubs and how to make an Amazonian salad dressing. All royalties from the book are donated to the Amazonian Center for Environmental Education and Research (ACEER) in order to continue its preservation of one of the world's most diverse forests.

Brilliant Activities for Reading Comprehension, Year 1 Charlotte Makhoul, 2023-05-09 Brilliant Activities for Reading Comprehension 3rd edition is a 6 book series containing engaging, enjoyable texts and activities to help primary school children to develop their reading comprehension skills and foster a love of reading. The Year 1 book begins with simple picture comprehension passages. The passages gradually increase in difficulty as you progress through the book, and through the series, encouraging children to develop their ability to read for meaning and use a range of strategies to engage with the text. Throughout the series, pupils are exposed to a range of genres from newspaper articles and descriptive reports to plays, stories, and poems. Over a third of the passages in the 3rd edition are new, including many non-fiction pieces linked to the history curriculum. The questions for all the passages have been completely rewritten to link more closely to the reading content domains and to ensure a mixture

of short and long question types The extension activities provide teachers with open ended questions to stimulate class and small group discussions as well as creative activities and writing ideas which will stretch more able pupils and make it easy to provide differentiation The books are ideal for helping children to develop higher order reading comprehension skills ensuring that they will excel at SATs in Years 2 and 6 and at 11 Comprehension Tests
