**Abstract:** The frequency and quality of intergroup contact within racially and ethnically diverse schools has potentially important implications for the achievement of desegregation goals. The analyses presented here use survey data to assess intergroup contact within a sample of ten interdistrict magnet schools in Connecticut. Findings indicate frequent intergroup interactions within interdistrict magnet schools, but also that the perceived quality of intergroup relations differs across racial groups and both the frequency and quality of intergroup contact varies considerably across schools. Students who report higher quality intergroup relations in their school also tend to report more positive academic environments and more positive attitudes towards other groups.

**EBOOK: Experiencing Intercultural Communication: An Introduction** Judith Martin, Thomas Nakayama, G.P. van Rhee, de van Oudtshoorn, Paul Schutte, 2013-07-16 The new Southern African edition of this popular introductory textbook offers students a practical and accessible framework for developing their intercultural communication skills It provides a global perspective on intercultural communication while allowing students to contextualise their knowledge with relevant examples applications and perspectives Recognising that students in Southern Africa come from diverse cultural ethnic and linguistic backgrounds it provides discussion of issues and

perspectives they can apply to everyday life and to broader contexts      Collaboration Morten T. Hansen, 2009 In Collaboration author Morten Hansen takes aim at what many leaders inherently know in today's competitive environment: companywide collaboration is an imperative for successful strategy execution yet the sought-after synergies are rarely if ever realized. In fact, most cross-unit collaborative efforts end up wasting time, money, and resources. How can managers avoid the costly traps of collaboration and instead start getting the results they need? In this book, Hansen shows managers how to get collaboration right through disciplined collaboration: a practical framework and set of tools managers can use to assess when and when not to pursue collaboration across units to achieve goals; identify and overcome the four barriers to collaboration; get people to buy into the larger picture even when they own only a small piece of it; be a T-shaped manager collaborating across divisions while still working deeply in your own unit; create networks across the organization that are not large but nimble and effective. Based on the author's long-running research in depth case studies and company interviews, Collaboration delivers practical advice and tools to help your organization collaborate for real results.      *Educational Research Document Summaries* Educational Research Information Center (U.S.), 1966      **Youth-serving Organizations** Merritt Madison Chambers, 1948      *Reader's Guide to the Social Sciences* Jonathan Michie, 2014-02-03 This 2-volume work includes approximately 1,200 entries in A-Z order, critically reviewing the literature on specific topics from abortion to world systems theory.
