Hovannisian, 2017-07-28 World War I was a watershed a defining moment in Armenian history Its effects were unprecedented in that it resulted in what no other war invasion or occupation had achieved in three thousand years of identifiable Armenian existence This calamity was the physical elimination of the Armenian people and most of the evidence of their ever having lived on the great Armenian Plateau to which the perpetrator side soon gave the new name of Eastern Anatolia The bearers of an impressive martial and cultural history the Armenians had also known repeated trials and tribulations waves of massacre captivity and exile but even in the darkest of times there had always been enough remaining to revive rebuild and go forward This third volume in a series edited by Richard Hovannisian the dean of Armenian historians provides a unique fusion of the history philosophy literature art music and educational aspects of the Armenian experience It further provides a rich storehouse of information on comparative dimensions of the Armenian genocide in relation to the Assyrian Greek and Jewish situations and beyond that paradoxes in American and French policy responses to the Armenian genocides The volume concludes with a trio of essays concerning fundamental questions of historiography and politics that either make possible or can inhibit reconciliation of ancient truths and righting ancient wrongs **Night on Earth** Davide Rodogno, 2021-12-09 Night on Earth is a broad ranging account of international humanitarian programs in Central and Eastern Europe the Balkans and the Near East from 1918 to 1930 Davide Rodogno shows that international relief and development were intertwined long before the birth of the United Nations with humanitarians operating in a region devastated by war and famine and in which state sovereignty was deficient Influenced by colonial motivations and ideologies these humanitarians attempted to reshape entire communities and nations through reconstruction and rehabilitation programmes The book draws on the activities of a wide range of secular and religious organisations and philanthropic foundations in the US and Europe including the American Relief Administration the American Red Cross the Quakers Save the Children the Near East Relief the American Women s Hospitals the League of Nations and the International Committee of the Red Cross **Children of Armenia** Michael Bobelian, 2009-09-01 An illuminating and powerful chronicle of the historical yet oft forgotten Armenian genocide and its devastating aftermath From 1915 to 1923 the Ottoman Empire drove the Armenians from their ancestral homeland and slaughtered 1.5 million of them in the process While there was an initial global outcry and a movement led by Woodrow Wilson to aid the starving Armenians the promises to hold the perpetrators accountable were never fulfilled In this groundbreaking work Michael Bobelian profiles the leading players Armenian activists and assassins Turkish diplomats U S officials each of whom played a significant role in furthering or opposing the century long Armenian quest for justice in the face of Turkish denial of its crimes and reveals the events that have conspired

Dealing with the Legacy of Authoritarianism Antonio Costa Pinto, Leonardo Morlino, 2013-09-13 In recent years the agenda of how to deal with the past has become a central dimension of the quality of contemporary democracies Many years after the process of authoritarian breakdown consolidated democracies revisit the past either symbolically or to punish the elites associated with the previous authoritarian regimes New factors like international environment conditionality party cleavages memory cycles and commemorations or politics of apologies do sometimes bring the past back into the political arena This book addresses such themes by dealing with two dimensions of authoritarian legacies in Southern European democracies repressive institutions and human rights abuses The thrust of this book is that we should view transitional justice as part of a broader politics of the past an ongoing process in which elites and society under democratic rule revise the meaning of the past in terms of what they hope to achieve in the present This book was published as a special issue of South European Society and Politics

Late Ottoman Genocides Dominik J. Schaller, Jürgen Zimmerer, 2013-09-13 The Armenian Genocide has lately attracted a lot of attention despite the Turkish government's attempts at denial It has been developed into a central obstacle to Turkey's entry into the European Union As such it attracts the highest political and public attention What is largely ignored in the debate however is the fact that Armenians were not the only victims of the Young Turk's genocidal population policies What is still largely forgotten is the murder expulsion and deportation of other ethnic groups like Assyrians Greeks Kurds and Arabs by the Young Turks This not only increases the number of victims but also changes the perspective on the foundation of modern Turkey and as such on modern Turkish history more generally The Thematic Issue of the JGR the republication of which is proposed here is the first publication which addresses these wider issues It contributes not only to our understanding of the Young Turks population and extermination policies in all its complexities and so helping to bring the forgotten victims stories back into genocide scholarship but to our understanding of modern Turkey more generally It is an indispensable tool for everybody interested in one of the great historical controversies of our time This book was published as a special issue of the

Impediments to the Prevention and Intervention of Genocide Samuel Totten, 2013 Academics NGOs the United Nations and individual nations are focused on the prevention and intervention of genocide Traditionally missions to prevent or intervene in genocide have been sporadic and under resourced The contributors to this volume consider some of the major stumbling blocks to the avoidance of genocide Bartrop and Totten argue that realpolitik is the major impediment to the elimination of genocide Campbell examines the lack of political will to confront genocide and Theriault describes how denial becomes an obstacle to intervention against genocide Loyle and Davenport discuss how intervention is impeded by a lack of reliable data on genocide violence and Macgregor presents an overview of the influence of the media Totten examines how the UN Convention on Genocide actually impedes anti genocide efforts and how the institutional configuration of the UN is itself often a stumbling block Addressing an issue that is often overlooked Travis examines the impact of global arms trade on genocide Finally Hiebert examines how international criminal prosecution of atrocities can impede preventive efforts and Hirsch provides an analysis of the strengths weaknesses and effectiveness of major international and national prescriptions developed over the last decade The result is a distinguished addition to Transaction s prestigious Genocide Studies series

and violence A Companion to the Holocaust is an essential resource for students and scholars of European German genocide colonial and Jewish history as well as those in the general humanities Genocide in the Age of the Nation State Mark Levene,2005-08-26 How should we understand genocide in the modern world As an aberration from the norms of a dominant liberal international society Or rather as a guide to the very dysfunctional nature of the international system itself The Meaning of Genocide is the first work of its nature to consider the phenomenon within a broad context of world historical development In this book Mark Levene sets out the conceptual issues in the study of genocide addressing the fundamental problems of defining genocide and understanding what we mean by perpetrators and victims before placing the phenomenon in the context of world history In an original and compelling argument Levene seeks to explain how state violence against a range of groups has emerged in tandem with the rise of the West to global dominance and the emergence of increasingly streamlined homogenous states Levene contends that it is in the relationship of these nation states to each other that we will find the well springs of some of the most poisonous tendencies in the modern world Thought provoking and beautifully constructed The Meaning of Genocide is the first of a major four volume survey Genocide in the Age of the Nation State which examines its subject within an extensive global and historical framework and which will become the definitive work on the subject *Dark Pasts* Jennifer M. Dixon,2018-11-15 In Dark Pasts Jennifer M Dixon asks why states deny past atrocities and when and why they change the stories they tell about them In recent decades states have been called on to acknowledge and apologize for historic wrongs Some have apologized while others have silenced denied and relativized past crimes Dark Pasts unravels the complex and fraught processes through which state narratives of past atrocities are constructed contested and defended Focusing on Turkey s narrative of the Armenian Genocide and Japan s narrative of the Nanjing Massacre Dixon shows that international pressures increase the likelihood of change in states narratives of their own dark pasts even as domestic considerations determine their content Combining historical richness and analytical rigor Dark Pasts is a revelatory study of the persistent presence of the past and the politics that shape narratives of state wrongdoing **Syrian Armenians and the Turkish Factor** Marcello Mollica,Arsen Hakobyan,2021-10-27 This volume examines significant social transformations engendered by the ongoing Syrian conflict in the lives of Syrian Armenians The authors draw on documentary material and fieldwork carried out in 2013 2019 among Syrian Armenians in Armenian and Lebanese urban settings The stories of Syrian Armenians reveal how contemporary events are seen to have direct links to the past and to reproduce memories associated with the Armenian genocide the contemporary involvement of Turkey in the Syrian war for example is seen on the ground as an attempt to control the Armenian presence in Syria Today the Syrian Armenian identity encapsulates the complex intersection of memory transnational links to the past collective identity and lived experience of wartime everydayness Specifically the analysis addresses the role of memory in key events such as the bombing of Armenian historical sites during the commemorations of 24 April in the Eastern Syrian city of Deir ez Zor the perceived shift from

destroying Syrian Armenians material culture to attempting to destroy the Armenian community in urban Aleppo and the informal transactions that take place in the border area of Kessab This carefully researched ethnography will appeal to scholars of anthropology sociology and political science who specialize in studies of conflict memory and diaspora
