Foxen, 2020 This book follows up on recent findings that modern postural yoga is the outcome of a complex process of transcultural exchange and syncretism and digs even deeper looking to uncover the disparate but entangled roots of contemporary yoga practice In doing so it proposes that some of what we call yoga especially when it comes to North America and Europe is only slightly genealogically related to pre modern Indian yoga traditions Rather they are equally if not more grounded in Hellenistic theories of the subtle body Western esotericism and magic pre modern European medicine and late nineteenth century women s wellness programs Marshalling these under the umbrella category of harmonialism the present book argues that they constitute a history of analogous practices that were gradually subsumed into the language of yoga This allows us to fundamentally recontextualize the peculiarities of Western and especially certain mainstream American form of yoga their focus on aesthetic representation their privileging of bodily posture and unsystematic incorporation of breathwork and above all their overwhelmingly privileged female demographics The initial chapters of the book lay out the basic shape and history of these concepts and practices while the later chapters explore their development into a spiritualized form of women s physical culture over the course of the late nineteenth and early twentieth centuries including the ways in which they became increasingly associated with yoga **The Theosophist** Helena Petrovna Blavatsky, Henry Steel Olcott, Annie Besant, George Sydney Arundale, 1990 **Ananda Coomaraswamy,**
