Medieval Death:

Medieval Death Paul Binski, 1996 In this richly illustrated volume Paul Binski provides an absorbing account of the social theological and cultural issues involved in death and dying in Europe from the end of the Roman Empire to the early sixteenth century He draws on textual archaeological and art historical sources to examine pagan and Christian attitudes toward the dead the aesthetics of death and the body burial ritual and mortuary practice Illustrated throughout with fascinating and sometimes disturbing images Binski's account weaves together close readings of a variety of medieval thinkers He discusses the impact of the Black Death on late medieval art and examines the development of the medieval tomb showing the changing attitudes toward the commemoration of the dead between late antiquity and the late Middle Ages In one chapter Binski analyzes macabre themes in art and literature including the Dance of Death which reflect the medieval obsession with notions of humility penitence and the dangers of bodily corruption In another he studies the progress of the soul after death through the powerful descriptions of Heaven Hell and Purgatory in Dante and other writers and through portrayals of the Last Judgment and the Apocalypse in sculpture and large scale painting

Reforming the Art of Dying Austra Reinis, 2016-12-05 The Reformation led those who embraced Martin Luther's teachings to revise virtually every aspect of their faith and to reorder their daily lives in view of their new beliefs Nowhere was this more true than with death By the beginning of the sixteenth century the Medieval Church had established a sophisticated mechanism for dealing with death and its consequences The Protestant reformers rejected this new mechanism

To fill the resulting gap and to offer comfort to the dying they produced new liturgies new church orders and new handbooks on dying This study focuses on the earliest of the Protestant handbooks beginning with Luther s Sermon on Preparing to Die in 1519 and ending with Jakob Otter s Christlich leben vnd sterben in 1528 It explores how Luther and his colleagues adopted traditional themes and motifs even as they transformed them to accord with their conviction that Christians could be certain of their salvation It further shows how Luther s colleagues drew not only on his teaching on dying but also on other writings including his sermons on the sacraments The study concludes that the assurance of salvation offered in the Protestant handbooks represented a significant departure from traditional teaching on death By examining the ways in which the themes and teachings of the reformers differed from the late medieval ars moriendi the book highlights both breaks with tradition and continuities that marked the early Reformation
