Northwest offer a valuable setting for considering issues of borders and borderlands. The regions contain certain similarities and during the first half of the nineteenth century they were even grouped together as a distinct political and economic unit called the Oregon Country by Americans and the Columbia Department of the Hudson's Bay Company by the British. The essays in this volume, which grew out of a conference commemorating the Oregon Treaty of 1846, view the boundary between Canada and the United States as a dividing line and also as a regional backbone with people on each side of the border having key experiences and attitudes in common. In their eloquence and scope they illustrate how historical study of Canadian-American relations in the West calls into question the parameters of the nation-state. The border has not had a single constant meaning; rather, its significance has changed over time and varied from group to group. The essays in Part One concern the movement of peoples and capital across a relatively permeable boundary during the nineteenth century. Many people in this era, especially Natives, miners, immigrants, and capitalists, did not regard the international boundary as particularly important. Part Two considers how the United States and Canada took pains to strengthen and enforce the international boundary during the twentieth century. In this era, the nation-state became more assertive about defining and defending the borderline. Part Three offers considerations of the distinctions, both real and imagined, that emerged during the nineteenth and twentieth centuries between Canada and the United States. Its essays examine different schools of history, divergent ideas toward wilderness, and the influence of anti-Americanism on Canadians' view of national development in North America.

*Peace Weavers* Candace Wellman, 2020-10-14

Throughout the mid-1800s, outsiders including many Euro-Americans arrived in what is now Northwest Washington. As they interacted with Samish, Lummi, S'Klallam, Sto'lo, and other groups, some of the men sought relationships with young local women. Hoping to establish mutually beneficial ties, Coast and Interior Salish families arranged strategic cross-cultural marriages. Some pairs became lifelong partners, while other unions were short. These were crucial alliances that played a critical role in regional settlement and spared Puget Sound's upper corner from the tragic conflicts other regions experienced. Accounts of the men, who often held public positions—army officer, Territorial Supreme Court justice, school superintendent, sheriff—exist in a variety of records. Some, like the nephew of Confederate President Jefferson Davis, were from prominent eastern families. Yet across the West, the contributions of their native wives remain unacknowledged. The women's lives were marked by hardships and heartbreaks common for the time, but the four profiled—Caroline Davis, Kavanaugh Mary Fitzhugh Lear Phillips, Clara Tennant Selhameten, and Nellie Carr Lane—exhibited exceptional endurance, strength, and adaptability. Far from helpless victims, they influenced their husbands and controlled their homes. Remembered as loving mothers and good neighbors, they ran farms, nursed, and supported family, served as midwives, and operated businesses. They visited relatives and attended ancestral gatherings, often with their children. Each woman's story is uniquely hers, but together they and other intermarried women helped found Puget Sound communities and left lasting legacies. They were peace weavers. Author Candace Wellman hopes to shatter stereotypes.

**Thrown Among Strangers** Douglas Monroy, 1990 Every California schoolchild s first interaction with history begins with the missions and Indians It is the pastoralist image of course and it is a lasting one Children in elementary school hear how Father Serra and the priests brought civilization to the groveling lizard and acorn eating Indians of such communities as Yang na now Los Angeles So edified by history many of those children drag their parents to as many missions as they can Then there is the other side of the missions one that a mural decorating a savings and loan office in the San Fernando Valley first showed to me as a child On it a kindly priest holds a large cross over a kneeling Indian For some reason though the

padre apparently aims not to bless the Indian but rather to bludgeon him with the emblem of Christianity This portrait too clings to the memory capturing the critical view of the missionization of California s indigenous inhabitants I carried the two childhood images with me both when I went to libraries as I researched the missions and when I revisited several missions thirty years after those family trips In this work I proceed neither to debunk nor to reconcile these contrary notions of the missions and Indians but to present a new and I hope deeper understanding of the complex interaction of the two antithetical cultures
