Principles of Management for Leadership Communication Hasanraza Ansari, Principles of Management teaches management principles to tomorrow s business leaders by weaving three threads through every chapter strategy entrepreneurship and active leadership Strategic All business school teachings have some orientation toward performance and strategy and are concerned with making choices that lead to high performance Principles of Management will frame performance using the notion of the triple bottom line the idea that economic performance allows individuals and organizations to perform positively in social and environmental ways as well The triple bottom line is financial social and

environmental performance It is important for all students to understand the interdependence of these three facets of organizational performance The Entrepreneurial Manager While the General Management course at Harvard Business School was historically one of its most popular and impactful courses pioneered in the 1960s by Joe Bower recent Harvard MBAs did not see themselves as general managers This course was relabeled The Entrepreneurial Manager in 2006 and has regained its title as one of the most popular courses This reflects and underlying and growing trend that students including the undergraduates this book targets can see themselves as entrepreneurs and active change agents but not just as managers By starting fresh with an entrepreneurial change management orientation this text provides an exciting perspective on the art of management that students can relate to At the same time this perspective is as relevant to existing for profit organizations in the form intrapreneurship as it is to not for profits and new entrepreneurial ventures Active Leadership Starting with the opening chapter Principles of Management show students how leaders and leadership are essential to personal and organizational effectiveness and effective organizational change Students are increasingly active as leaders at an early age and are sometimes painfully aware of the leadership failings they see in public and private organizations It is the leader and leadership that combine the principles of management the artist s palette tools and techniques to create the art of management This book s modular format easily maps to a POLC Planning Organizing Leading and Controlling course organization which was created by Henri Fayol General and industrial management 1949 London Pitman Publishing company and suits the needs of both undergraduate and graduate course in Principles of Management
