Zionism Shlomo Schiller, Solomon Schiller, 1928 *Jewish Observer and Middle East Review* , 1959 *The Lions' Den* Susie Linfield, 2019-03-26 A lively intellectual history that explores how prominent midcentury public intellectuals approached Zionism and then the State of Israel itself and its conflicts with the Arab world In this lively intellectual history of the political Left cultural critic Susie Linfield investigates how eight prominent twentieth century intellectuals struggled with the philosophy of Zionism and then with Israel and its conflicts with the Arab world Constructed as a series of interrelated portraits that combine the personal and the political the book includes philosophers historians journalists and activists such as Hannah Arendt Arthur Koestler I F Stone and Noam Chomsky In their engagement with Zionism these influential thinkers also wrestled with the twentieth century s most crucial political dilemmas socialism nationalism democracy colonialism terrorism and anti-Semitism In other words in probing Zionism they confronted the very nature of modernity and the often catastrophic histories of our time By examining these leftist intellectuals Linfield also seeks to understand how the contemporary Left has become focused on anti Zionism and how Israel itself has moved rightward **Subject Guide to**

Books in Print ,1991 Race, Nature, and the Politics of Difference Donald S. Moore,Jake Kosek,Anand Pandian,2003-05-20 A collection of essays that show the interdependence of concepts of race and nature **Religion in Diaspora** Sondra L. Hausner,Jane Garnett,2015-10-13 This edited collection addresses the relationship between diaspora religion and the politics of identity in the modern world It illuminates religious understandings of citizenship association and civil society and situates them historically within diverse cultures of memory and state traditions **The Politics of Ethnic Survival** Gary B. Cohen,2006 This book examines how one of Imperial Austria s principal ethnic conflicts that between Czechs and Germans developed in one of the major cities during the era of industrialization and urban growth It shows how the inhabitants of Prague the capital of Bohemia constructed and articulated ethnic group loyalties and social solidarities over the course of the nineteenth century The German speaking inhabitants of the Bohemian capital developed a group identification and defined themselves as a minority as they dealt with growing Czech political and economic strength in the city and with their own sharp numerical decline in the 1910 census only seven percent of the metropolitan population claimed that they spoke primarily German The study uses census returns extensive police and bureaucratic records newspaper accounts and memoirs on local social and political life to show how the German minority and the Czech majority developed demographically and economically in relation to each other and created separate social and political lives for their group members The study carefully traces the roles of occupation class religion and political ideology in the formation of German group loyalties and social solidarities The social relations which bound together the members of the German speaking minority and the social boundaries which separated them from the Czech majority at the end of the nineteenth century proved to be selective and considerable contact went on across the lines in many facets of individuals everyday life As the German minority developed a shared group life what came to define them and to separate them from the Czech majority was a shared Austro German ethnic and national loyalty an Austro German national liberal ideology the defense of common middle class and lower middle class social and political interests and a shared German public life Both German speaking Catholics and Jews could share in the sense of German community and group solidarity provided they upheld middle class liberal values The bonds of community for the middle class and lower middle class Germans in Prague established in the 1860s tended to exclude German speaking wage laborers and lower middle class radical nationalists who might challenge liberal national values Despite all the efforts to strengthen German community solidarity and combat assimilation of German speakers with the Czech majority from the 1880s to after 1900 the organized German community could do little to prevent the absorption of working class German speakers into the Czech population of the industrial districts **The Politics of Nostalgia** Paul Spoonley,1987 The politics of nostalgia looks at the history of political racism in New Zealand From the early 1970s extreme right wing groups began to proliferate in this country and to present their ideas more forcefully The author describes the growth of extremism in the 1970s and 1980s examines the arguments style and

support for such groups and offers reasons for their appearance Extreme right wing and neo fascist groups are one part of the New Right and a move towards conservatism They represent one response to the growing concern about racial and gender issues a discontent with economic developments and a nostalgia for the untroubled days of the immediate post war period Here is an extensive analysis of the new politics of the late 1980s including a comparison between the experiences of New Zealand Australia UK and Canada Back cover Conflicting Philosophies of Education in Israel/Palestine Ilan Gur-Ze'ev,2013-06-29 effectiveness and creativity in different contexts In this issue this will be presented in full detail in the articles which refer to different aspects of the Israeli educational context This special issue of Studies in Philosophy and Education concentrates on the intellectual impotence moral devotion cultural willingness and social and technological efforts for the preservation and enhancement of the tyranny of normalizing education over human beings in a specific arena The various studies in this issue with all their differences of orientation and issues under consideration will reconstruct the ways for forcing subjects and communities to commit themselves to destroy the otherness or the human potential of the inner and external Other They reveal this phenomenon as a characteristic of both the victimizers and their 8 victims Normally philosophy of education supports this process and justifies or hides this reality As will be shown in this special issue however at the same time philosophy of education might also become a non productive or even a rebellious element in the culture industry and present a serious challenge to the present order It can address and challenge the perpetual success of normalizing education in all its versions among all rival communities narratives and armies of teachers consumers soldiers and intellectuals This of course does not guarantee that such a critique or resistance will not become another dogmatic or nihilistic blow to the free spirit or nothing but another version of normalizing education **Forthcoming Books** Rose Army,2002-02 **Christian Attitudes Towards the State of Israel** Paul Charles Merkley,2001 During the 1947 United Nations debate on the future of Palestine world opinion was powerfully affected by news of the Holocaust and the plight of Jewish refugees creating a momentary humanitarian advantage that helped mobilize support for the creation of the state of Israel However almost as soon as it became clear that the Jews had won their war for independence anti Zionists within Christianity reasserted themselves A pro Arab bloc of Western missionaries at the World Council of Churches echoed the anti Zionism that has always characterized those churches which today constitute the Middle East Council of Churches while the Roman Catholic Church never friendly to Zionism advocated the internationalization of Jerusalem to diminish the Jewish presence in the heart of the Holy Land Mainstream Protestantism championed Palestinian nationalism and still does not hesitate to portray Israel as an oppressor but most evangelical Christians see Israel's restoration as a part of God's plan In Christian Attitudes towards the State of Israel Paul Merkley demonstrates that polarized opinion continues to affect how Israel is perceived today Leo Strauss and the Crisis of Rationalism Corine Pelluchon,2014-02-01 Examines the German and Jewish sources of Strauss's thought and the extent to which his philosophy can shed light on the crisis of liberal

democracy How can Leo Strauss's critique of modernity and his return to tradition especially Maimonides help us to save democracy from its inner dangers In this book Corine Pelluchon examines Strauss's provocative claim that the conception of man and reason in the thought of the Enlightenment is self destructive and leads to a new tyranny Writing in a direct and lucid style Pelluchon avoids the polemics that have characterized recent debates concerning the links between Strauss and neoconservatives particularly concerns over Strauss's relation to the extreme right in Germany Instead she aims to demystify the origins of Strauss's thought and present his relationship to German and Jewish thought in the early twentieth century in a manner accessible not just to the small circles devoted to the study of Strauss but to a larger public Strauss's critique of modernity is she argues constructive he neither condemns modernity as a whole nor does he desire a retreat back to the Ancients where slaves existed and women were not considered citizens The question is to know whether we can learn something from the Ancients and from Maimonides and not merely about them Orthodox Judaism and the Politics of Religion Daniel Mahla, 2020-03-26 During the first half of the twentieth century nationalizing processes in Europe and Palestine reshaped observant Jewry into two distinct societies ultra Orthodoxy and national religious Judaism Tracing the dynamics between the two most influential Orthodox political movements of the period from their early years through the founding of the State of Israel Daniel Mahla examines the crucial role that religious political entrepreneurs played in these developments He frames the contest between non Zionist Agudat Yisrael and religious Zionist Mizrahi as the product of wide ranging social and cultural struggles within Orthodox Judaism and demonstrates that at the core of their conflict lay deep tensions between rabbinic authority and political activism While Orthodoxy's encounter with modern Jewish nationalism is often cast as a confrontation between religious and secular forces this book highlights the significance of intra religious competition for observant Jewry's transition to the age of the nation state and beyond **Culture and Order in World Politics** Andrew Phillips, Christian Reus-Smit, 2020-01-09 Provides a new framework for reconceptualizing the historical and contemporary relationship between cultural diversity political authority and international order **International Encyclopedia of the Social & Behavioral Sciences** Neil J.
