Teaching Buddhism Todd Lewis, Gary Delaney DeAngelis, 2017 Buddhist studies is a rapidly changing field of research constantly transforming and adapting to new scholarship This creates a problem for instructors both in a university setting and in monastic schools as they try to develop a curriculum based on a body of scholarship that continually shifts in focus and expands to new areas Teaching Buddhism establishes a dialogue between the community of instructors of Buddhism and leading scholars in the field who are updating revising and correcting earlier understandings of Buddhist traditions Each chapter presents new ideas within a particular theme of Buddhist studies and explores how courses can be enhanced with these insights Contributors in the first section focus on the typical approaches figures and traditions in undergraduate courses such as the role of philosophy in Buddhism Nagarjuna Yogacara Buddhism tantric traditions and Zen Buddhism They describe the impact of recent developments like new studies in the cognitive sciences on scholarship in those areas Part Two examines how political engagement and ritual practice have shaped the tradition throughout its history Focus then shifts to the issues facing instructors of Buddhism dilemmas for the scholar practitioner in the academic and monastic classroom the tradition s possible roles in teaching feminism and diversity and how to present the tradition in the context of a world religions course In the final section contributors offer stories of their own experiences teaching paying particular attention to

the ways in which American culture has impacted them They discuss the development of courses on American Buddhism using course material on the family and children the history and trajectory of a Buddhist Christian dialog and Buddhist bioethics environmentalism economic development and social justice In synthesizing this vast and varied body of research the contributors in this volume have provided an invaluable service to the field

From Comrades to Bodhisattvas
Gareth Fisher, 2014-08-31 From Comrades to Bodhisattvas is the first book length study of Han Chinese Buddhism in post Mao China Using an ethnographic approach supported by over a decade of field research it provides an intimate portrait of lay Buddhist practitioners in Beijing who have recently embraced a religion that they were once socialized to see as harmful superstition The book focuses on the lively discourses and debates that take place among these new practitioners in an unused courtyard of a Beijing temple In this non monastic space which shrinks each year as the temple authorities expand their commercial activities laypersons gather to distribute and exchange Buddhist themed media listen to the fiery sermons of charismatic preachers and seek solutions to personal moral crises Applying recent theories in the anthropology of morality and ethics Gareth Fisher argues that the practitioners are attracted to the courtyard as a place where they can find ethical resources to re make both themselves and others in a rapidly changing nation that they believe lacks a coherent moral direction Spurred on by the lessons of the preachers and the stories in the media they share these courtyard practitioners inventively combine moral elements from China s recent Maoist past with Buddhist teachings on the workings of karma and the importance of universal compassion Their aim is to articulate a moral antidote to what they see as blind obsession with consumption and wealth accumulation among twenty first century Chinese Often socially marginalized and sidelined from meaningful roles in China s new economy these former communist comrades look to their new moral roles along a bodhisattva path to rebuild their self worth Each chapter focuses on a central trope in the courtyard practitioners projects to form new moral identities The Chinese government s restrictions on the spread of religious teachings in urban areas curtail these practitioners ability to insert their moral visions into an emerging public sphere Nevertheless they succeed at least partially Fisher argues in creating their own discursive space characterized by a morality of concern for fellow humans and animals and a recognition of the organizational abilities and pedagogical talents of its members that are unacknowledged in society at large Moreover as the later chapters of the book discuss by writing copying and distributing Buddhist themed materials the practitioners participate in creating a religious network of fellow Buddhists across the country thereby forming a counter cultural community within contemporary urban China Highly readable and full of engaging descriptions of the real lives of practicing lay Buddhists in contemporary China From Comrades to Bodhisattvas will interest specialists in Chinese Buddhism anthropologists of contemporary Asia and all scholars interested in the relationship between religion and cultural change

The Oxford Handbook of Lived Buddhism Courtney Bruntz, Brooke Schedneck, 2025-11-10 Attention to lived religion has significantly shaped religious studies and has only recently impacted the field of Buddhism Rather than asserting

a separation between real religion happening within official organizations on the one hand and folk traditions practiced by everyday adherents on the other the lived religion model understands the religious experience as an ongoing negotiation of personal practice and belief Given the relative fluidity of Buddhism a lived religion approach decenters the most significant authorities while valuing the varied perspectives of ordinary practitioners As the field develops The Oxford Handbook of Lived Buddhism fills a major gap in the scholarship offering insight into the practices social interactions sacred spaces and outward expressions of the religion As such the Handbook will be a timely contribution opening new possibilities for study alongside texts and institutions

The Transformation of Yiguan Dao in Taiwan Yunfeng Lu, 2008-02-25 The most influential sect in the Chinese mainland in the 1940s Yiguan Dao was largely destroyed in mainland China in 1953 Yiguan Dao not only survived however but developed into the largest sect in Taiwan despite its suppression by the Kuomintang state In 1987 through relentless efforts the sect finally gained legal status in Taiwan Today Yiguan Dao not only thrives in Chinese societies but has also become a world wide religion which has spread to more than sixty countries This book based on fieldwork conducted in 2002 in Taiwan is the first English language scholarly study exclusively focusing on Yiguan Dao Lu includes a history of Yiguan Dao in mainland China but focuses on the sect's

evolution in Taiwan in the past few decades Specifically he probes the operation of Yiguan Dao under suppression in the past twenty years and examines the relationship between Yiguan Dao and its rivals in Taiwan s religious market The Transformation of Yiguan Dao in Taiwan develops the religious economy model by extending it to Chinese societies

Recovering Buddhism in Modern China Jan Kiely,J. Brooks Jessup,2016-03-29 Modern Chinese history told from a Buddhist perspective restores the vibrant creative role of religion in postimperial China It shows how urban Buddhist elites jockeyed for cultural dominance in the early Republican era how Buddhist intellectuals reckoned with science and how Buddhist media contributed to modern print cultures It recognizes the political importance of sacred Buddhist relics and the complex processes through which Buddhists both participated in and experienced religious suppression under Communist rule Today urban and rural communities alike engage with Buddhist practices to renegotiate class gender and kinship relations in post Mao China This volume vividly portrays these events and more recasting Buddhism as a critical factor in China s twentieth century development Each chapter connects a moment in Buddhist history to a significant theme in Chinese history creating new narratives of Buddhism s involvement in the emergence of urban modernity the practice of international diplomacy the mobilization for total war and other transformations of state society and culture Working across an extraordinary thematic range this book reincorporates Buddhism into the formative processes and distinctive character of Chinese history

Exploring Religious Diversity and Covenantal Pluralism in Asia Dennis R. Hoover,2022-12-26 This book examines the growing diversity of religions and worldviews across East Southeast Asia and the factors affecting prospects for covenantal pluralism in these regions According to the Pew Religious Diversity Index half of the world s most religiously diverse countries are in Asia The presence of deep religious worldview difference is often seen as a potential threat to socio political cohesion or even as a source of violent conflict Yet in Asia as elsewhere the degree of this diversity is not consistently associated with socio political problems Indeed while religious difference is implicated in some social challenges there are also many instances of respectful multi faith engagement practical collaboration and peaceful debate Whether or not religious worldview difference is part of a positive pluralism depends on a complex array of legal and cultural conditions This book explores these dynamics and contingencies in Asia structuring the inquiry according to the theory of covenantal pluralism Covenantal pluralist theory calls for a a constitutional order characterized by freedom of religion conscience and equality of rights and responsibilities combined with b a culture of practical religious literacy and virtues of mutual respect and protection Volume I offers a pioneering exploration of the prospects for this robust and non relativistic type of pluralism in East Southeast Asia Volume II examines South Central Asia The chapters in these volumes originally appeared as research articles in a series on covenantal pluralism published by The Review of Faith International Affairs

New Thinking about the Taiwan Issue Jean-Marc F. Blanchard,Dennis V. Hickey,2012-06-12 The Taiwan question has long been considered one of the most complicated and explosive issues in global politics In recent years however relations

between Taiwan and the Chinese mainland have improved substantially to the surprise of many. In this ground breaking collection distinguished contributors from the US, Asia and Europe seek to go beyond the standard recitation of facts that often characterizes studies focusing on the Beijing Taipei dyad. Rather they employ a variety of theories as well as both quantitative and qualitative methodologies to analyze the ebbs and flows of the Taiwan issue. Their discussions clearly illuminate why there is a Taiwan Problem, why conflict did not escalate to war between 2000 and 2008 and why cross Strait relations improved after 2008. The book further reveals the limits of realism as a device to gain traction into the Taiwan issue, demonstrates the importance of taking into account domestic political variables and shows how theory can be used to advance the cause of better China Taiwan relations and to analyze the potential for future conflict over Taiwan. *New Thinking about the Taiwan Issue* is essential reading not only for students, scholars and practitioners with an interest in studying relations across the Taiwan Strait but also for any reader interested in economics, international relations, comparative politics or political theory.

Getting Saved in America Carolyn Chen, 2014-08-31. What does becoming American have to do with becoming religious? Many immigrants become more religious after coming to the United States. Taiwanese are no different. Like many Asian immigrants to the United States, Taiwanese frequently convert to Christianity after immigrating. But Americanization is more than simply a process of Christianization. Most Taiwanese American Buddhists also say they converted only after arriving in the United States, even though Buddhism is a part of Taiwan's dominant religion. By examining the experiences of Christian and Buddhist Taiwanese Americans, *Getting Saved in America* tells a story of how people become religious by becoming American and how people become American by becoming religious. Carolyn Chen argues that many Taiwanese immigrants deal with the challenges of becoming American by becoming religious. Based on in depth interviews with Taiwanese American Christians and Buddhists and extensive ethnographic fieldwork at a Taiwanese Buddhist temple and a Taiwanese Christian church in Southern California, *Getting Saved in America* is the first book to compare how two religions influence the experiences of one immigrant group. By showing how religion transforms many immigrants into Americans, it sheds new light on the question of how immigrants become American.
