Race For Sanctions:

Race for Sanctions Francis Njubi Nesbitt, 2004-05-11 An important contribution to the political history of this period and a must for those interested in the influence of the great pan Africanists Elliott P Skinner This study traces the evolution of the anti apartheid movement from its origins in the 1940s through the civil rights and black power eras to its maturation in the 1980s as a force that transformed U S foreign policy The movement initially met resistance and was soon repressed only to reemerge during the civil rights era when it became radicalized with the coming of the black freedom movement The book looks at three important political groups TransAfrica the black lobby for Africa and the Caribbean the Free South Africa Movement and lastly the Congressional Black Caucus and its role in passing sanctions against South Africa over President Reagan s veto It concludes with an assessment of the impact of sanctions on the release of Nelson Mandela and his eventual election as president of South Africa

Race and US Foreign Policy Mark Ledwidge, 2012-02-06 African Americans analysis of and interest in foreign affairs represents a rich and dynamic legacy and this work provides a cutting edge insight into this neglected aspect of US foreign affairs In addition to extending the parameters of US foreign policy literature to include race and ethnicity the book documents case specific analyses of the evolutionary development of the African American foreign affairs network AAFAN Whilst the examination of race in regard to the construction of US foreign policy is significant this book also provides a cross disciplinary approach which utilises historical and political science methods to paint a more realistic appraisal of US foreign policy Including analysis of original archival evidence this theoretically informed work seeks to transcend the standard mono disciplinary approach which overestimates the separation between domestic and foreign affairs The unique approach of this work will add an important dimension to a newly emerging field and will be of interest to scholars in ethnic and racial studies American politics US foreign policy and US history

Between Homeland and Motherland Alvin B. Tillery, Jr., 2011-03-15 In *Between Homeland and Motherland* Alvin B Tillery Jr considers the history of political engagement with Africa on the part of African Americans beginning with the birth of Paul Cuffe s back to Africa movement in the Federal Period to the Congressional Black Caucus struggle to reach consensus on the African Growth and Opportunity Act of 2000 In contrast to the prevailing view that pan Africanism has been the dominant ideology guiding black leaders in formulating foreign policy positions toward Africa Tillery highlights the importance of domestic politics and factors within the African American community Employing an innovative multimethod approach that combines archival research statistical modeling and interviews Tillery argues that among African American elites activists intellectuals and politicians factors internal to the community played a large role in shaping their approach to African issues and that shaping U S policy toward Africa was often secondary to winning political battles in the domestic arena At the same time Africa and its interests were important to America s black elite and Tillery s analysis reveals that many black leaders have strong attachments to the motherland Spanning two centuries of African American engagement with Africa this book shows

how black leaders continuously balanced national transnational and community impulses whether distancing themselves from Marcus Garvey's back to Africa movement supporting the anticolonialism movements of the 1950s or opposing South African apartheid in the 1980s

The Sociology of Race Relations Thomas F. Pettigrew, 1980-03 These readings chronicle the triumphs and failures of race relations in our nation unfolding the tensions and struggles of racial conflict through the analyses of sociologists writing since the late nineteenth century The forty five articles gathered here are drawn from four of the most respected journals in the field American Journal of Sociology American Sociological Review Social Forces and Social Problems Together they document the problem of the color line providing for various eras the contemporary rationale for the status quo as well as farsighted calls for change Thus the readings reveal how sociological thought reflected racial tensions in this century while simultaneously serving as a force for reform The Sociology of Race Relations covers seven historical periods each introduced by an incisive discussion of the racial milieu of the time It begins with the era of Jim Crow laws and the great black migration from the South and proceeds to the reappearance of the Ku Klux Klan in the 20s the Depression years the Japanese American internment during the Second World War the deceptively quiet 50s that culminated in the civil rights movement of the 60s It concludes with a look at desegregation in the 70s the aftermath of the policies of the preceding decade Although the majority of selections deal with the problems of black Americans articles on Mexican Americans and Japanese Americans as well as on prejudice in general

broaden the scope of the book The editor's introduction places the entire volume in historical and sociological context A time capsule for viewing race relations and the development of sociological understanding of race relations The Sociology of Race Relations illustrates two of the discipline's major contributions to American life its ability to heighten our sensitivity to unnoticed relationships and to debunk simplistic beliefs *Rights, Race, and Recognition* Derrick Darby, 2009-04-02 What is the source of rights Rights have been grounded in divine agency human nature and morally justified claims and have been used to assess the moral status of legal and customary social practices The orthodoxy is that some of our rights are a species of unrecognized or natural rights For example black slaves in antebellum America were said to have such rights and this was taken to provide a basis for establishing the immorality of slavery Derrick Darby exposes the main shortcomings of the orthodox conception of the source of rights and proposes a radical alternative He draws on the legacy of race and racism in the USA to argue that all rights are products of social recognition This bold lucid and meticulously argued book will inspire readers to rethink the central role assigned to rights in moral political and legal theory as well as in everyday evaluative discourse Race and National Security Matiangai V. S. Sirleaf, 2023 On both a national and global stage we are witnessing a reckoning on issues of racial justice This historical moment that continues to unfold in the United States and elsewhere also creates an opening to spark and revitalize debate and policy changes on a range of crucial topics including national security By surfacing the depths to which White hegemonic power influences our institutions and cultural assumptions we gain more accurate understanding of how race manifests in national security domestically transnationally and globally In *Race and National Security* leading experts challenge conventional interpretations of national security by illuminating the underpinning of White supremacy in our social consciousness The volume centers the experience of those who have long been on the receiving end of racialized state violence It finds that re-envisioning national security requires more than just reducing the size and scope of the security state Contributors offer visions for reforming and transforming national security including adopting an abolitionist framework *Race and National Security* invites us to radically reimagine a world where the security state does not keep Black Brown and other marginalized peoples subordinated through threats of and actual incarceration violence torture and death *Race and National Security* is a groundbreaking volume which serves as a catalyst for remembering exposing and reconceiving the role of race in national security The Just Security book series from OUP tackles contemporary problems in international law and security that are of interest to a global community of scholars policymakers practitioners and students With each volume taking a particular thematic focus and gathering leading experts the series as a whole aims to rigorously and critically reflect on developments in these areas of law policy and practice Each volume will be accompanied by a series of shorter digital pieces in Just Security's online forum at www.justsecurity.org which tie the discussion to breaking news and headlines **Ethnicity, Race and the Prisoner Community** Helena Huhta, 2024-11-22 This book draws on an in-depth ethnographic study to explore the meanings and consequences of race and

ethnicity in daily life within two Finnish male prisons Set within the context of Finnish immigration it provides an excellent backdrop for studying social processes in the prison environment launched by a rapid growth in the number of foreign national prisoners It builds on the sociological attempts to comprehend the nature of the prisoner community from the perspective of ethnicity and race which has gained attention since the 2000s It explores how ethnic categories are formed in the prison space prisoner hierarchy and its logics conflicts and conflict solving discrimination and prison officers and development of distinctive prisoner cultures The study captures the consequences that signifying ethnicity and race have on daily practices equality and safety in prison This book shows how ethnic and racial categories are formed in social action and further how their meanings are in a constant process of change *Race, Gender, and Culture in International Relations* Randolph B. Asian Space Race: Rhetoric or Reality? Ajey Lele, 2012-10-20 This book explores the character and contours of the Asian Space Powers At present Asian states like China Japan and India are found investing in space technologies with analogous social and scientific and probably with divergent military intents Other Asian states like

Israel South Korea and Malaysia are also making investments in the space arena States like Iran and North Korea are faulted for using space launches as a demonstrative tool to achieve strategic objectives This work examines this entire maze of activities to unearth where these states are making these investments to accomplish their state specific goal or are they also trying to surpass each other by engaging in competition Explaining why and how these states are making investments towards achieving their socio economic and strategic mandate this book infers that the possibility of Asian Space Race exists but is presently fairly diminutive
