one white one black What would happen they wondered if they mixed white players from an elite Seattle private school famous for alums such as Microsoft s Bill Gates and black kids from the inner city on a basketball team Wouldn t exposure to privilege give the black kids a chance at better opportunities Wouldn t it open the eyes of the white kids to a different side of life The 1986 season would be the laboratory Out in the real world hip hop was going mainstream Larry Bird and Magic Johnson ruled the NBA and Ronald Reagan was president In Seattle the team s season unfolded like a perfectly scripted sports movie the ragtag group of boys became friends and gelled together to win the league championship The experiment was deemed a success But was it How did crossing lines of class race and wealth affect the lives of these ten boys Two decades later Doug Merlino who played on the team returned to find his teammates His search ranges from a prison cell to a hedge fund office street corners to a shack in rural Oregon a Pentecostal church to the records of a brutal murder The result is a complex gripping and at times unsettling story An instant classic in the vein of Michael Apted s Up series The Hustle tells the stories of ten teammates set before a background of sweeping social and economic change capturing the ways race money and opportunity shape our lives A tale both personal and public The Hustle is the story a disparate group of men finding or not finding a place in America

Social Death Lisa Marie Cacho, 2012-01-01 Winner of the 2013 John Hope Franklin Book Prize presented by the American Studies Association Social Death tackles one of the core paradoxes of social justice struggles and scholarship that the battle to end oppression shares the moral grammar that structures exploitation and sanctions state violence Lisa Marie Cacho forcefully argues that the demands for personhood for those who in the eyes of society have little value depend on capitalist and heteropatriarchal measures of worth With poignant case studies Cacho illustrates that our very understanding of personhood is premised upon the unchallenged devaluation of criminalized populations of color Hence the reliance of rights based politics on notions of who is and is not a deserving member of society inadvertently replicates the logic that creates and normalizes states of social and literal death Her understanding of inalienable rights and personhood provides us the much needed comparative analytical and ethical tools to understand the racialized and nationalized tensions between racial groups Driven by a radical relentless critique Social Death challenges us to imagine a heretofore unthinkable politics and ethics that do not rest on neoliberal arguments about worth but rather emerge from the insurgent experiences of those negated persons who do not live by the norms that determine the productive patriotic law abiding and family oriented subject
