Mixed Messages Edward C. Luck, 2010-12-01 At the turn of the century the United States is on the verge of losing its vote in the General Assembly for non payment of its arrears There are eerie parallels between the domestic debate over the United Nations in 1999 and the struggles over the League of Nations in 1919 Why many ask are Americans the first to create international organizations and the first to abandon them What is it about the American political culture that breeds both the most ardent supporters and the most vocal detractors of international organization And why can't they find any common ground In seeking to uncover the roots of American ambivalence toward international organization this

political history presents the first major analysis of U S attitudes toward both the United Nations and the League of Nations It traces eight themes that have resurfaced again and again in congressional and public debates over the course of this century exceptionalism sovereignty nativism and racism unilateralism security commitments reform and burden sharing It assesses recent domestic political trends and calls for the development of two interactive political compacts one domestic and one international to place U S UN relations on a new footing A Century Foundation Book United Nations Publications,2000 The United Nations In The Post-cold War Era, Second Edition Karen Mingst,Margaret P. Karns,2019-06-26 The United Nations faced unprecedented opportunities and heightened expectations when the Cold War ended in 1990 By the time of the UN s fiftieth anniversary in 1995 the mood had shifted Peacekeepers were bogged down in Bosnia and Somalia Iraq continued to test the UN s resolve to enforce arms control inspections In much of the world the gap between haves and have nots was increasing Everyone agreed that UN reform was needed yet the political will to effect change was absent With unmet challenges throughout the world the limits to UN power and effectiveness were being realized From regional conflicts to areas of environmental degradation and human rights abuses the UN s success depends more than ever on the way in which three dilemmas are resolved the tensions between sovereignty and the reality of its erosion between demands for global governance and the weakness of UN institutions as well as the reluctance of states to commit and between the need for leadership and the diffusion of power In this second edition the authors have undertaken major revisions along with thorough updating They explore the three dilemmas in the context of the UN s evolving role in world politics including its experience in maintaining peace and promoting development environmental sustainability and human rights the focus of an entirely new chapter They also consider the role of various actors in the UN system from major powers especially the United States small and middle powers coalitions and nongovernmental organizations to the secretaries general The need for institutional reforms and specific proposals for reform are examined Because multilateral diplomacy is now the norm rather than the exception in world politics the UN s effectiveness has been challenged by the new demands of the post Cold War era This completely revised and updated text places the UN at the center of a set of core dilemmas in world politics and provides a series of case studies that probe the politics and processes of UN action **The Quotable Kofi Annan** Kofi Atta Annan,1998 This publication presents a selection of quotes from the speeches and statements of UN Secretary General Kofi Annan covering the period from his election as Secretary General in December 1996 through March 1998 Taken together the Secretary General s statements during his first year in office constitute a wide ranging commentary on the challenges faced by the international community and are a guide to United Nations policies and to its efforts to realize the goals of its founding Charter Publisher s description *Encyclopedia of International Peacekeeping Operations* Oliver Ramsbotham,Tom Woodhouse,1999-05 Encyclopedia of International Peacekeeping Operations analyzes the broad national regional cultural and international contexts of peacekeeping Special focus is placed on such contemporary issues as human
