Jabine,Richard Pierre Claude,2016-11-11 Effective human rights advocacy and research require the use of statistics carefully collected and objectively analyzed and presented using the best techniques available Statistics that lack

credibility are of little value Those that can be defended against critics can be effective in throwing the light on violations and promoting the observance of human rights for all The contributors to this book including experts in political science public health law forensic pathology and statistics illustrate good statistical practice in the field of human rights and show the importance of collaboration between statisticians and other professionals The treatment is largely nonmathematical and the examples provide broad coverage of all features of the collection and use of statistical data on human rights violations For readers who would like to do their own analyses an extensive guide to human rights data sources is included This book is the first to describe and summarize important issues associated with the collection and uses of human rights statistics **Trade**

to be Presented at the Annual Meeting to be Held ... American Bar Association Section of Patent, Trademark and Copyright Law,1985 New Norms and Knowledge in World Politics Preslava Stoeva,2009-10-16

This book examines the process of norm development and knowledge creation in international politics and assesses these processes in case studies on protection from torture intellectual property rights and climate change Drawing on the theories of constructivism and the sociology of scientific knowledge author Preslava Stoeva demonstrates that international norms are a product of a sequence of closures and consensus reached at different social levels She contends that it is this process which makes norms permeate the social and political fabric of international relations even before they become official principles of state behaviour Proposing a theoretical model which indicates the stages of the development of norms she studies the roles that various actors play in that process together with the interplay of various types of power Through this endeavour this book succeeds in providing the reader with a better understanding of the social processes that lead to normative change in international relations New Norms and Knowledge in World Politics will be of interest to students scholars and practitioners of international relations comparative politics globalization sociology and anthropology
