In the Embrace of the Swan Rüdiger Görner, Angus Nicholls, 2010-08-31 Myths determine the way cultures understand themselves The papers in this volume examine culturally specific myths in Britain and the German speaking world and compare approaches to the theory of myth together with the ways in which mythological formations operate in literature aesthetics and politics with a focus on the period around 1800 They enquire into the consequences of myth oriented discourses for the way in which these two cultures understand each other and in this way make a significant contribution to a more profound approach to intercultural research The History of India from the Earliest Ages James Talboys
