*General Practice E-Book* Adam Staten, Paul Staten, 2019-06-10 Practical General Practice is a highly practical manual specifically designed for use during the consultation process. Containing over 1000 conditions, the unique underlying structure of the book allows the GP to see immediately what treatment is recommended and why. All recommendations are highly specific, giving a firm guide to the GP during the consultation process rather than a list of possibilities that the GP might wish to consider. Bullet points for action which give the GP an immediate summary of the issues that must be covered in the consultation. Bullet points of the key evidence which justifies those recommendations. All chapters thoroughly revised to reflect changes in the evidence and in major guidelines since the last edition. NNT values provided when available. New editorial team. New research and guidelines relating to evidence based medicine included. Greater focus on international guidelines and opinion. New introductory chapter Principles and Practice of Primary Care taking account of topics relevant to the MRCGP exam. Appendices thoroughly revised and updated. Many contributors new to this edition. New chapters on Ethics, Diabetes and Long term conditions. Extensively revised combined chapter on palliative care and end of life issues. Now with accompanying free e book on Expert Consult for the first time. Now in full colour.

**Gerontology and Geriatrics for NPs and PAs - E-Book** Jill R. Beavers-Kirby, Freddi I. Segal-Gidan, 2023-03-23 Written by NPs and PAs who have a wealth of experience in the care of older adults across all practice settings. Gerontology and Geriatrics for NPs and PAs takes an evidence based approach to both gerontology and geriatrics incorporating the latest national and international guidelines and standards of care. This first of its kind text takes an interprofessional teamwork based approach that reflects Interprofessional Education Collaborative (IPEC) core competencies as well as the unique perspectives that NPs and PAs each bring to the collaborative care of older adults. Covers both primary care and acute care of older adults and fully addresses both graduate level and practitioner core competencies necessary for optimal care of older adults. Places a strong emphasis on wellness including nutrition and the Healthy People 2020 targets. Normal aging, common syndromes of aging, disease management, patient safety particularly in acute care settings and a patient centered care approach. Features vibrant full color illustrations, a full color design for ease of navigation and graduate level learning features that include Key Points at the end of each chapter for quick reference and exam preparation. Addresses a wide range of topics specifically focused on the common medical problems of older adults with chapters logically organized for efficient study and quick clinical reference.
