

A close-up, black and white portrait of Walter Cronkite. He is an older man with white hair, looking down and slightly to the left with a thoughtful expression. His right hand is resting under his chin, with his index finger pointing upwards. He is wearing a dark, high-collared jacket. The background is dark and out of focus.

Washington Reporters Stephen Hess, 2010-12-01. In the vast literature on the way democratic governments work, the role of the press is often overlooked. Yet the press, no less than the formal branches of government, is a public policy institution and deserves to be included in explanations of the governmental process. In *The Washington Reporters*, Stephen Hess focuses on those who cover the U.S. government for the American commercial news media. His book is based on interviews with reporters and editors and on responses to questionnaires from nearly half of the over 1,200 American reporters in Washington. Analysis of these responses and comparison with the content and placement of over 2,000 of these reporters' news stories permit an unusual and sometimes startling perspective on Washington newsworld. Mr. Hess demonstrates, for instance, how information in the news regularly comes from the legislative branch of the government, despite the greater number of stories on the presidency, and he shows that Washington news dominates the front pages of daily newspapers across the country, no matter how little may be going on in the nation's capital. The author concludes that Washington news gathering fragments media power, while at the same time it shifts decisions on what is news and how it should be covered to the reporters. The import of this impression is that reporters are not simply passing along information; they are choosing, within certain limits, what most people will know about government. The freedom given and assumed by these news workers affects the shape of national affairs. *The Reporter's Companion*, Sir Isaac Pitman, 1862. **Literary Authors,**

Parliamentary Reporters Nikki Hessell, 2011-11-10. Samuel Johnson, Samuel Taylor Coleridge, William Hazlitt and Charles Dickens all worked as parliamentary reporters, but their experiences in the press gallery have not received much scrutiny. Nikki Hessell's study is the first work to consider all four of these canonical writers as gallery reporters, providing a detailed picture of this intriguing episode in their careers. Hessell challenges preconceived notions about the role that emergent literary genius played in their success as reporters, arguing instead that they were consummate gallery professionals who adapted themselves to the journalistic standards of their day. That professional background fed in to their creative work in unexpected ways. By drawing on a wealth of evidence in letters, diaries and the press, this study provides fresh insights into the ways in which four great writers learnt the craft of journalism and brought those lessons to bear on their career as literary authors. **Life**, 1929. **Chasing Hope** Nicholas D.
