Aditi, Sowad, Abu Saleh Mohammad, 2016-06-01 Today gender and gender identity is at the forefront of discussion as the plight of women around the world and issues of gender equality and human rights have become an international concern for politicians government agencies social activists and the general public Discourse Analysis as a Tool for Understanding Gender Identity Representation and Equality provides a thorough analysis of what language use and linguistic expression can teach us about gender identity in addition to current discussions on topics related to women's rights and gender inequality Focusing on issues related to women in developing countries workplace inequalities and social freedom this publication is an essential reference source for researchers graduate level students and theorists in the fields of sociology women's studies economics and government *Feminist Democratic Representation* Karen Celis, Sarah Childs, 2020-09-10 Popular consensus has long been that if enough women are present in political institutions they will represent women's interests Yet many believe that differences among women women disagreeing about what is in their interest fatally undermine both the principle and the practice of women's group representation In this book Karen Celis and Sarah Childs redress women's poverty of political representation with a new feminist account of democratic representation Rather than giving up on women's group representation Celis and Childs re think and re design representative institutions taking women's differences both ideological and intersectional as their starting point Feminist Democratic Representation considers a broad spectrum of contemporary problematics abortion prostitution sex work Muslim women's dress and Marine Le Pen to discuss women's under and misrepresentation and the good bad and the ugly representative As problem driven scholars firmly grounded in feminist and democratic empirical and theoretical political science Celis and Childs imagine what good representation for women in all their diversity could look like representation as it should be To realize this ideal in today's established representative democracies they present a second generation feminist design for parliaments and legislatures underpinned by a re thinking of feminist and democratic principles Celis and Childs conceive of representation as a m lange of dimensions and they shift

the focus in women's group representation from feminist outcome to feminist process Inclusive responsive and egalitarian representation for all women demands a new category of representatives in parliaments the affected representatives of women who are epistemologically and experientially close to differently affected women Affected representatives passionately advocate within political institutions and publicly hold elected representatives to account Feminist processes of representation have wide effects and deepen relationships between women and their democratic institutions Against the more fashionable tide of post representative politics Feminist Democratic Representation argues not simply for more but significantly better representation

forms the background upon which this book is written as it forms a timely intervention concerning the clamour for increased women's representation in African politics. The book examines the relationship between gender quotas and gender focused legislative policy outcomes in the national Parliaments of South Africa and Botswana. By investigating the utility of gender quotas to ensure the substantive representation of women in African politics, the book engages the assumption that increased women's political participation will automatically improve the qualitative well being of African women. The book is intended for both academic and non academic audiences with differing purposes. It contributes to scholarly debates on the transcending relevance of quotas beyond numbers. For non academics it provides opportunities to engage gender quotas as a policy tool to ensure the qualitative well being of African women.
