Feminism and Methodology Sandra G. Harding, 1987 Appearing in the feminist social science literature from its beginnings are a series of questions about methodology In this collection Sandra Harding interrogates some of the classic essays from the last fifteen years in order to explore the basic and troubling questions about science and social experience gender and politics

Queering Family Trees Sandra Patton-Imani, 2020-06-09 Argues that significant barriers to family making exist for lesbian mothers of color in the United States One might be tempted in the afterglow of Obergefell v Hodges to believe that the battle has been won that gays and lesbians fought a tough fight and finally achieved equality in the United States through access to legal marriage But that narrative tells only one version of a very complex story about family and citizenship Queering Family Trees explores the lived experience of queer mothers in the United States drawing on over one hundred interviews with African American Latina Native American white and Asian American lesbian mothers living in a range of socioeconomic circumstances to show how they have navigated family making While the legalization of same sex marriage and adoption in 2015 has provided avenues toward equality for some couples structural and economic barriers have meant that others especially queer women of color who often have fewer financial resources have not been able to access seemingly available choices such as second parent adoptions powers of attorney and wills Sandra Patton Imani here argues that the virtual exclusion of lesbians of color from public narratives about LGBTQ families is crucial to maintaining the narrative that legal marriage for same sex couples provides access to full equality as citizens

Through the lens of reproductive justice Patton Imani argues that the federal legalization of same sex marriage reinforces existing structures of inequality grounded in race gender sexuality and class *Queering Family Trees* explores the lives of a critically erased segment of the queer population demonstrating that the seemingly color blind solutions offered by marriage equality do not rectify such inequalities *Reproduction, Sexuality, and the Family* Karen J. Maschke, 1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's *A Comedy of Errors* Miola's edited work also features a comprehensive critical history coupled with a full bibliography and photographs of major productions of the play from around the world In the collection there are five previously unpublished essays The topics covered in these new essays are women in the play the play's debt to contemporary theater its critical and performance histories in Germany and Japan the metrical variety of the play and the distinctly modern perspective on the play as containing dark and disturbing elements To compliment these new essays the collection features significant scholarship and commentary on *The Comedy of Errors* that is published in obscure and difficult accessible journals newspapers and other sources This collection brings together these essays for the first time *Family Policy Paradoxes* Åsa Lundqvist, 2011 This book looks at political attempts to create a modern family and the aspiration to regulate the family and establish gender equality examining the regulation of the family in Sweden between 1930 and today *Families - Beyond the Nuclear Ideal* Daniela Cutas, Sarah Chan, 2012-01-01 This book discusses the theory that alternative relationship and family structures challenge the privileged status of the nuclear family as the preferable mode of family life for all and the one to be endorsed and encouraged by society **Routledge Revivals: Ideology and Cultural Production (1979)** Michele Barrett, Philip Corrigan, Annette Kuhn, Janet Wolff, 2018-06-13 Originally published in 1979 *Ideology and Cultural Production* examines the contribution to the debate surrounding culture ideology and representation in this collection of essays Originally presented as papers at the 1978 British Sociological Conference on the theme of culture the collection is tied together under the argument for a definition which emphasizes the material and ideological conditions of cultural production The volume discusses key issues such as the break with super structural theory the question of economism and the argument between culturalism and structuralism as well as the central debates of determinism and autonomy **Handbook of the Sociology of Sexualities** John DeLamater, Rebecca F. Plante, 2015-06-19 This volume provides researchers and scholars with a broad overview of the contributions of social psychologists and sociologists to the study of sexual relationships and sexual expression across the life course These contributions include analyses of the dynamics of several types of contemporary sexual relationships e.g. short term long term non exclusive and committed Chapters analyze the influence of major social institutions e.g. religion family and economy on them The content and scope of this volume have been carefully chosen to balance coverage of traditional emphases dating marriage commercial sex work sex education with new and cutting edge materials embodiment Trans asexualities Sections review major theoretical perspectives and the principal research methods

Coverage of sexual orientation is integrated throughout This volume provides excellent resources for anyone interested in research on sexualities **Sexual Knowledge** Britta McEwen,2012-02-01 Vienna s unique intellectual political and religious traditions had a powerful impact on the transformation of sexual knowledge in the early twentieth century Whereas turn of the century sexology as practiced in Vienna as a medical science sought to classify and heal individuals during the interwar years sexual knowledge was employed by a variety of actors to heal the social body the truncated diseased and impoverished population of the newly created Republic of Austria Based on rich source material this book charts cultural changes that are hallmarks of the modern era such as the rise of the companionate marriage the role of expert advice in intimate matters and the body as a source of pleasure and anxiety These changes are evidence of a dramatic shift in attitudes from a form of scientific inquiry largely practiced by medical specialists to a social reform movement led by and intended for a wider audience that included workers women and children *Contemporary Introduction to Sociology* Jeffrey C.

Alexander,Kenneth Thompson,Laura Desfor Edles,2016-01-08 The first edition of A Contemporary Introduction to Sociology was the first truly new introductory sociology textbook in decades Written by two leading sociologists at the cutting edge of theory and research the text reflected the idioms and interests of contemporary American life and global social issues The second edition continues to invite students to reflect upon their lives within the context of the combustible leap from modern to postmodern life The authors show how culture is central to understanding many world problems as they challenge readers to confront the risks and potentialities of a postmodern era in which the futures of both the physical and social environment seem uncertain As culture rapidly changes in the 21st century the authors have broadened their analysis to cover developments in social media and new data on gender and transgender issues Sexual Education Around the World - Past, Present and Future Issues Rogena Sterling,2023-09-13 Sexual education is a worldwide concern that intersects with various attitudes values and cultural norms It is an area of life that has for many years been kept private but now there is recognition that there is a need to support people especially young people in modern societies The way sexual education is taught and applied within institutions shapes the way we understand and approach human sexuality Various societies have chosen various means to provide sexual education both at school and to the wider society There is still much more development and support needed however We can begin to identify strategies for overcoming challenges in sex education promoting healthier attitudes and empowering individuals to make informed decisions about their own bodies and relationships This book is organized into three sections The first section focuses on issues in sexual education such as sexual harassment sexuality and relationship education and advocacy by people with disabilities future challenges and sex differences in physical attractiveness The second section focuses on the means of sexual health education interventions including the use of technology The last section includes a chapter on sex education and the invisibility of intersex people in the curriculum

Sexy Families for Sexy Citizens? Dagmar Mehrtens,2011-07 Master s Thesis from the year 2004 in the subject Politics

International Politics Topic Public International Law and Human Rights grade 9 0 University of Lisbon Faculty of Law Ius Gentium University of Coimbra course European Master s Programme in Human Rights and Democratisation language English abstract Over recent years sexual minorities have growingly gained attention in the human rights discourse This attention focuses on the de criminalisation and anti discrimination of lesbians gays and others However states and human rights instruments remain unwilling to view those belonging to these newly established minorities in their complexity as social individuals and citizens This makes it very difficult for sexual minorities to do things considered quite normal and essential for others such as living a family life and raising children Raising the topic of same sex families within a human rights discourse remains highly controversial Family however is more than a benevolent luxurious minority topic in modern welfare states The human family constitutes the foundation of the human rights regime and as such is a fundamental cross sectional institution and mechanism within liberal democratic societies Denying lesbians and gays the moral capacity of taking responsibility for partners and children assigns them an inferior second class status in society Framing this distinction with categorical justifications by according them a special minority status only supports hierarchical distinctions It needs to be questioned whether a specific heteronormative life long man wife conception of partnership can serve as the universal standard for marriage family and the conception of a good citizen and fully recognised member of society or whether it is not this concept of normality that needs to be questioned rather than the assumed specificities of excluded others

The Sexual Person Todd A. Salzman, Michael G. Lawler, 2008-05-21 Two principles capture the essence of the official Catholic position on the morality of sexuality first that any human genital act must occur within the framework of heterosexual marriage second each and every marriage act must remain open to the transmission of life In this comprehensive overview of Catholicism and sexuality theologians Todd A Salzman and Michael G Lawler examine and challenge these principles Remaining firmly within the Catholic tradition they contend that the church is being inconsistent in its teaching by adopting a dynamic historically conscious anthropology and worldview on social ethics and the interpretation of scripture while adopting a static classicist anthropology and worldview on sexual ethics While some documents from Vatican II like *Gaudium et spes* the marital act promotes self giving by which spouses enrich each other gave hope for a renewed understanding of sexuality the church has not carried out the full implications of this approach In short say Salzman and Lawler emphasize relationships not acts and recognize Christianity s historically and culturally conditioned understanding of human sexuality *The Sexual Person* draws historically methodologically and anthropologically from the best of Catholic tradition and provides a context for current theological debates between traditionalists and revisionists regarding marriage cohabitation homosexuality reproductive technologies and what it means to be human This daring and potentially revolutionary book will be sure to provoke constructive dialogue among theologians and between theologians and the Magisterium
