Course and Curriculum Improvement Materials National Science Foundation (U.S.),1976 **Management of Amphibians, Reptiles, and Small Mammals in North America** Robert C. Szaro,Kieth E. Severson,David R. Patton,1988
Historically the management of public lands from a multiple use perspective has led to a system that emphasizes those habitat components or faunal elements that primarily resulted in some sort of definable economic value While this often benefitted other species that were not even considered in the original prescriptions it also negatively impacted others We no longer can afford to take this simplistic view of ecosystem management We need to use a more holistic approach where ecological landscapes are considered as units and land management practices incorporate all elements into an integrated policy This includes examining the impacts of proposed land uses on amphibian reptile and small mammal populations
