Glynn, Helen Wallenstein Pearson, Mollie Sayers, 1983 *Alcoholism Treatment in Transition* Griffith Edwards, Marcus Grant, 2023-12-01 Originally published in 1980 the purpose of this book was to aid a process of rethinking alcoholism treatment Such a process was already underway in many parts of the world at the time It was hoped that this volume would be useful in the modest role of abetting such a rethinking Alcoholism treatment was definitely in transition abandoning old certainties searching for new syntheses and that is the position this book takes looking for an alternative understanding The book is divided into six parts Transition as Challenge Does Treatment Work Towards Better Questions and Better Methodologies Treatment System as Case For Study Models in Transition and Alcohol Agendas The book also contains one chapter that discusses alcoholism treatment in a developing country not often addressed at the time but acknowledgement that the problem is a global one

Gender, Drink and Drugs Maryon McDonald, 2020-08-18 Why do so many people feel compelled to drink alcohol or take drugs And why do so many men drink and so many women refrain Using ideas from social anthropology this book attempts to provide a novel answer to these questions The introduction surveys both gender and addiction It points out that we cannot say what men or women are really like in any culturally innocent sense for gender is always even in the realm of biology a cultural matter The ethnographic chapters ranging from Ancient Rome to modern Japan similarly suggest how any substance from alcohol to tea to heroin inevitably takes its meaning

or reality in the cultural system in which it exists This book will be of interest to medical anthropologists medical sociologists anyone with an interest in the contemporary direction of anthropology as well as those working in the fields of alcohol and addiction

Task Force on Women's Health Issues,1985 **Alcohol and Pleasure** Stanton Peele, Marcus Grant, 2013-05-13 There is no simple threshold between the experience of drinking and the pleasure it can bring on the one hand and the pain and suffering caused by alcohol abuse on the other But if we are to understand the role of alcohol in society then at the very least we need to acknowledge the pleasure as well as the pain Alcohol and Pleasure aims to bring together existing knowledge on the role of pleasure in drinking and determine whether the concept is useful for scientific understanding and policy consideration

*The American Experience with Alcohol* G.M. Ames, L.A. Bennett, 2013-11-11 This volume is an important contribution to our understanding of culture and alcohol in the United States Its appearance is also a milestone in the history of alcohol studies in American anthropology Over the last six years the volume s editors initially along with Miriam Rodin have served

as the coorganizers of the Alcohol and Drug Study Group of the American Anthropological Association AAA In this capacity they have organized sessions at the AAA and other meetings greatly strengthened the research network with a regular and informative newsletter and painstakingly promoted the publication of anthropological work on alcohol and drugs Appearing just as the responsibility for the Study Group is passed on to others this book is a fitting emblem of the care and energy with which its editors have built an institutional nexus for alcohol and drug anthropology in North America The contents of this volume offer a uniquely wide sampling of the diversity of cultural patterns that make up the American experience with alcohol The collective portrait the editors have assembled extends in several dimensions through time and history across such social differentiations as gender age grade and social class and through such major social institutions as the church and the family Clearly the dominant dimension of variation in the material that follows however is ethnicity The book offers us a sampler of unprecedented richness of the different experiences with alcohol of American ethnoreligious groups
