Doing Criminological Research Pamela Davies,Peter

Francis, Victor Jupp, 2011-01-19 The new edition of this bestselling textbook brings criminological research alive for students. It introduces the processes and practicalities of preparing, doing, experiencing, and reflecting upon criminological research. The success of the First Edition has been its ability to contextualize research accessibly within real-life examples of crime, criminology, and criminal justice: doing interviews with offenders in prison, undertaking evaluation on crime-related projects, using questionnaires to measure fear. Its strength continues to lie in its ability to span the process of doing criminological research, helping students to understand the journey of the researcher.
