Far Out Mark Liechty,2017-02-21 Westerners have long imagined the Himalayas as the world's last untouched place and a repository of redemptive power and wisdom Beatniks hippie seekers spiritual tourists mountain climbers diverse groups of people have traveled there over the years searching for their own personal Shangri La In Far Out Mark Liechty traces the Western fantasies that captured the imagination of tourists in the decades after World War II asking how the idea of Nepal shaped the everyday cross cultural interactions that it made possible Emerging from centuries of political isolation but eager to engage the world Nepalis struggled to make sense of the hordes of exotic enthusiastic foreigners They quickly embraced the phenomenon however and harnessed it to their own ends by building tourists fantasies into their national image and crafting Nepal as a premier tourist destination Liechty describes three distinct phases the postwar era when the country provided a Raj like throwback experience for rich Americans Nepal's emergence as an exotic outpost of hippie counterculture in the 1960s and its rebranding into a hip adventure destination which began in the 1970s and continues today He shows how Western projections of Nepal as an isolated place inspired creative enterprises and paradoxically allowed locals to participate in the global economy Based on twenty five years of research Far Out blends ethnographic analysis a lifelong passion for Nepal and a touch of humor to produce the first comprehensive history of what tourists looked for and found on the road to Kathmandu

The hippie trail Sharif Gemie,Brian Ireland,2017-11-10 This is the first history of the Hippie Trail It records the joys and pains of budget travel to Kathmandu India Afghanistan and other points east in the 1960s and 1970s Written in a clear simple style it provides detailed analysis of the motivations and the experiences of hundreds of thousands of hippies who travelled eastwards The book is structured around four key debates were the travellers simply motivated by a search for drugs Did they encounter love or sexual freedom on the road Were they basically just tourists Did they resemble pilgrims It also considers how the travellers have been represented in films novels and autobiographical accounts and will appeal to those interested in the Trail or the 1960s counterculture as well as students taking courses relating to the 1960s

Climbing Ramabang Gerry Galligan, 2013-07-17. Gerry Galligan's first book is a bold and expansive travel diary recounting his assembling of a small team of Irish mountaineers and their attempts on unclimbed mountains and unexplored valleys in the remote corners of the Indian Himalaya. Getting there the team see the hardships of the subcontinent while in the mountains they experience storms dangers and failure before ultimately success and contentment. But it is when Gerry returns to the mountains alone and his subsequent experiences overlanding across Asia and Europe back to Ireland that we start to get a glimpse of the big wide world out there. A world of temples festivals holy cows Kalashnikovs donkey herders corruption opportunists stoners and sages. Gerry gives us an insight into the day to day lives of mountain peoples the dysfunctional functionality of India. He finds charm and tolerance in Pakistan and a surprising openness in today's Iran. We travel across rural Turkey and work our way back to the efficient and affluent West where right on cue Gerry meets his first breakdown on a German train. *Climbing Ramabang* One man's understanding of mountains myth and mayhem. [Lifestyle Migration](#)

Michaela Benson, 2016-05-06. Relatively affluent individuals from various corners of the globe are increasingly choosing to migrate spurred on by the promise of a better and more fulfilling way of life within their destination. Despite its increasing scale migration academics have yet to consolidate and establish lifestyle migration as a subfield of theoretical enquiry until now. This volume offers a dynamic and holistic analysis of contemporary lifestyle migrations exploring the expectations and aspirations which inform and drive migration alongside the realities of life within the destination. It also recognizes the structural conditions and constraints which frame lifestyle migration laying the groundwork for further intellectual enquiry. Through rich empirical case studies this volume addresses this important and increasingly common form of migration in a manner that will interest scholars of mobility migration lifestyle and culture across the social sciences.

Children of the New Age Steven Sutcliffe, 2003 As the first true social history of New Age culture this presents an unrivalled overview of the diverse varieties of New Age belief and practise from the 1930s to the present day Fallen Giants Maurice Isserman, Stewart Angus Weaver, Dee Molenaar, 2010-01-01 In the first comprehensive history of Himalayan mountaineering in 50 years the authors offer detailed original accounts of the most significant climbs since the 1890s and they compellingly evoke the social and cultural worlds that gave rise to those expeditions *Backpack Ambassadors* Richard Ivan Jobs, 2017-05-23 Even today in an era of cheap travel and constant connection the image of young people backpacking across Europe remains seductively romantic In *Backpack Ambassadors* Richard Ivan Jobs tells the story of backpacking in Europe in its heyday the decades after World War II revealing that these footloose young people were doing more than just exploring for themselves Rather with each step each border crossing each friendship they were quietly helping knit the continent together From the Berlin Wall to the beaches of Spain the Spanish Steps in Rome to the Pudding Shop in Istanbul Jobs tells the stories of backpackers whose personal desire for freedom of movement brought the people and places of Europe into ever closer contact As greater and greater numbers of young people trekked around the continent and a truly international youth culture began to emerge the result was a Europe that even in the midst of Cold War tensions found its people more and more connected their lives more and more integrated Drawing on archival work in eight countries and five languages and featuring trenchant commentary on the relevance of this period for contemporary concerns about borders and migration *Backpack Ambassadors* brilliantly recreates a movement that was far more influential and important than its footsore travelers could ever have realized *Suitably Modern* Mark Liechty, 2020-11-10 *Suitably Modern* traces the growth of a new middle class in Kathmandu as urban Nepalis harness the modern cultural resources of mass media and consumer goods to build modern identities and pioneer a new sociocultural space in one of the world's least developed countries Since Nepal's opening in the 1950s a new urban population of bureaucrats service personnel small business owners and others have worked to make a space between Kathmandu's old and still privileged elites and its large and growing urban poor Mark Liechty looks at the cultural practices of this new middle class examining such phenomena as cinema and video viewing popular music film magazines local fashion systems and advertising He explores three interactive and mutually constitutive ethnographic terrains a burgeoning local consumer culture a growing mass mediated popular imagination and a recently emerging youth culture He shows how an array of local cultural narratives stories of honor value prestige and piety flow in and around global narratives of progress modernity and consumer fulfillment Urban Nepalis simultaneously adopt and critique these narrative strands braiding them into local middle class cultural life Building on both Marxian and Weberian understandings of class this study moves beyond them to describe the lived experience of middle classness how class is actually produced and reproduced in everyday practice It considers how people speak and act themselves into cultural existence carving out real and conceptual spaces in which to produce class culture *Consuming Germany in the Cold War*

David F. Crew, 2003-09-01 Sitting in the ruins of the Third Reich most Germans wanted to know which of the two post war German states would erase the material traces of their wartime suffering most quickly and most thoroughly Consumption and the quality of everyday life quickly became important battlefields upon which the East West conflict would be fought This book focuses on the competing types of consumer societies that developed over time in the two Germanies and the legacy each left Consuming Germany in the Cold War assesses why East Germany increasingly fell behind in this competition and how the failure to create a viable socialist consumer society in the East helped lead to the fall of the Berlin Wall in 1989 By the 1970s East Germans were well aware that the regime's bombastic promises that the GDR would soon overtake the West had become increasingly hollow For most East German citizens West German consumer society set the standards that East Germany repeatedly failed to meet By exploring the ways in which East and West Germany have functioned as each other's other since 1949 this book suggests some of the possibilities for a new narrative of post war German history While taking into account the very different paths pursued by East and West Germany since 1949 the contributors demonstrate the importance of competition and highlight the connections between the two German successor states as well as the ways in which these relationships changed throughout the period By understanding the legacy that forty plus years of rivalry established we can gain a better understanding of the current tensions between the eastern and western regions of a united Germany

Confession of a Buddhist Atheist Stephen Batchelor, 2010-03-02 Does Buddhism require faith Can an atheist or agnostic follow the Buddha's teachings without believing in reincarnation or organized religion This is one man's confession In his classic Buddhism Without Beliefs Stephen Batchelor offered a profound secular approach to the teachings of the Buddha that struck an emotional chord with Western readers Now with the same brilliance and boldness of thought he paints

a groundbreaking portrait of the historical Buddha told from the author's unique perspective as a former Buddhist monk and modern seeker Drawing from the original Pali Canon the seminal collection of Buddhist discourses compiled after the Buddha's death by his followers Batchelor shows us the Buddha as a flesh and blood man who looked at life in a radically new way Batchelor also reveals the everyday challenges and doubts of his own devotional journey from meeting the Dalai Lama in India to training as a Zen monk in Korea to finding his path as a lay teacher of Buddhism living in France Both controversial and deeply personal Stephen Batchelor's refreshingly doctrine free life informed account is essential reading for anyone interested in Buddhism
