Epidemiology and Community Psychiatry P. Pichot, 2013-03-14 The purpose of the World Psychiatric Association is to coordinate the activities of its Member Societies on a world wide scale and to advance enquiry into the etiology pathology and treatment of mental illness To further this purpose the Association organizes mono or multi thematic Regional Symposia in different parts of the world twice a year and World Congresses dealing with all individual fields of psychiatry once every five or six years Between these meetings the continuation of the Association's scientific work is assured through the activities of its specialty sections each covering an important field of psychiatry The programs of the World Congresses reflect on the one hand the intention to present the coordinating functions of the Association and on the other to open a broad platform for a free exchange of views Thus the VII World Congress of Psychiatry held in Vienna from July 11 to 16 1983 was composed of two types of scientific events those structured by the Association and those left to the initiative of the participants The first type comprised Plenary Sessions planned by the Scientific Program Committee and Section Symposia organized by the WPA sections the second embraced Free Symposia free papers video sessions and poster presentations prepared by the participants Altogether 10 Plenary Sessions 52 Section Symposia and 105 Free Symposia took place and 78 free papers and poster sessions and 10 video sessions were held

Depressive Illness Tomas Helgason, Robert J. Daly, 2012-12-06 The group of European Medical Research Councils EMRC was formed in 1971 and became a Standing Committee of the European Science Foundation ESF in 1975 EMRC is an association of medical research councils or equivalent organizations in Western Europe The National Institutes of Health the Israel Academy of Sciences and the European Office of WHO are associated with EMRC and take an active part in EMRC activities The main aims of EMRC are to exchange information on the research policies pursued by its member organizations and to initiate and stimulate international cooperation in biomedical research

Since biomedical research is highly international in itself EMRC concentrates its activities on furthering international collaboration in those fields where it can play a significant role as a complement to existing channels Mental illness research has been judged by EMRC to fulfill these criteria After a survey of the activities of the member organizations in mental illness research EMRC decided in 1978 to set up a study group to look for areas within this field to which EMRC could contribute As a result of the work of the study group four work shops have been arranged to define present knowledge in some specific areas and to delineate research needs The present volume contains the proceedings of the fourth workshop held in 1985 and dealing with the course and outcome of depressive illness EMRC hopes that this volume will stimulate intensified research and research cooperation on mental illnesses
