[Warfare and Society in Europe](#) Michael S. Neiberg, 2004 Warfare and Society in Europe 1898 to the Present examines warfare in Europe from the Fashoda conflict in

modern day Sudan to the recent war in Iraq The twentieth century was by far the world's most destructive century with two global wars marking the first half of the century and the constant fear of nuclear annihilation haunting the second half Throughout this book treats warfare as a function of larger political cultural social and economic issues and includes discussion of the alliances that led to the outbreak of the First World War the First World War **World War I** Nicola Barber, 2014-11-01 Why was the First World War so devastating and how had Europe become so divided into armed camps How did it affect people on both sides of the conflict and why are its consequences still felt today This book seeks to relate the overall events and chronology of the war and shows its impact on everyday lives **The Longman Companion to European Nationalism 1789-1920** Raymond Pearson, 2014-09-25 A highly topical analysis of European Nationalism from the French Revolution through to the aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were already fully established Covering an enormous range of peoples from the Icelanders to the Gypsies from Brittany to Wallachia the book presents a wealth of historical geopolitical information unavailable elsewhere Essential as a reference work it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context For historians political scientists departments of European studies and general readers **A Traditionalist History of the Great War, Book III** Alexander Wolfheze, 2025-03-13 This third volume of the series A Traditionalist History of the Great War provides an in depth reassessment of the events leading up to the outbreak of the First World War It views the systemic failure of Great Power diplomacy as the result of an increasing existential incompatibility and growing power imbalance between the Modernity aligned Triple Entente and the Tradition aligned Germanic empires The final breakdown of international diplomacy in 1914 was preceded by major crises and peripheral wars that shaped not only the alignment of the Great Powers but also the mindset of their leaders who found themselves facing historical forces beyond their control This book reconstructs the crises and wars of the pre war years as well as the military calculations of July 1914 showing how they are consistent with an overall geopolitical trajectory that inexorably led to the final showdown between the forces of rising Modernity and waning Tradition *The Routledge Companion to European History Since 1763* Chris Cook, John Stevenson, 2005 The Routledge Companion to European History since 1763 is a compact and highly accessible work of reference with a fully comprehensive glossary a biographical section a thorough bibliography and informative maps **A Traditionalist History of the Great War, Book II** Alexander Wolfheze, 2021-01-27 This book analyzes the world of 1914 by combining the approaches of traditionalist hermeneutics and 20th century geopolitics The juxtaposition of these two frameworks incorporated in the principles of Sacred Geography and Sea Power allows for a Traditionalist perspective on the choices facing the Ten Great Powers on the eve of the Great War The book's multifaceted approach follows the iconoclastic culture critique method of the Traditional School that was developed by Ren Gu non Frithjof Schuon and Julius Evola it shows the pre war world as essentially different from the post war world Thus

the Ten Great Power protagonists of the Great War may be understood on their own terms rather than through a backward projection of politically correct values on the existentially different human life world of 1914 Dislodging the historical materialist progress premise that underpins contemporary academic historiography this book reasserts the highest claim of the Art of History meta narrative meaning
