Barone, 2010-09-23 This guide provides a wealth of ideas for incorporating high quality children's books of all kinds into K-6 classrooms. Numerous practical strategies are presented for engaging students with picturebooks, fiction, nonfiction, and nontraditional texts from publisher description. [Picturing the Wolf in Children's Literature](#) Debra Mitts-Smith, 2012-12-06 From the villainous beast of Little Red Riding Hood and The Three Little Pigs to the nurturing wolves of Romulus and Remus and Rudyard Kipling's The Jungle Book, the wolf has long been a part of the landscape of children's literature. Meanwhile, since the 1960s and the popularization of scientific research on these animals, children's books have begun to feature more nuanced views. In *Picturing the Wolf in Children's Literature*, Mitts Smith analyzes visual images of the wolf in children's books published in Western Europe and North America from 1500 to the present. In particular, she considers how wolves are depicted in and across particular works, the values and attitudes that inform these depictions, and how the concept of the wolf has changed over time. What she discovers is that illustrations and photos in works for children impart social, cultural, and scientific information not only about wolves but also about humans and human behavior. First encountered in childhood picture books, they act as a training ground where the young learn both how to decode the symbolic wolf across various contexts and how to make sense of real wolves. Mitts Smith studies sources including myths, legends, fables, folk and fairy tales, fractured tales, fictional stories, and nonfiction, highlighting those instances in which images play a major role, including illustrated anthologies, chapbooks, picture books, and informational books. This book will be of interest to children's literature scholars as well as those interested in the figure of the wolf and how it has been informed over time. *Pathways to Independence* Jo Worthy, Karen Broadus, Gay Ivey, 2001-04-20 This comprehensive text presents a core of research-based approaches to engaging, effective literacy instruction in the middle grades. Methods and materials are described to foster reading skills, content mastery, and writing in different formats and for different purposes. The authors emphasize the need to tailor instruction to the needs, strengths, skill levels, and interests of diverse students. They offer recommendations for reading lists that incorporate critically acclaimed fiction and nonfiction, popular series books, and other student-friendly materials. Special features include case studies, examples of teaching and assessment activities, and commentary from middle school teachers and students. Appendices contain reproducible forms and lists of recommended reading materials and resources. **Supporting Newcomer Students** Katharine Davies Samway, Lucinda Pease-Alvarez, Laura Alvarez, 2020-05-19 Copublished with TESOL Press. Newcomers need to draw on all their resources: intellectual, linguistic, cultural, as they make sense of new content and a new language. In this much-needed book, the authors marshal research and several decades of their own experience to provide instructional practices and activities that will help teachers develop newcomers as readers and writers of English and engage them in content learning across the curriculum. Equally important, they show how teachers can advocate for these vulnerable students, many of whom have experienced multiple challenges in their home countries or in the United States, including poverty, violence, and political

persecution With chapters on assessment and second language acquisition as well as reading writing speaking and content learning their book is a timely and comprehensive guide for any K 8 educator whose classroom or school includes newcomer students
