Roxana Dragusel,2023-10-27 This is so beautifully written I couldn t stop reading I gained so much valuable information to help me grow Christine Colucci author public speaker What is feminine energy and how much of it do you have Or perhaps you believe that you don t have any Addressed to both men and women who seek their own authenticity and their own definition of what being a man or a woman is The 10 principles of the Feminine is about discovering what feminine energy is beyond any dictionary definition and why it s important to honour and cultivate it Feminine energy is not an attribute of the fairer sex it is a component of all living things and its true meaning seems to have been lost somewhere and with it people s potential of authentic self expression So identifying feminine energy in yourself and others and connecting to it is essential for leading a balanced and fulfilling life If you don t feel fulfilled or seen then perhaps you aren t in tune with your feminine aspect The 10 principles outlined in here are meant to guide the reader towards a better understanding and appreciation of the feminine which beyond everything represents our inner power and capacity to connect to the eternal and the ethereal as well as to seek and find true love This book is therefore a practical guide for integrating the spiritual aspect into our earthly existence reconciling the feminine with the masculine in an approachable and concise way without pertaining to a certain spiritual or religious ideology I Ching for Beginners

Mark McElroy,2005 Offering guidance to emperors generals and kings for millennia the I Ching remains a powerful oracle today However many seekers find its symbolism and outdated metaphors a challenge to interpret Mark McElroy strips away obscure references and reverently recasts the I Ching s ancient ideas into everyday terms making it fast and easy to apply its enduring wisdom to contemporary life Neither a translation nor a paraphrased interpretation I Ching for Beginners helps readers consult this remarkable Chinese classic with confidence For each of the I Ching s sixty four passages McElroy provides a summary study questions and keywords and explains how the message relates to relationships love work and projects Also included are directions for creating and interpreting hexagrams **When Food Is Comfort**

Julie M. Simon, MA, MBA, LMFT,2018-02-10 Learn Inner Nurturing and End Emotional Eating If you regularly eat when you re not truly hungry choose unhealthy comfort foods or eat beyond fullness something is out of balance Recent advances in brain science have uncovered the crucial role that our early social

and emotional environment plays in the development of imbalanced eating patterns When we do not receive consistent and sufficient emotional nurturance during our early years we are at greater risk of seeking it from external sources such as food Despite logical arguments we have difficulty modifying our behavior because we are under the influence of an emotionally dominant part of the brain The good news is that the brain can be rewired for optimal emotional health When Food Is Comfort presents a breakthrough mindfulness practice called Inner Nurturing a comprehensive step by step program developed by an author who was herself an emotional eater You ll learn how to nurture yourself with the loving kindness you crave and handle stressors more easily so that you can stop turning to food for comfort Improved health and self esteem more energy and weight loss will naturally follow

Heal Yourself Julie Silver,2012-01-31 How to heal faster better and stronger during recovery from a serious illness or injury a Harvard doctor s complete recovery plan When people are seriously ill or injured they receive immediate and often life sustaining treatment Then at some point they are usually left to their own devices to finish healing At the time that patients are discharged from treatment or their doctors tell them I don t have anything else I can offer you they are often shifted into a zone where they are better than at their sickest point but not as healthy as they once were This zone between illness and good health is where rehabilitation specialists focus Dr Silver calls this area of medicine where physiatrists work The Healing Zone This is the place where doctors are most concerned with physical and emotional healing after an injury or illness Our bodies are amazing in their capacity to heal however people can be taught how to heal faster better and stronger both physically and emotionally You Can Heal Yourself offers the strategies needed to achieve optimal healing Our Deceased Loved Ones Communicating with Us Ted Baxter,2015-05-19 This book summarizes seventy of my honoring the dead books that I was directed to write by the dead The dead would direct me in my dreams usually within a week after they die to write a book for their loved ones They would tell me what to write what photographs to use and to whom to send the book This is the reason why I had decided to publish this book The dead dont forget you after they die Dont forget them People dont

change after they die I've had many good experiences and a few very bad experiences with them. If I was able to communicate with the dead, you can too. It's a very interesting story how I had acquired this capability, which I discussed in this book. I was not born with that capability. I also discuss two of my prior lifetimes which have also helped me communicate with the dead. These are all things that I suggest that you know about. It all helps like it has helped me. It's all true and it can be verified in the seventy books that I have written. This book summarizes what is in those seventy books. This book gives a number of examples that nothing happens by accident. You can be whatever you want to be. I did it and you can do it too. In this lifetime I meet my mother in my 1620 AD lifetime who had given me my current capabilities.
