Politics Of Guilt And Pity:

Politics of Guilt and Pity Rousas John Rushdoony, 1978 *Building God's Kingdom* Julie J. Ingersoll, 2015-07-01 For the last several decades at the far fringes of American evangelical Christianity has stood an intellectual movement known as Christian Reconstruction. The proponents of this movement embrace a radical position that all of life should be brought under the authority of biblical law as it is contained in both the Old and New Testaments. They challenge the legitimacy of democracy, argue that slavery is biblically justifiable, and support the death penalty for all manner of crimes described in the Bible, including homosexuality, adultery, and Sabbath breaking. But as Julie Ingersoll shows in this fascinating new book, this Biblical Worldview shapes their views not only on political issues but on everything from private property and economic policy to history and literature. Holding that the Bible provides a coherent, internally consistent, and all-encompassing worldview, they seek to remake the entirety of society, church, state, family, economy, along biblical lines. Tracing the movement from its mid-twentieth century origins in the writings of theologian and philosopher R. J. Rushdoony to its present-day sites of influence, including the Christian Home School movement, advocacy for the teaching of creationism, and the development and rise of the Tea Party, Ingersoll illustrates how Reconstructionists have broadly and subtly shaped conservative American Protestantism over the course of the late twentieth and early twenty-first centuries. Drawing on interviews with Reconstructionists themselves as well as extensive research in Reconstructionist publications, *Building God's Kingdom* offers the most complete and balanced portrait to date of this enigmatic segment of the Christian Right. **Survival and**

Resistance in Evangelical America Crawford Gribben, 2021-02-23 Over the last thirty years, conservative evangelicals have been moving to the Northwest of the United States where they hope to resist the impact of secular modernity and to survive the breakdown of society that they anticipate. These believers have often given up on the politics of the Christian Right, adopting strategies of hibernation while developing the communities and institutions from which a new America might one day emerge. Their activity coincides with the promotion by prominent survivalist authors of a program of migration to the American Redoubt, a region encompassing Idaho, Montana, parts of eastern Washington, and Oregon and Wyoming, as a haven in which to endure hostile social change or natural disaster and in which to build a new social order. These migration movements have independent origins but they overlap in their influences and aspirations, working in tandem to offer a vision of the present in which Christian values must be defended as American society is rebuilt according to biblical law. This book examines the origins, evolution, and cultural reach of this little-noted migration and considers what it might tell us about the future of American evangelicalism. Drawing on Calvinist theology, the social theory of Christian Reconstruction, and libertarian politics, these believers are projecting significant soft power. Their books are promoted by leading mainstream publishers and listed as New York Times bestsellers. Their strategy is gaining momentum, making an impact in local political and economic life while being repackaged for a wider audience in publications by a broader coalition of conservative commentators and in
