**Renaissance and Baroque Art** Leo Steinberg, 2021-02 Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading Steinberg's perceptions evolved from long hard looking at his objects of study Almost everything he wrote included passages of formal analysis but always put into the service of interpretation This volume begins and ends with thematic essays on two fundamental precepts of Steinberg's art history how dependence on textual authority mutes the visual truths of images and why artists routinely copy or adapt earlier artworks In between are fourteen chapters on masterpieces of renaissance and baroque art with bold and enlightening interpretations of works by Mantegna Filippo Lippi Pontormo El Greco Caravaggio Steen and finally Velázquez Four chapters are devoted to some of Velázquez's best known paintings ending with the famously enigmatic *Las Meninas* Renaissance and Baroque Art is the third volume in a series that presents Steinberg's writings selected and edited by his longtime associate Sheila Schwartz      Forms of Faith in Sixteenth-Century Italy Matthew Treherne, 2016-12-05 The sixteenth century was a period of tumultuous religious change in Italy as in Europe as a whole a period when movements for both reform and counter reform reflected and affected shifting religious sensibilities Cinquecento culture was profoundly shaped by these religious currents from the reform poetry of the 1530s and early 1540s to the efforts of Tridentine theologians later in the century to renew Catholic orthodoxy across cultural life This interdisciplinary volume offers a

carefully balanced collection of essays by leading international scholars in the fields of Italian Renaissance literature music history and history of art addressing the fertile question of the relationship between religious change and shifting cultural forms in sixteenth century Italy The contributors to this volume are throughout concerned to demonstrate how a full understanding of Cinquecento religious culture might be found as much in the details of the relationship between cultural and religious developments as in any grand narrative of the period The essays range from the art of Cosimo I s Florence to the music of the Confraternities of Rome from the private circulation of religious literature in manuscript form to the public performances of musical laude in Florence and Tuscany from the art of Titian and Tintoretto to the religious poetry of Vittoria Colonna and Torquato Tasso The volume speaks of a Cinquecento in which religious culture was not always at ease with itself and the broader changes around it but was nonetheless vibrant and plural Taken together this new and ground breaking research makes a major contribution to the development of a more nuanced understanding of cultural responses to a crucial period of reform and counter reform both within Italy and beyond
