Renewing The Promise:

Renewing the Promise President's Council of Advisors on Science and Technology (U.S.),1992 *Renewing the Promise* Julius Fondong,2022-09-12 n this very riveting and well researched essay Julius Fondong ruminates on the continued relevance of the promises and principles that underpinned the creation of the post colonial Cameroon nation state sixty years after unification in 1961 *Renewing the Promise A Treatise on the Refoundation of the Cameroon Nation* chronicles Cameroon s experiment in statehood an experiment which according to the author sprung out of a desire and a promise to forge a new nation through the fusion of two territories with contrasting historical experiences and colonial legacies Writing from the vantage position of a policy analyst a governance expert and a conflict management practitioner Fondong contends that a combination of policy inconsistencies imperial arrogance institution capture leadership deficiencies and the brazen travesties of the nation s foundational principles and promises has led to violent internal dissent decreased state capacity for public service delivery and a development gridlock So what can be done to re align the nation to its founding promises and save it from possible disintegration Fondong proposes an overarching governance based praxis for the re engineering of the Cameroon nation from the bottom up His proposed remedy is predicated on the principles of decentralized governance the redistribution of power in a manner that addresses the right to self determination of Anglophone Cameroonians enhanced public service delivery and a strategic shift from a transactional to a transformational leadership paradigm *Renewing the Promise* is a thought provoking and captivating political essay written with exhilarating passion and prototypical clarity It can serve as a blueprint for a much needed reform of Cameroon s governance architecture *Renewing the Promise* ,1993-06 The President s Council of Advisors on Science Technology has sought to identify the weak points that threaten the otherwise strong web that binds together the federal government the tax paying public with the research intensive universities into a major scientific research higher education partnership They have also considered the relationship between universities industry In this report they present their findings recommendations for strengthening the overall enterprise *The Works of T. Kaiser, Jr.,2009-10-06 What is the central theme of the Bible Given the diversity of authorship genre and context of the Bible s various books is it even possible to answer such a question Or in trying to do so is an external grid being unnaturallysuperimposed on the biblical text These are difficult questions that the discipline of biblical theology has struggled to answer In this thoroughly revised and expanded edition of his classic *Toward an Old Testament Theology* Walter Kaiser offers a solution to these unresolved issues He proposes that there is indeed a

unifying center to the theology and message of the Bible that is indicated and affirmed by Scripture itself That center is the promise of God It is one all encompassing promise of life through the Messiah that winds itself throughout salvation history in both the Old and New Testaments giving cohesiveness and unity to the various parts of Scripture After laying out his proposal Kaiser works chronologically through the books of both testaments demonstrating how the promise is seen throughout how the various sub themes of each book relate to the promise and how God's plan to fulfill the promise progressively unfolds Here is a rich and illuminating biblical theology that will stir the emotion and the intellect *Problem Spaces* Celia

Lury, 2021-01-20 In this innovative book Celia Lury argues that the time has come for us to explore the world not only with new methods but with a new approach to methodology itself Fundamental changes are taking place in how we produce knowledge how we communicate it and indeed what we consider to be knowledge These changes demand innovative and creative responses to research questions Lury's rethinking of the nature of social inquiry starts by reconceptualizing the problem space Problems are not static or a given rather they are created and continually recomposed as part of the methodological process itself Following the line of thought that methods are practices that articulate as much as capture a social problem Lury further develops the notion of compositional methodology to think through its implications With remarkable fluency the book draws into conversation a range of hot button issues both longstanding and novel from observation reflexivity recursive measurement and feminist methodologies to participation context datafication and platformization Always with an eye to the methodological potential of new trends the book provides a strong challenge to much received wisdom and argues that a combination of techniques can contribute to better understanding of the problem spaces we all inhabit **Reports of Cases Decided in the Supreme Court of the State of Oregon** Oregon.
