Renewing Fast Track Legislation Policy Analyses In International Economics No 50:

The Controversial Pivot Robert A. Pastor, Rafael Fernanz De Castro, 2011-10-01 In 1994 two political events occurred that would have been inconceivable just five years before the North American Free Trade Agreement NAFTA was launched and Republicans took control of the U S Congress for the first time in 40 years NAFTA aimed to bind the three North American economies after more than a century in which Mexico and Canada had struggled to keep their distance from the United States Ironically at the very moment that Canada and Mexico risked a closer embrace a new inward looking U S Congress took office less sensitive to neighbors or international obligations Concerned Mexicans and Canadians asked Was it possible to advance NAFTA s goals if the U S Congress stepped on the brakes This book looks at the NAFTA integration process by focusing on the U S Congress More independent and influential than the Canadian Parliament or Mexican legislature the U S Congress seeks to shape the river banks within which North American integration runs its course but often it just dams the river The book presents the work of scholars from Mexico Canada and the United States who propose changes in congressional policymaking in order to facilitate a smoother and deeper process of integration within North America The chapter authors are I M Destler Neil Nevitte Kim Richard Nossal Miguel Basa ez Norman J Ornstein and George W Grayson *Case Studies in US Trade Negotiation: Making the rules* Charan Devereaux, Robert Z. Lawrence, Michael Watkins, 2006 Volume 1 of this series presents five cases on trade negotiations that have had important effects on trade policy rulemaking and an analytic framework for evaluating these negotiations Jacket

History Has Made Us Friends Donald E. Abelson, Stephen Brooks, 2024-06-15 Separated by the world's longest land border and engaging in over three billion dollars in trade daily Canada and the United States share security concerns cultural interests and a history spanning more than 250 years Alan Rock former Canadian ambassador to the United States has said that this special relationship represents a bond that is beyond practical It borders on mystical The rise of nativist sentiment however has raised concerns

over preserving this relationship History Has Made Us Friends illuminates the nature and dynamics of Canada US relations examining their history attributed meaning and conceptualization Contributors consider many angles and perspectives including the impact of geopolitical change to determine whether the relationship warrants the moniker special They explore whether shared values and demographic similarities continue to cement the relationship and if it still matters whether presidents and prime ministers get along While things look different today from when President Kennedy declared What unites us is far greater than what divides us History Has Made Us Friends argues that the Canada US relationship often narrowly understood or dismissed as a relic of the past continues to be unique and resilient

American Trade Politics I. M. Destler, 2005-06-08 In this comprehensive revision of the most influential widely read analysis of the US trade policymaking system Destler addresses how globalization has reshaped trade politics weakening traditional protectionism but intensifying concern about trade's societal impacts Entirely new chapters treat the deepening of partisan divisions and the rise of trade and issues especially labor and the environment The author concludes with a comprehensive economic and political strategy to cope with globalization and maximize its benefits The original edition of American Trade Politics won the Gladys Kammerer Award of the American Political Science Association for the best book on US national policy

Latin American Trade Strategy at Century's End Carol Wise, 1999 **Feasibility and Economic Effects of a Korea-U.S. FTA** Junkyu Lee, 2005 **The New Protectionists** Marcus Noland, 1999 For half a century the US Congress effectively evaded its constitutional duty by allowing the US President to take the lead in the formulation of trade policy The result was a system which avoided the danger of log rolling exercises when setting tariffs It facilitated the growth of trade and thus encouraged economic growth and rising living standards For some however the system has shown signs of fragmentation arising from new pressures and challenges and is producing policy outcomes that lack coherence and rationale New pressures include demands for trade protection arising from America's mounting trade deficit as well as jolts to the system caused by the struggle to create a North America Free Trade Agreement More recently new demands largely unrelated to trade have perversely affected the policy as non governmental organisations have demanded a role in its formulation including those concerned with environmental social and labour issues To a significant extent they have effectively privatised the policy process Moreover the US government has increasingly used trade policy for non trade purposes principally as a tool of foreign and security policy The pro liberalisation forces within Congress and the

administration have been comprehensively outplayed In the absence of political leadership and a greater public awareness of the issues at stake the stage is set for the still greater abuse of trade policy by narrow special interest groups in pursuit of particularist ends In the circumstances the best that can be hoped for may be a series of international agreements which could constrain the abuse of US domestic policy formulation But even this will require greater courage and resolve by the advocates of free trade than has recently been shown Congress Reconsidered Lawrence C. Dodd, Bruce Ian

Oppenheimer, 2005 Dodd U of Florida and Oppenheimer Vanderbilt U present a collection of 18 essays 13 are new to this edition that explore cutting edge research on the development of the modern Congress covering the patterns and dynamics of congressional change analysis of elections and constituencies and the dynamics of parties and committees Important

Trading Blows James Shoch, 2003-01-14 For the past two decades trade policy has been high on the American political agenda thanks to the growing integration of the United States into the global economy and the wealth of debate this development has sparked Although scholars have explored many aspects of U S trade policy there has been little study of the role played by party politics With *Trading Blows* James Shoch fills that gap Shoch offers detailed case studies of almost all of the major trade issues of the Reagan Bush and Clinton eras including administrative and legislative efforts to curb auto steel and other imports and to open up markets in Japan and elsewhere as well as free trade initiatives such as the North American Free Trade Agreement NAFTA the General Agreement on Tariffs and Trade GATT treaty that concluded the Uruguay Round of international trade talks the extension of presidential fast track trade negotiating authority and the approval of permanent normal trade relations with China In so doing he explains the complex patterns of party competition over U S trade policy since 1980 and demonstrates the significant impact that party politics has had on the nation's recent trade policy decisions

Fighting The Wrong Enemy Edward Graham, 2000-09-01 Antiglobalist forces have been gaining greater momentum in recent years in their efforts to reverse what they view as the negative effects of an integrating global economy Their influence was felt earlier when efforts to create a Multilateral Agreement on Investment MAI ended in failure in 1998 after France left the bargaining table at the Organization for Economic Cooperation and Development effectively killing the initiative In this book through an evaluation of the MAI itself and the issues raised by its opponents Edward M Graham takes a fresh look at the growing backlash against globalization He first explores whether the MAI negotiations failed due to political maneuvering by antiglobalist nongovernmental organizations supported by US organized labor or because of irreconcilable differences among the negotiating parties over the substance of the issue of foreign direct investment He then objectively and thoroughly assesses antiglobalist assertions that the activities of multinational firms have had negative effects on workers both in the home investor and host recipient nations with a special focus on developing nations An important finding is that multinational firms tend to pay workers in developing nations wages that are significantly above prevailing wages Graham then examines the issue of globalized economic activity and the environment

finding that economic growth in developing nations can lead to increased environmental stress but also finding that foreign direct investment can lead to reductions in this stress He finds that the worry of many environmentalists of a race to the bottom is not borne out by the evidence The final chapters assess whether or not a negotiation to create a comprehensive agreement on investment should be included in a multilateral negotiating round at the World Trade Organization in the near future The interests of developing nations in this agenda are given special attention Graham indicates that while many developing nations would accept such rules it might nonetheless be premature to press for a comprehensive agreement at this time Rather a limited investment agenda might be both more feasible and more productive Nihon Keizai Kenkyū Sentā kaihō ,1998 **Energy Abstracts for Policy Analysis** ,1980 **Institutional Challenges and Opportunities in Environmentally Sound Trade Expansion** Aaron Cosbey,Anthony T. Bryan,Carol Wise,Catherine M. Conaghan,Eduardo Silva,Fernando Masi,Frank McNeil,Helen Icken Safa,Jerry Haar,L. Ronald Scheman,Max J. Castro,Philip Oxhorn,Robert E. Grosse,Roberto Patricio Korzeniewicz,Susanne Jonas,Thomas Andrew O'Keefe,1999 In this paper Professor Conaghan reconstructs the last five years of Alberto Fujimori drawing on Vladi videos coming out on a weekly basis It examines how the plan to re elect President Alberto Fujimori deepened authoritarianism in Peru and how the opposition s struggle against re election reshaped the political landscape and laid the groundwork for a surprising opening to to regime transition
