Perspectives on the Rights of Minorities and Indigenous Peoples in Africa Solomon Dersso,2010 **Handbook of Indigenous Peoples' Rights** Damien Short,Corinne Lennox,2016-02-05 This handbook will be a comprehensive interdisciplinary overview of indigenous peoples rights Chapters by experts in the field will examine legal philosophical sociological and political issues addressing a wide range of themes at the heart of debates on the rights of indigenous peoples The book will address not only the major questions such as who are indigenous peoples What is distinctive about their rights How are their rights constructed and protected What is the relationship between national indigenous rights regimes and international norms but also themes such as culture identity genocide globalization and development rights institutionalization and the environment Integrated Human Rights in Practice Eva Brems,Ellen Desmet,2017-09-29 This book aims to introduce concrete and innovative proposals for a holistic approach to supranational human rights justice through a hands on legal exercise the rewriting of decisions of supranational human rights monitoring bodies The contributing scholars have thus redrafted crucial passages of landmark human rights judgments and decisions as if human rights law were really one borrowing or taking inspiration from developments and interpretations throughout the whole multi layered human rights protection system In addition to the rewriting exercise the contributors have outlined the methodology and or theoretical framework that guided their approaches and explain how human rights monitoring bodies may adopt an integrated approach to human rights law *The UN Declaration on the Rights of Indigenous Peoples* Jessie Hohmann,Marc Weller,2018-03-09 The rights of indigenous peoples under international law have seen significant change in recent years as various international bodies have attempted to address the question of how best to protect and enforce their rights The United Nations Declaration on the Rights of Indigenous Peoples is the strongest statement thus far by the international community on this issue The Declaration was adopted by the United Nations on 13 September 2007 and sets out the individual and collective rights of indigenous peoples as well as their rights to culture identity language employment health education and other issues While it is not a legally binding instrument under international law it represents the development of international legal norms designed to eliminate human rights violations against indigenous peoples and to help them in combating discrimination and marginalisation This comprehensive commentary on the Declaration analyses in detail both the substantive content of the Declaration and the position of the Declaration within existing international law It considers the background to the text of every Article of the Declaration including the travaux pr paratoire the relevant drafting history and the context in which the provision came to be included in the Declaration It sets out each provision s content interpretation

its relationship with other principles of international law and its legal status It also discusses the significance and outlook for each of the rights analysed The book assesses the practice of relevant regional and international bodies in enforcing the rights of indigenous peoples providing an understanding of the practical application of the Declaration s principles It is an indispensable resource for scholars students international organisations and NGOs working on the rights of indigenous peoples *Forest Preservation in a Changing Climate* Sébastien Jodoin,2017-10-05 This book explores how the transnational legal process for REDD has affected human rights in developing countries This title is also available as Open Access

Insights into Policies and Practices on the Right to Development Carol Chi Ngang,Serges Djyouyou Kamga,2020-10-06 As the world continues to grapple with a range of practical development challenges that are directly linked to livelihood concerns about human well being and declining living standards often overlooked is the human right to development which remains largely unfulfilled In the face of successive global initiatives seeking to remedy these challenges it has become urgent to ask what the universal recognition of the right to development implies if it cannot be translated into improved well being for impoverished peoples around the world The contributors in this timely volume argue that setbacks to development are deeply rooted in the failure to implement the right to development which by nature guarantees equality of opportunities and equitable redistribution of the resources that contribute to better living standards Assessing policy and practical measures or the lack thereof they offer practical suggestions for implementation that will make the right to development a reality for everyone **The Cultural Dimension of Human Rights** Ana Vrdoljak,2013-12-05 The intersections between culture and human rights have engaged some of the most heated and controversial debates across international law and theory As understandings of culture have evolved in recent decades to encompass culture as ways of life there has been a shift in emphasis from national cultures to cultural diversity within and across states This has entailed a push to more fully articulate cultural rights within human rights law This volume analyses a range of responses by international law and particularly human rights law to some of the thorniest perennial and sometimes violent confrontations fuelled by culture in relations between individuals groups and the state in international society Across the different issues tackled the contributions are tied by one unifying thread that culture is understood protected and promoted not only for its physical manifestations Rather it is the relationship of culture to people individually or in groups and the diversity of these relationships which is being protected and promoted hence the fundamental overlap between culture and human rights
