Requiem For Communism:

Requiem for Communism Charity Scribner, 2005 The first survey of the recent requiems for communism by European writers and artists **Requiem for Marx** Yuri N. Maltsev, 1993 **Book Review: Requiem for Communism** Magdalena Zolkos, 2005 **A Requiem for Karl Marx** Frank E. Manuel, 1997-09 As Karl Marx the icon has fallen along with so many communist regimes we are left with the mystery of Karl Marx the man the complexities of a life that has profoundly affected millions A Requiem for Karl Marx is Frank Manuel's searching meditation on that life a learned and elegantly written engagement with the man and his work Manuel gives us a psychological portrait rendered with sympathy and critical detachment a probing look at the connections between the private drama of Marx's life and his revolutionary ideas Manuel pursues these connections from Marx's adolescence and education in Trier through his university studies marriage to a German baroness and early affiliation with French and German radical groups Here we see Marx in moments of youthful rapture in periods of despair in maneuvers of blatant hypocrisy in outbursts of self mockery We follow his involuted response to his status as a converted Jew observe the psychic toll of debilitating bouts of illness and witness the shattering effects of his aggressive often brutal conduct toward friend and foe alike Manuel analyzes in intricate detail the central role of Marx's enduring relationship with Friedrich Engels which appears to transcend the bounds of friendship and his changing behavior toward his wife Jenny the neurotic and tragic figure who shared his dismal London exile What becomes clear in this narrative is the link between Marx's personal life and his ideas about class struggle revolutionary strategy and utopia as well as the impact of his personal vision and political tactics on the movements that followed him down to our day **In the Storms of Transformation** Ulf Brunnbauer, Philipp Ther, Piotr Filipkowski, Andrew Hodges, Stefano Petrungaro, Peter Wegenschimmel, 2024-12-16 In the 1990s states in what would become the eastern edge of the European Union transformed their political systems and economies leaving state socialism behind for liberal democracies and free markets In the ensuing decades two shipyards that were once the pride of their cities in Gdynia Poland and Pula Croatia went bankrupt unable to withstand global competition Through an interdisciplinary study of these two shipyards In the Storms of Transformation brings together a team of researchers to re-evaluate the shift from state socialism to market capitalism and offer a new periodization With perspectives from social anthropology sociology and business history the book argues that this transformation began with the oil crisis of the early 1970s and ended with EU accession in 2004 in Poland and in 2013 in Croatia highlighting the EU competition laws and global competition that pushed the shipyards into bankruptcy and diminishing the role of the revolutions of 1989 In the Storms of Transformation bridges local labour history with global market forces going beyond prevalent narratives of loss and nostalgia or successful neoliberal change to offer a novel and nuanced reading of post communist transformation and its contradictions **Sport and the Transformation of Modern Europe** Alan Tomlinson, Christopher Young, Richard Holt, 2013-06-17 In the modern era sport has been an important agent

and symptom of the political cultural and commercial pressures for convergence and globalization In this fascinating interdisciplinary study leading international scholars explore the making of modern sport in Europe illuminating sport and its cultural and economic impacts in the context of the supra state formations and global markets that have re shaped national and trans national cultures in the later twentieth century The book focuses on the emergence and expansion of media markets high performance sport s transformation by and effects upon Cold War dynamics and relations and the implications of the Treaty of Rome for an emerging European identity in sport as in other areas for example the influence of soccer s governing body in Europe UEFA and its club and international competitions It traces the connections between the forces of ideological division economic growth leisure consumption European integration and the development of European sport and examines the role of sport in the changing relationship between Europe and the US Illuminating a key moment in global cultural history this book is important reading for any student or scholar working in international studies modern history or sport

The Oxford Handbook of Communist Visual Cultures Aga Skrodzka,Xiaoning Lu,Katarzyna Marciniak,2020-04-01 Stereotypes often cast communism as a defunct bankrupt ideology and a relic of the distant past However recent political movements like Europe s anti austerity protests the Arab Spring and Occupy Wall Street suggest that communism is still very much relevant and may even hold the key to a new idealized future In The Oxford Handbook of Communist Visual Cultures contributors trace the legacies of communist ideology in visual culture from buildings and monuments murals and sculpture to recycling campaigns and wall newspapers all of which work to make communism s ideas and values material Contributors work to resist the widespread demonization of communism demystifying its ideals and suggesting that it has visually shaped the modern world in undeniable and complex ways Together contributors answer curcial questions like What can be salvaged and reused from past communist experiments How has communism impacted the cultures of late capitalism And how have histories of communism left behind visual traces of potential utopias An interdisciplinary look at the cultural currency of communism today The Oxford Handbook of Communist Visual Cultures demonstrates the value of revisiting the practices of the past to form a better vision of the future

Writing Postcommunism D. Williams, 2013-08-16 Moving through the elegiac ruins of the Berlin Wall and the Yugoslav disintegration Writing Postcommunism explores literary evocations of the pervasive disappointment and mourning that have marked the postcommunist twilight

After the Berlin Wall K. Gerstenberger, J. Braziel, 2011-11-21 Twenty years after its fall the wall that divided Berlin and Germany presents a conceptual paradox on one hand Germans have sought to erase it completely on the other it haunts the imagination in complex and often surprising ways

Committing the Future to Memory Sarah Clift, 2013-09-01 Whereas historical determinacy conceives the past as a complex and unstable network of causalities this book asks how history can be related to a more radical future To pose that question it does not reject determinacy outright but rather seeks to explore how it works In examining what it means to be determined by history it also asks what kind of openings there might be in our encounters with history for interruptions re readings and re writings Engaging texts spanning multiple genres and several centuries from John Locke to Maurice Blanchot from Hegel to Benjamin Clift looks at experiences of time that exceed the historical narration of experiences said to have occurred in time She focuses on the co existence of multiple temporalities and opens up the quintessentially modern notion of historical succession to other possibilities The alternatives she draws out include the mediations of language and narration temporal leaps oscillations and blockages and the role played by contingency in representation She argues that such alternatives compel us to reassess the ways we understand history and identity in a traumatic or indeed in a post traumatic age

Romania Confronts its Communist Past Vladimir Tismaneanu, Marius Stan, 2018-05-17 Reckoning with mass crimes perpetrated by an ideologically driven regime entails engaging in a thorough going exploration of its utopian foundations In the case of Romania such an analysis requires an interpretation of the role of personality in the construction of a uniquely grotesque and unrepentant form of neo Stalinist despotism Of all the revolutions of 1989 the only violent one took place in Romania Confronting its communist past therefore involves addressing the abuses committed by the communist regime up to its very last day its failure to engage in Round Table type agreements with democratic representatives and the repression during the first post communist years a direct legacy of the old regime This book shows how moral justice can contribute to a restoration of truth and a climate of trust in politics in the absence of which any democratic polity remains exposed to authoritarian attack

Explaining the History of American Foreign Relations Frank Costigliola, Michael J. Hogan, 2016-03-09 This volume presents substantially revised and new essays on methodology and approaches in foreign and international relations history

What is Soviet Now? Thomas Lahusen, Peter H. Solomon, 2008 Economists and political scientists wrestle with the challenges faced by Russian officials and public alike in adapting to a market economy and democracy including the fragility of property rights and elections still rooted in old institutional structures This book examines the reforms of health and welfare and the hierarchy of privilege and access and

consider how Putin's statist approach to mythmaking compares to that of previous Soviet and post-Soviet regimes. Historians and anthropologists explore the issue of nostalgia, gender, punishment, belief, and how history itself is being created and perceived today. The book concludes with a journey through the ruined landscape of real socialism.

Worlds Apart? A Postcolonial Reading of post-1945 East-Central European Culture Cristina Sandru, 2013-01-16

This study explores the relation of the Eastern European problematic to postcolonial critical practice, interrogating the extent to which postcolonialism can help illuminate instances of imperial domination in non-Third World contexts. It argues that colonisation is to be understood principally as a condition of ideological domination that has engendered similar forms of literary and cultural resistance; consequently, it offers a comparative framework which enables a reading in differential contexts of texts that ostensibly have little in common but which, on close examination, reveal a shared imaginative space, rhetoric, and narrative agency. The book consists of two interrelated parts. Part one is a critical discussion of the ideologies, cultural imaginaries, and representational practices articulated in a diverse range of representative postcolonial and post-1945 East-Central European texts; these are shown to share, despite dissimilar conditions of production, uncannily related narrative modes and thematic emphases. Part two is a comparative literature case study which discusses two authors whose work is both highly representative of the cultural formations discussed in the first part: Milan Kundera and Salman Rushdie, and at the same time highly controversial. The chapters dedicated to Kundera's and Rushdie's work examine the cultural geography of their novels, particularly in the writers' use of memory and story-telling to reconfigure history and personal identity in conditions of literal and metaphorical displacement. While their novels thrive on ironic subversion and ambiguity, they simultaneously gesture towards a redemptive space of the imagination transcending the constraints of both locality and history.
